## A STRANGE REMINISCENCE.

he Facape of a Well known ex-Arms Surgeon from an Uniorseen Danger. (Baltimore American.)

Messes, Editors: I seldom appear publicly in print, but the facts coenected with my experience which follow are so striking, and bear so closely upon the experience of others, that I venture to reproduce them entire:

practicing medicine in New Orleans. The summer had been excessively hot and everybody was complaining of being ex-hausted and feeling tired. It was not an unfrequent occurrence to have patients ask for something to relieve this weary sensa-tion, and that I should also partake of the same universal lassitude or weakness, did some loop of ribbon or of braid, and not alarm me, I supposed that over-work when the mould is about half full of and exposure had produced a temporary physical prostration; therefore I made a trip to St. Paul, Minn., thinking that a few weeks in a cooler climate would soon reinvigorste me. Little did I dream, however, what was in store for me. Atter getting settled in my new quarters 1 took a short waik every day, and patiently awarted a return of strength, but in spite of all my efforts I seemed to be losing strength; and even any slight exercise became labor rious and tiresome. During this time I had frequent dull aching pains in my head nament for the corner of a room is made and through my back and hips, occasions shooting pains in various parts of the body, with sereness, shortness of breath, and pal pitation of the heart. My feet and hands would be like ice one day, and burn with heat the next. I had no desire for food, and what I did eat distressed me; my sleep became disturbed with the frequent desire being laid upon the board when freshly to urinate. The quantity of fluid passed would at one time be small and at another quite profuse. Then for days I would be perfectly free from this desire and nothing seemed to be the matter; nevertheless my debility gradually increased. My eyelids were puffed out; my bowels were alternately torpld and too active, the urine would be clear some days, on others it would be of high color and deposit a black dust sedi-Manche,—Chop your meat (cold) meat, and at still others there would be a cry fine, season with salt and pepper, whitish appearance and a thin greasy scum would rise to the top. The pains in my head, back, chest, joints, bowels and bones were horrible in the extreme. I went in vain from place to place and consulted the best medical authorities the country af-fords; I would have a chill one day and a burning tever the next. I suffered excruciatingly with a numbness of my feet and hands, and at the base of the brain and between my shoulders; at times my limbs and body would bloat and physicians said I was suffering from the dropsy and could

not recover.
How I could be so blind to the terrible trouble that was devouring me, I do not know; but there are thousands to-day who are suffering from the same cause and are as ignorant of its nature as I was. My skin was the color of marble at one time, and then again it would be like saffron, and this terrible restlessness, and I might say wildness, was followed by a dull, heavy, drowsy sensation. I was wasted to a mere skeleton except when the dropsical bloat occurred. I tried all the celebrated mineral waters of this country and Europe; all kinds of medicine and all kinds of doctors. Still no help came. I lay at my hotel in Philadelphia, where I was temporarily so-journing, given up by friends and physicians alike, when there providentially came into my hands a little pamphlet which I carefully read, and from which cure of all forms of kidney disease, and I therefore laid aside my prejudice and comlife was saved by Warner's Safe Kidney and Liver Cure, the remedy I used.
It may seem strange that I, being a phy-

is the fact. I had the symptoms of every other disease, and I did not suspect that my kadneys were in the least particular out of order; and here is just where I was in the greatest danger, and where most yolks of two beiled eggs and a table-spoonful of chopped green pickle.

I find that I am only one of thousands who are suffering from kidney disorders, which neglected, surely terminate in Bright's disease. I also know that physicians may treat these disorders for months without knowing clearly what the trouble is, and even after ascertaining the cause, be unable to prevent it. When death, however, finally overtakes the helpless victim they disguise its real cause, attributing it to heart disease, convulsions, apoplexy, ver-

tigo, paralysis, spinal meningitis, blood and uremic poisoning, etc., etc. Words, of course, fael to express thanks to H. H. Warner & Co., of Rochester, N. Y., for giving the world such a needed and certain specific as the Sate Kidney and Liver Cure, but such as they ands to whom I have lectured upon the laws of health and hygiene I commend this letter most cordially, and warn them to beware of the insidious nature of a disease over which physicians confess they have no control and which in one form or conful of salt and pour over this a another, is carrying more people to untime

