The coral reefs on which the Bermu-

da Islands are built extend a distance of from ten to twenty miles beyond the land west, north and east, much of the intermediate space being dotted with islands and darkened by innumatable shoals that are of endless torment to sarlors. The shores are with little like layers of rock. In places the ceaseless action of the waves has made deep caverns, bored holes, carved fantastic kept in good heart, and fed enough. shapes and made decorations that resemble stucco work. Sea moss carpets, many of these wield looking structures, and hangs in long wreaths from escarpment and cornice, where mermaids and mermen can go to housekeeping and find all sorts of beautiful and asthetic articles to embellish their interiors. Hermit crabs scramble awkwardly along the sharp ledges near the water, looking for an untenanted periwinkle or vacant conch shell when pressed for a time, while here and there, in natural acquarin, little tanks and bowls of water in the rocks, you can see pretty small fry that seem to have concluded to drop in there and rest till the tide comes up again and enables them to rejoin their congeners in the deep, green sea.

1 ady Journalisis.

A writer from New Orleans says Mrs. Frank Leslie is quite a pretty-looking weman. About 34 or 35 years old, I should say, with a face of that distinguished American type, blonde hair, piled high on her head. She ha evidently no prejudice against the use of certain aids to the toilette in the shape of cosmetics. I found her very charming and agreeable-what one would call complaisant. She says that before her husband died she had not the slightest appreciation of the value of money. That when she went to buy anything she would just hand the clerk a bill and let him take the price out of it. With her husband's death came the necessity of business knowledge, and she bravely, after the fashion of a woman, set herself to the task of acquiring it. She personally super
lit appears from Pliny's description, that acquiring it. She personally super-vises twelve publications, and yet finds time to do some very pleasant literary work herself. She writes just as many bright, unaffected women talk, and for my part I think such style to be admired and cultivated. Simplicity of style is, after all, the hardest thing for

a young writer to acquire.

When I called upon Mrs. Leslie she was much interested to know about Mrs, Nicholson, the proprietor of the I can say that she is the kindest and ly people five pulsations would measure most considerate employer possible for nearly the same period of time as six in one to work for. She is a live business the case of young persons. woman, and, although a devoted mother best features of the Picayune are of her suggestion. She is a fair, fragile woman in appearance—the shyest, most modest woman imaginable, and most conscientious regarding her duties

In Germany hair belting has been com ing into use for some time, and is being quite generally adopted. It is said to give a rougher surface, with a surer clutch and can be used of less breadth than most conscientious regarding her duties

In Germany hair belting has been com ing into use for some time, and is being quite generally adopted. It is said to give a rougher surface, with a surer clutch and can be used of less breadth than either leather or rubber.

To prevent the colors of oil cloth from fading, and the canvas from rotting, use as little water as possible, but rub with flannel, and polish with a modent with flannel, and polish with a modent rubber.

AGRICUL/TURE.

per, but it is also molded into barrels, casks, pails, bowls, and all kinds of woodenware. In the East we are already making boxes, fancy and plain, cornices, picture frames, and hundreds of small articles out of wood pulp. of small articles out of wood pulp. Inch matched spruce boards covered with White woods, that have a long fibre, tarred paper. We commended the sile of

white paper, while the resinous woods serve well for celored paper and for all kinds of woodenware. Thus these woods might be utilized for making boxes for berries, fruits, and for many other uses.

When people first began in the business of manufacturing wood pulp they ness of manufacturing wood pulp they when people hirst began in the ousi-ness of manufacturing wood pulp they need poplar, and for a time it was thought that only that wood, basswood, buckeye and a few similar kinds of wood could be ground into a proper pulp. Now, however, machines have been built which turn out rule with count facility. however, machines have been built cover. In preparing the fodder we em-

CHINA FANCIES .- A set of a dozen china easels, three inches high, each supporting a little plate, is intesded to hold the menu for luncheon or dinner. One menu serves for each two guests, set between their plates. To have one spiece takes up too much room and is an unnecessary display. Corks pierced with grotesque china heads are to close the necks of wine bottles that have been opened for use. Oatmeal bowls and atters are offered for sale, either plain or decorated. A tiny majolica jug, which wih hold a half-gill of cream, one person's portion, can be set by the side of the catmeal bowl.

Immense Demand

for Vegetine.

WE are not at all surprised to learn feat the demand of the people everywhere for that famous medicine, Vegetine, is constantly becom-ing more and more extended. It has long been in lemand all over our own country, and had some time ago made its way into various foreign lands At the present time the esteemed proprietor, Mr. H. R. Stevens, of Boston, is sending it to order to some of the remotest foreign countries; and it seems now evident that Vegetine is to become a universal medicine. It is a "patent medicine," but it has gained its fame and made its way everywhere on its own intrinsic merits. Such were the numistakable and undeniable results of the use of this astonishing and, at this day, world-renowned nedicine, in speedily effecting cures of the very numerous diseases or ills for which it was de-dared to be a remedy, that people everywhere were open and decided in expressing their opinion that this "patent medicine" must not only be ranked equal with, but altogether superior to, all the regular "doctors' stuff" that had ever been given in sickness.

