Or CHILLS and FEVER, The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any sid to keep the bowles in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY FILLS will be sufficient. Special Notices.

Just published, a new citition of DR. CULVERWELL'S CELESHATED ESSAY on the radical cure of Spenmarounders or Seminal Weakness, Involuntary Seminal Losses, Imporesor, Montal and Physical Incapacity, Impediments to Marriage, etc.; also, Consumerion, Epitersy and Firs, in-duced by self-indulgence or sexual extraagance, &c. The celebrated author, in this admirable

Essay, clearly demonstrates, from a thirty years' successful practice, that the flarming consequences of self-abuse may be radically cured; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure him-self-cheaply, privately, and radically. This Lecture should be in the hands

of every youth and every man in the land. Sent, under seal, in a plain envelope, to Sentinel and Republican. It is above all any address, post-paid, on receipt of six others the paper for the general reader.