## Value of Montana Grasses

It is claimed that Montana grasse enough water to cover the ham; boil world. They grow in bunches, and three hours, or until the skin will peel have solid stalks from six to ten inches off easily. Remove the skin, cover the in height, whose heads are filled with ham with a crust of sugar, and bake in sweet nutritious seeds. It is a kind of "standing hay" for Winter use. As we the ham frequently while baking. It saw it, it looked like wheat, dead ripe, and it is said to retain this color till Europe." Spring. But while the pasturage is so free and open, still every ranchman has his own range with his cabin and corral half pint of honey, purce of three lemons; mix and let all boil well; let cool and his cattle and turning them loose for none of that. Every time I've be bottle. Dose, one cupful on going to bed, one-half cupful before meals. The them on the approach of a storm by more than I am. People who live in them on the approach of a storm by feeding them at home, and they soon glass houses should not throw stones." become independent and learn to "rustioned, the Winter of 1879-80 was very now building sheds near well sneltered canyons, as a precautionary measure, Boil in two waters, throwing both away. and also cuiting and putting up hay When the onions are tender, have ready at a cost of only about \$1 a fon. his coat; a custard pie was in his hand; a pair of lavender trousers hung over ne arm, while a bent piece of stove-pipe was held under the other; a green apple was in his coat pocket; his other hand contained a plate of ice cream, a In the month of September, 1879, I was glass of soda water and a can of keroene. Beside him walked a mule with a garden gate on his back, and a bultdog and a goat. He created a great deal of consternation until he stated that he was a journeyman humorist, accompanied by his professional instruments, which he desired to store for a few days, a request that was cheerfully granted by the staff

> The Frederickton (New Pronsunck Can.) Reporter says: "Nobody can but ad mire the persistent enterprise manifest ed by the owners of St. Jacobs Oil in keep ing the name before the public. It receiv ed a big send off in the House the other day by the Hon. Mr. Perley, who warned his colleagues in the Government of the danger of Bear Killers receiving two bounties for one nose; the judicious use of the Oil causing rapid growth."

> TRANSIT of Venus: It did not require a large outlay of money to illustrate the transit of Venns. Many of our contemporaries got up a pretty accurate picture of the show, "taken on the spot," by inserting a paragon period in the ring of a druggist's label. The expense of these works of art was so trifling that very few of them will be preserved to be utilized when Venus makes her next transit, one hundred and twenty-two years hence.

... "Men condemn in others what they practice themselves." Those who prac-tice the use of kidney-Wort never condemn its use by others, but commend it to all affected with piles, dyspepsia, consti pation and all other diseases resulting from a disordered state of kidneys, liver or bow-

Diamond dyes are so perfect and so beautiful that it is a pleasure to use them. Equally good for dark or light colors. 10

A virgin forest: The London Times prints the following palpably imaginary story of "a certain Irish M. P.," who story of "a certain Irish M. P." who had been describing his travels in the far west and the "virgin forests" there. What is a virgin forest?" asked an auditor. "Phwat is a virgin forest is it ye whant to know? A virgin forest, sir, is one one pwhere the hand o' man has niver set fut, bedad?"

Easily Proven .- It is easily proven that maisrial fevers, constipation, torpidity of the liver and kidneys, general debility, nervousness, and neuralgic ailments yield readily to this great disease conqueror, Hop Bitters. It repairs the ravages of disease by converting the food into rich blood, and it gives life and vigor to the aged and infirm always.

HAND but not heart: "That daughter of 'Squire Finch is a mighty pert-lookthe market, too." 'Very likely, al-"O, yes! I was around 'You have?" there last evening soliciting her hand of the fact. He said I had Bright's Dis- and heart. She gave me the first with emphasis, but the refusal I got on the balance was equally convincing.

"I THINK I shall have to ask you escort this evening," said a sister to her menced its use. At first my stomach re- | big brother. "Well, I guess not. Do good deal of such accommodation it

> \*No lady of refinement likes to resort to superficial devices to supply a become semblance of her former beauty. It is health alone that kindles the fire that lights the countenance and brings back the fresh tints of the apple blossoms to the faded cheek. If anything on earth will do this it is Mrs. Lydia E. Pinknam, Vegetable Compound which has already brought health to multitudes with whom all other means had failed.

An attractive ad,: A clerk of an emin ently respectable house, the head of which is a deacon, was instructed to prepare an advertisement and have it inserted in the papers. He prepared one which read: "The pot scooped! We hold four aces to the bob-tail flush of any other house in town on fine table

BEITISH heroes at home: "And oh by the by, my son tells me you don't nake his shirt collars stiff enough. He's in the Guards, you know, and they go in for being yery particular!" "Well, ma'am, all I can say is, I've got a son in the Guards myself, and I allers washes for 'im when he comes 'ome and he don't make no complaints!"

### Lost Faith in Physicians

There are innumerable instances where cures have been effected by Scovill's Sarsaparilla or Blood and Liver Syrup for all discussof the blood, when they had been syrup for an increased a no coool, whose they had been given over by their physicians. It is one of the best remedies ever offered to the public, and as it is pre-pared with the greatest care, as a specific for certain discares, it is no wonder that it should be more effectual than instily written and carelessly prepared prescrip-form and the law of the content tions made by incompetent physicians. Take Scorill's Blood and Liver Syrup for all disorders arising from men as well as by eminent physicians and others.

