I trotted n y pooy along pretty briskly, ur's ride overtook un Indian riding s'ow v along on a mustang. ludians in the Territory are friendly. They are warm friends if you have a bottle of winsky and a little money, and will never leave you till the money and whisky are gone. I found that he was going to the "Big Spring," as he called it, or Baxter I found that he was going to the Spring," as he called it or Baxter Springs, in the southern part of Kansas, the end of my journey. He said the reason I had seen no one was I had traveled between two ranges of settlements all the way. Had I gone ten miles to the north I would have struck one of them. But I was not sorry I had not. My companion could speak English very plainty, and was very dirty and lazy. He was a good type of the inhabitants of the Territory. He was clad tern, buttoned with brass army buttons, and had a blanket fastened at the hips and wrapped around his legs to the knees, while his feet were covered with moccasins. He said we were within two days' travel of the springs, and that about one hour before sunset we would strike off from the trail and seek shelter for the night among the Indian settlements. So we traveled along, he being very shy, I har:lly knowing how to manage him, till I thought of the whisky bottle. I presented it to him. There was a change as if by magic. His tongue was loosened and there was no more silence. He told me Indian stories and I was regaled with Indian

He told me that nine tenths, of the people were against the opening of the Territory to settlement, but they did not teel safe against it on account of treaties often broken. He said if it did happen there was no telling where it would end end, for the people would surely rise against them, and they would not rise unarmed or unnear sunset, and according to his promise youd doubt. we branched off towards the settlement. In the day's ride there had been a great change in the country, for it assumed Messouri but the climate was the same. It was the mixture of plain, woodland and ed, and I found there the District Munsiff bluff thrown together in wonderful confusion. Now and then an Indian cabin often there would be quite a well kept farm, but it was Indian tarming after all. overlooking a pretty little stream that ripreached the settlement, where we were to tain how loose the string hangs at the stop for the night.

toria's reign. A Cheap Journey.

The Paris Figuro has evolved from he world without any expense whatsoever to the traveller, which expedient it fervently recommends to enterprising but impecunious tourists for their adoption. The first thing the wanderer does is to become a Jew. Having performed hottest weather in the Nile delta at the of the Czar's territory. Thence he will troops have yet to pass through the most be immediately expelled and conveyed trying climatic ordeal of the campaign. At gratis to Lemberg, in Gulicia. At Alexandria the nighest recorded tempera Lemberg he will be received by Law-rence Oliphant, who will forward him to the United States at the cost of the forward relief to the daily alterna-tions of heat, which, perhaps, most Jewish relief fund. Arrivedin America, the traveller puts on the raiment and demeanor of a Chinese. He will then showers," says keith Johnston, "there is showers," says keith Johnston, "there is showers," says keith Johnston, "there is only an average of thirteen rainy days in only an average of thirteen rainy days in the says of the constant of the showers," says keith Johnston, "there is showers," says keith Johnston, "there is only an average of thirteen rainy days in only an average of charge by a philanthropic company, the year at Cairo, in the spex of the delta." The Austrian meteorological series shows element from the States, Immediately that 'he average raintall, while nothing at on being set ashore in a Chine-e port all in the three summer months, is scarcehe should give out that he is a born Russian, entrusted with a secret political mission, and, therefore, traveling Bey to hope for any serious decomfiture in disguise. The Chinese authorities will at once cause him to be transported severe autumn climate of Egypt. But as to their northwestern frontier, where the maximum rise of the Nile generally they will hand him over to the Russians. These, as soon as they find that troops will increasingly suffer until then the stranger is a Jew, will pass him on from the terribic heat the decisive opera to the capital of Austrian Poland; and tions of the campaign may be considerably when, for the second time, he arrived in delayed. The Russian army in its advance Lemberg, he will have "put a girdle toward Khiva in the campaign of 1839-40 round about the earth" quite as inex-pensively, if not altogether as expe-trom a heat of over 100 degrees to a cond ditiously, as ever Pack did in his best cold of 45 degrees below zero, and Kuiva

A Entilesuake's Venom.

A man who was bitten by a rattlesnake but recovered says about the math day after the bite his arm swelled to a frightful size, and his temperature rose to 106 degrees. He had drank a pint of whiskey, to which he was unaccustomed, been a bell-founder by trade lived in immediately on being bitten, and at the 1284, when he made four bells for the hospital four ounces of whiskey daily cathedral church of Exeter, none of were injected under the skin, over the which remain; and one which is dated stomech. When, on the ninth dayafter 1296 is the most sucient identified in his misfortune, his arm swelled and his England. The oldest bell mentioned by fever became so high, it was thought Mr. North still hanging in Norththat he could not live. The wound hamptorshire steeple is that of Coid made by the snake in his thumb was Ashby, which bears the date 1317; but kept open, and was allowed to bleed as there are many undated examples, much as it would, but this afforded no which, from the style of the inscription, material relief. But, on the evening of must be considerably older. One hunthe day named, he was taken with dred and thirty seven in all may be said bleeding at the nese. He bled very with certainty to have been cast before copiously and experienced relief from the commencement of the seventeenth that time. The swelling of his arm century, and of these 23 are dated. In speedily disappeared, and his fever left Leice sters ire Mr. North found 140 of speedily disappeared, and his lever lett Leicesterstire Mr. North found 140 of a week as wages. RUPTURE, Noted of Personnel by J. B. MATERY

In a paper ! y Dr. P Manson it is shown that the female mosquito, after being gor-ged with human blood, repairs to a agnant water, and there, in a semi-torpid condi-tion, digests the blood. The eggs which are deposited float on the water and become the "j impers" of the pools. Filar se thus enter the human system with the drinking water and pierce the tissues of the alimentary canal. Lassly, the filanze met with in the blood are discharged in countless swarms, completing the genetic

of all other medicines by Dr. R. V. Pierce's "Golden Medical Discovery" is approaching. Unrivalied in bilious disorders, impure blood, and consumption, which is scrofulous disease of the lungs.

