H. R. Streyss:

Dear Sir—i do not believe in puffing, nor would Indorese a humburg, but I consider it no more than real justice to speak well of Vegetine, believing it to be an excellent medicine. I have used secretal battles of it to my entire satisfaction and great relief from an inexplicable Nervousness, which had cansel me great suffering and sicepiess nights, have walked the floor and resorted to different methods for relief, to no purpose. I finally thought I would give Vegetine a trial, with tatte faith, I will admit; but to my surprise and great relief, a few doses cours need me that I had got hold of the right thing for my difficulty. It sent out humor from my blood that, I have no doubt, was the cause of the misery I had endured, and I found relief as soon as a medicine could relieve a disease of that kind. When I began its use I seidom got a night's sieep, or half a one, and my appetite was poor, and as a consequence, I was running down rapidly; but, after a few doses, I saw a radical change every way, and am thoroughly satisfied with Vegetine, and recommend it to any person suffering as I did. Respectfully,