PERSONAL note: 'Little girl, do know whose house this is?" asked a solemn looking old man of a bright child seated on the church steps. "Yes, sir it's God's, but He ain't in," she added as the old gentleman was about to walk up the steps; "and His agent's gone to

HAD him there: "You have been up here before me half a dozen times this year," said an Austin Justice, severely, to a local vagrant, "Come, now, Judge,

On Thirty Days' Trial The Voltage Bett Co., Marshall, Mich. will send Dr. Dye's Celebrated Electro Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with nervous debility, lost vitality and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor.—Address as above.-N. B.-No risk is incurred, thirty days' trial is allowed.

invalids, broken down in health and spirits by chronic dispepsia, or suffering from the terrible exhaustion that follows the attacks of acute disease, the testimoty of thousands who have been raised as by a miracle from a similar state of prostration by Hostetter's Stomach Bitters, is a sure guarantee that by the same means you, too, may be strengthened and restored.

For sale by all Druggists and Dealers generally.

The Bad and Worthless are never imitated or counterfeited. This is especially true of a family medicine, and it is positive proof that the remedy imitated is of the highest value. As soon as it had been tested and proved by the whole world that Hop Bitters was the purest, test and most valuable family medicine on earth, many imitations sprung up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of if. B. Many others started instrums put up in similar style to H. B., with variously devised names in which the word "Hop," or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealin in imitations or counterteits.

Two more ship canal schemes are in process of organization by private associa-tions, one of which is for the construction when the sir is calm he expects to attain a speed of 15 miles per hour, but the rubble speed of 15 miles per hour, but the public million dollars, while the other contemplate is not informed what the motive power is to re. The world has grown to be so incredulous in regard to aerial navigation that the scheme exertes but little interest. of Fiorida, connecting the Guif of Mexico with the Atlantic Ocean, at an expense of shout 5 million dollars. Both of these en torprises, besides their obvious benefit to the ports of New Orleans and Ballimore, will be of advantage to the general coasting trade of the country, which now reaching trade of the propostions, and the Florida. ing trade of the country, which now reaches very large proportions, and the Florida Canal may possibly derive some benefit from the freight traffic which will pass over the Tehuantepec ship railway, if that should ever be constructed, as its projector, Captain Eads, thinks will certainly be the case.

"What is heaven's best gift to man?"
she asked, sweetly smiling on him, "Dr.
Bull's Cough Syrup," he replied with prudence. He had just been cured by it of a
bad cold.

According to reports from Paris, the suspension of the boring of the Channel Funnel is regarded in that city as a lamentable error of judgement on the part of the Government and people of England. The French company, meantime, are going forward diligently with the boring on their side. M. Raoui Duval, the director of the Calais and Dover Railway, and a strong partisan of the scheme, has just been to Calais for the purpose of inspecting the works, which are progressing perfectly under the direction of M. Breton, the engincer who is conducting the great undertaking. The gallery on the French side is now about 1,600 feet in length, with a square diameter of a little over 61 feet, and t already extends to a distance of over 160 feet under the sea. The Beaumont machine, which is worked by compressed ar will be used until the gallery measures 5000 feet in length.

. . . Too late to whet the sword when the trumpet sounds to draw it." But never too late to whet your appetite by taking Kidney-Wort, restoring health and making yourself a well, strong, hearty man. It is unequalled as a remedy for all liver, bowels and kidney diseases. All druggists keep and recommend it.

Bes Hoods, scarfs, ribbons and any fancy articles can be made any color wanted with the Diamond Dyes. All the

curi ous instance of the influ nce of animals in controlling or prventing forest growths. It appears that the fondness of hogs for the juicy roots of young pines leads them to seek them assiduously, so that where hogs are allowed to roam in that region one can hardly find a young long-leafed pine in a thousand acres of pine forest. There being no young trees to take the place of the old ones used up by the luinbermen and turpentlne gatherers, that species of pine timber is rapidly being ex-

BAYESVILLE, OHIO, Feb. 11, 1880. I am very glad to say I have tried Hop Bitters, and never took anything that did me as much good. I only took two bottles and I would not take \$100 for the good they did me. I recommend them to my patients, and get the best results from their use, C. B. MERCER, M. D.

The world's product of lead last year stimsted by Herr Landsberg at 440 000 ons. China and Janua are not included as producers of this metal, although the probability is that their output of lead is ery large every year.

THE sad-eyed saw-horse: They say a man will hurt himself in more places by falling over a saw-horse than in any other way. It would seem that the Republican party had fallen over a saw-

Mensman's Pentonized beef tonic, the only preparation of beef containing its entire nutritious properties. It contains blood-making, force generating and life-sustaining properties; invaluable for indigestion, dyspepsia, servous prostration, and all forms of general debility; also, in all enfeebled conditions, whether the result of exhaustion, nervous prostration, overwork or acute disease, particularly if resulting from pulmonary complaints. Caswell, Hazard & Co., proprietors, New York. fold by all druggists.

SHE shipped him: A lawyer recently lost a bride in a peculiar way. He appeared at the wedding, but, on being lled to the ceremony, from sheer force of habit protested that he was not ready to proceed and demanded delay. so the bride got mad and shipped him.