THE Brookfield bank robbers got about a thousand dollars apiece, and had the mortification of a speedy arrest and a trial with a sentence of twentyfive years each in prison. It all depends upon how the robbing is done. If from upon how the robbing is done. If from the outside by the aid of nimmies, false keys, etc., it goes hard with the culprit one says. "It works like a class and saves me the course of the truth of this." if caught; but scientific plunder by some one connected officially with the bank, even though the amount stolen runs into the millions, is proportionally lightly punished, if, indeed, it is at all.

Get the Original.

Dr. Pierce's "Pellets"—the original "Little Liver Pilis" (sugar-costed)—cure sick and bilious headache, sour stomach, and bilious attacks. By druggists.

FROM frying-pan to fire: A Memphis darkey who stole a mule tried to engage a lawyer who once saved him from prison. The lawyer said he could not help him until he paid his fee in the former case. "Why, box," exclaimed the dis-consolate darkey. "I stole dat mule specially to sell him and pay you." At last accounts he was still without a legal adviser.

Young men or middle aged ones, suffering from nervous debility and kindred weaknesses should send three stamps for Part VII of World's Dispensary Dime Series of books. Addres World's Dispen-sary Medical Association, Buffalo, N. Y.

SCRIPTURAL: There is a wealthy brewer in Montreal who built a church and inscribed on it: "This church was erected by Thomas Molson at his sole expense. Hebrews xx." Some of the McGill College wags got a ladder one night and altered the inscription so as to make it read: "This church was creeted by Thomas Molson at his soul's expense. He brews XX."

The Popular Demand.

So great has been the popular demand for the celebrated remedy Kidney-Wort, that it is having an immense sale from Maine to California. Some have found it inconvenient to prepare it from the dry compound. For such the proprietors now prepare it in hased form. This can be procured at the druggists. It has precisely the same effect as the dry, but is vory concentrated so that the dose is much Sustier. - Lowell Mail.

whose popularity was not excessive in a certain Scotch town, having refused an importunate beggar, she renewed her application: "Now, my lord, if ye'd just gi' me ane little savpence I could treat every friend ye have in the toon,"

"Is it possible that Mr. Go frey is up and at work, and cured by so simple s

remedy?'
"I assure you it is true that he is entirely cured and with nothing but Hop Bitters: and only ten days ago bis doctors gave him up and said he must die!"
"Well a day! That's remarkable! will go this day and get some for my poor

George -I know hope are good." "You told me, sir, that the horse was entirely without fault, and yet he is blind. The dealer looked blandly into the irritated countenance of the loser by the transaction, and said, with charming insocence, "I do not regard blindness

as a fault, sir; it is a misfortune." Vegetine will regulate the bowels to healthy action, by stimulating the secretions, cleansing and purifying the blood of poisonous numors, and, in a healthful

and natural manner, expels all impurities without weakening the body. Some have asserted that no buildings

sufficiently espacious to hold a muititude of people, could be constructed so as to rest chiefly upon two pullars; but this is a mistake, for Piny mentions two theatres, buili by Curio, of amazing dimensions and made of wood. They were so contrived that each of them was made to depend upon one hinge. This led Pliny to censure the madness of the people, who would venture into a place for their pleasure, where they sat on such an uncertain and unstable seat; for if that hinge had given way the slaughter would have been dreadful. Shaw supposes the temple of Dagon to be of the same kind with the succent sacred inclosures, surrounded in part, or allegether, with some plain or clustered buildings. He says that palaces and courts of justice in Eastern countries are built in this lashion, and upon their festivals and rejoicings a great quant ty of sand is strewn upon thearea for the wrestlersto fall upon, while the of the root cloisters round about is crowded with spectators. He | DR. H. W. LOBB, MEDICAL OFFICES. mentions often having seen several hundreds of people amused in this manner upon the roof of the Dey's raisce in A'only by one or two contiguous pillars in the front, or elee in the centre. Sampson must have been in a court or area below, and upon a supposition that in the house of Dagon was a c'olstered structure of this kind, the pulling down the front or two centre pillars which suppor ed it, must have occasioned the catastrophe which happened to the Pullstines.

"Sellers' Liver Pilis" have been the standard remedy for malaria, liver com plaint, costiveness, etc., for fifty years. Fibrin .- M. Setchenoff has found that

the white of eggs, on being boiled in vacuum, turns solid as fibrin. In order to ascertain if the vellow of ergs has some influence on this reaction, experiments were made, and it was found that when a small quantity of the yellow is admixed, the solidification of the all-umen, as mentioned if not satisfactor of painted with our Paint. above, is five times quicker. This fact, besides being a matter of great importance in the United States. for physiology, allows us to obtain the alumen in a more pure form. Alten's Brain Food.

Cures Nervous Debility and Weakness of Generative Organs, \$1 all druggists, Send for circular. Allen's Pharmacy, 313

First av. N. Y. Dr. Scheffer, in examining the influence of speed upon the number of railroad seci-

lents-after making due allowance for distance traveled, the principal kinds of secudents, and other considerations necessary to be estimated in order to obtain a rne basis of comparison-finds that the tanger of bodily injury increases as the suare of the speed, and that the danger f injury to the track or destruction of the oiling stock is as the cube of the speed.