There was and there could be no dispute about the astonishing cures effected by the medicine. The doctors could not deny them—especially as many of such cures had been effected in the most respectable, wealthy and well-known families, where the suffering invalids had obtained and taken the Vegetine as a last resort, after the regular physicians had utterly failed to do them any

Moreover, testimonial letters from per well-known persons in high standing and of un-doubted charact er and veracity began to pour in upon Mr. H. R. Stevens, the proprietor, in abund-ance, declaring, and often with the deepest gratitude, the surprising cures wrought by the great

medicane.

Such testimonials have continued to flow in upon Mr. Stevens, from first to last, until be has enough to make volumes were he to print them all. But he don't publish, even in the newspapers, only a small fraction of them. Is it any wonder, then, that the sale of Vegetine is now increasing at a surprisingly rapid rate?-Providence (R. L.) Ga-

Канска, Мо., Рев. 9, 1880. I purchased five bottles of your Hop Bitters of Bishop & Co., last fall, for my daughter, and am well pleased with the Bitters. They did her more good than all the medicine she has taken for six years. WM. T McCLURE The above is from a very reliable farmer, whose daughter was in poor health for

seven or eight years, and could obtain no relief until she used Hop Bitters. Sue is now in as good health as any person in the country. We have a large sale, and they are making remarkable cures.

W. H. BISHOP & CO. THE fashion of mantel-mirrors is to

good to be given up, as it reflects the attitudes of the group about the fire, and rebukes sprawling or awkward sitting. A wide glass hung on the wall opposite the boys' seats in the diningom, would sooner or later make them all the best and most effective curative properties of all other remedies, being the greatest live aware of sundry tricks you will try long o cure, unless they are brought to see regulator, blood purifier, and life and health re-storing agent on earth.

"Rough on Rats." Clears out rats, mice, roaches, flies, ants, ongs, skunks, chipmunks, gophers. 15c. Drugg all whom sedentary employments cause triegu-larities of the Blood, Stomach, Bowels, or Kidneys, or who require an appetizer, tonic, and mild stimu-A soverry in framing is resorted to lant, it is invaluable, being highly curative, tonic and stimulating, without being intextenting.

in the case of a very beautiful painting in the case of a very beau-int panning upon embroidery canvas, which is mounted upon a background of plush and attached to it by gold cords fastened at the corners in a tie. The plush, projecting on all sides, forms the frame, and this method is at once novel and effective.

Emory's Little Cathartic Pill-best made or Liver Complaint and Biliousness. Tasteless, harmless, infallible. 15c.

Many attempts have been made to obtain a paint solvent equal for all conditions and circumstances, but not with the success desired. Recently, however, something has been brought forward in this line cess desired. Recently, however, some-thing has been brought forward in this line in England, which is said to fully answer the purpose. The solution is simply apthe purpose. Tae solution is simply applied to the paint with a brush, and is then left for a short time, after which the paint may be scraped off with ease. The number of costs of this solution depends upor the number of coats of paint -four, which may be applied within a quarter of an hour or so of each other, being sufficient in the most hardened cases, it is said. This solution, which, it is alleged, causes no in jury whatever to the hands or to the ishes, is quite inexpensive, and without

YOUNG MEN learn TELEGRAPHY here and Circulars froe. VALENTINEBROS., Janesville, Wis VEGETINE is nourishing and strengthening; purifies the blood; regulates the bowels; quiets the nervous system; acts directly upon the secretions, and arouses the whole system.

CHOCOLATE BAVAROISE,-Take Those answering an advertise will confer a favor upon the cisor and the publisher by a that they ask the advertisem this tournal, (naming temps). ounce of cocoa paste scraped fine; add this to one pint of boiling milk; stir ousness, you will find a "Balm in Glicad" in the use of Hop Bitters.

If you are a frequence, or a resident of a miast matic district, barricade your system against the scourge of all countries—malarial, epidemic, billious, and intermittent fevers—by the use of Hop Bitters.

Solid men admire the beautiful, and this accounts in some measure for the thousands upon thousands of bottles of Carboline, the deodorized netroleum hair renewer and dressing, which have been sold yearly since its invention by Messrs. Kennedy & Co., of Pittsburg. Pa. They are now telling a story about a Chicago girl who insisted on throwing

her shoe after a newly-married couple. The carriage is a total wreck, a doc has the bride and the horse under treatment, and large numbers of men are searching the ruins for the groom.

"BEST COUGH BALSAM IN THE WORLD." Try it. Mother Swan's Worm Syrup. Infallible, tasteless, harmless, cathartic;

The Medical Times contains a paper by Dr. John B. Roberts, showing as a result of the examination of numerous skeletons that the bones of the legs, even in healthy persons; often differ in length to the ex-
