SENTINEL & Good Saleswoman "Do you have many applications for work from saleswomen?" asked a re-porter of the manger of a large store. "We can get all we need at short no-tice," he replied. "Most of the ladies hat to hail from a large concern like ours, But it is not see easy to find many who are fully up to our stand ard." "What is the standard?" "The question is not easy to answer, "We expect a lady to be outed, we can get a large store. "We expect a lady to be outed, we can get a large store. "We the to hail from a large concern like ours, But it is not see easy to find ard." "The question is not easy to answer, "We expect a lady to be outed, we can get a large store. "We the the standard?" A nowned brought to the scrate ACTICULTURE. DOMESTIC. IUMOROUS. Druggists, Take Notice. The Supreme Court of Penasyivania having sustained the District Court of Al-legheny county, granting to R. E. Sellers & Co., the exclusive right to the "trade mark" "Blood Searcher" (registered at Washington, D. C., December 11, 1876), our name will be printed on all outside wrappers. Any one selling, or offering for sale, any "Blood Searcher" without bearing our name will be prosecuted to the who are fully up to our stand-ard." "What is the standard?" "The question is not easy to answer, We expect a lady to be quiet, yet con-fident; alert and wide awake, yet polite induces the standard excellent for the the format excellent for the format bearing our name will be prosecuted to the full extent of the law. (The penalty 18 \$1,000 fine and two years' imprisonment)

than I can describe her." "Is beauty a desirable point?"

of beauty. It is thought to be useful eggs only. We are therefore compelled at counters frequented by gentlemen; but we have often been obliged to displace salesladues for keeping gentlemen not yet succeeded in breeding one in conversation. The art is to say just which may be considered a prime table enough to effect the sales and dispose fowl, of the customer when business com-

mences to degenerate into chatter, Beauties are hard to take care of, we often have to 'call' them, that is, send prevailed-indeed the results seemed to them on a message to a distant part of establish the fact-that wheat culture in them on a message to a distant part of the establishment as a hint. I think it quite possible that larger sales at run out, and farmers' clubs and agriculhigher profits are sometimes made in the departments of men's furnishing goods by having good-looking girls bebind the show cases. Nevertheless, I do not think that, as a whole, we con-sider the value of a pretty girl, in the wages market to be greater than that of a plainer girl who is as a tractive in other tenned. We do not have a substantial structure in the show a structure in the structure in the structure in the structure state. Some said at first that it would last only a little while-now and then we may get along well erough but silk and trimmings departments we re-quire good taste, a faculty for nice The Some of the ladies, as you will notice,

ing. "Women perfectly suitable for the trimmed hat department are certainly few that are left are not able to do few that are left are not able to do feathers, and passementeries, are very complex articles. To be able to choose the particular one from stock that is most of the surface and below this may be injured. uitable and becoming to a cu tomer's features, complexion age, and style requires natural gifts of a high order. Ladies are always studying dress more or less, but the number who know what is most becoming to them, is small. They feel this, and although they are often very opinionated in other matters of dress, they are quite apt to depend much upon any saleslady in this died I saw a piece in a newspaper about department whom they believe to be really competent. Hence the need of the best talent is always in demand the prices for it are high."

and agreeable; easy and frank, yet pos-table. sessing a touch of firmness, and not so outspoken as to injure trade. In fact, a good saleslady is rather a complex ar-ticle under a simple exterior. Patience eonsidered a first class table-fowl. The eonsidered a first class table-fowl. The and coolness are among the best points they can possess. I sometimes feel obliged, in a doubtful case, to test an applicant upon this point of equanim-ity by trying the effect of some little try. The Asiatic, as now bred, carries on upon the source of t ity by trying the effect of some fittle aggravating remark. If she remains cool and pleasant, her chances are good; it she colors or bites her lips, I am forced to regard her as inexperi-enced, and put her in some simple de-partment—hosiery, for example. One their skins are terribly coarse. The Plymouth Rock has been bred in the state of t

partment—hostery, for example. One of the instincts that an inexperienced girl has to contend with is the tendency to stiffen up if a customer becomes a little disagreeable. But I could pick out a good saleslady much more casily than I can describe her." The Plymouth Rock has been bred in size. This alone, if no other, would de-tract from the quality of its flesh. The Houdan is fast being changed by those who breed them for exhibition, into an ornamental towl. The Creveccau is the beauty of the prime and in a scale definition of the state of the state of the state of the instincts that an inexperienced size. This alone, if no other, would de-tract from the quality of its flesh. The Houdan is fast being changed by those who breed them for exhibition, into an ornamental towl. The Creveccau is

"Is beauty a desirable point?" "On the whole I thus its importance is overrated. I should prefer, from a never answer for a table fowl, as they manner as for an ordinary apron, gored

business point of view, what is called are utterly useless for the rough wear at the top, and a quarter of a yard alan attractive girl, who is graceful and has a fair figure. Many of our best salesladics are not remarkable for phy-sical charms, though all are agreeable in manner. Some houses make a point of beauty. It is thought to be useful elastic run through the hem. Place bows of ribbon on each side of the pock-et, and embroider a design of flowers across the top in colored silks, or with embroidery cotton. Blood Infected with Matarial Virus is more effectually purified by Hostetter's Stomach Bitters than by any other depurent. It expels every trace of the poison from a system improg-nated with it, and for the reason that it gives a vigorous impulse to all those functions whose regularity is essential to health, it is a first-rate

preventative of malarial and bilious endemics. It promotes regularity in the bile-secreting process, is the best auxiliary of enfected digrastion, en-riches the circulation, and imparts to finocid, at-tenuated and enfected frames an amount of vigor which ordinary medication fails to yield. Since it is well known that per-ons of a billous tendency, ifferentiar direction and a constituted habit of body Irregular digestion and a constipated habit of body are the best subjects for malaria, the wisdom of using this fine protective agent in time will be ap-preciated. It diffuses a genial warnth through the system, which counteracts the effects of damp and exposure, and defends it from enuses produc-tive of rheumatism, kidney troubles and other serious malad es.

OwENTON, KY.-Dr. I. F. Mundy, says: "I have found Brown's from Bitters one of the best tonics and prescribe it frequently."

The hate which we all bear with the most Christian patience is the hate of those who envy us.

The Peculiar OAI Mystery!

It was one of the peculiarities of the old-fashioned Doctors that they It was one of the peculiarities of the old-fashioned Doctors that they never would tell patients what they were prescribing for them. They said it would do the patients no good to know, and that it would only be grati-fying a foolish curiosity. In order to keep patients from knowing, they would write the prescriptions in dog-Latin, so that most patients could not read them. All that sort of thing is now over. The patient wants to know what he takes. He is weak, and wants to be strong, or he is dyspeptic, and wants to digest well. • Or he has a troublesome liver which he wants to put to rights. So he takes Brown's Iron Bitters about which there is no mystery at all. This is the best preparation of iron in the world, in com-bination with gentle yet efficient tonics. It gives strength. ' It builds up enfeebled systems. It enriches impoverished blood. It removes feminine weaknesses. It casts out debility. It is what you want, and your druggist - . · · D

have two distinct actions on the visual apparatus. One of these gives rise to rudimentary perception of light, and flat-iron, heated to a temperature sufficient to volatilize the sulphur withon the center of the retina, giving rise on
