Judges and ex-Judges were plenty at the argument court last Wednesday. Judges Barnett, Bacher, Smith and French were present, and ex-Judge Junkin present. H. S. Seibell has returned from a two months trip in the West. Pike's Peak, the big trees in California, and the Yosemite Valley are the sights he speaks most of.

Rocky mountain topaz, pebbles from Salt Lake, and colored stones from different places along the route, are curiosities that Joseph Martin shows to his friends since his return from California. A peculiar virtue in Ayer's Sarsaparilla is that it cleanses and purges the blood from all impurities, and invigorates the whole system, and makes one young again.

The organization of dealers in this county to take no wheat in store has resulted in starting a movement to ship wheat direct to the city dealers. What the movement will result in remains to be seen. The horse thief catching company met in the Court House on Saturday. The attendance was large. The membership is made up of a class of vigorous men that can stand a trip of long hard riding.

E. D. Parker, Esq. hurt his foot severely on Tuesday while at his farm. He went to mount his horse, which moved toward him as he was mounting, and he was thrown over the head and struck and his foot hurt—Tribune. The Council stable disperses a crowd wherever it assembles on a corner.

"A curious disease broke out among the cattle of John R. Baldwin, West Bradford, Chester county, introduced by some animals that he had recently purchased from a dealer in the city. The disease depresses their appetites and they entirely blind, their eyes watering and turning chalky white." Many forget that the hair and scalp need cleansing as well as the hands and feet. There is the way, one who claims to know, puts it: A New York letter received among her wedding presents a \$175 match-case made of beaten gold with a diamond center. Match-cases are handy to have in the house, but the time will come when the bride's husband on some stormy night would be willing to exchange a dozen such match-cases for one bottle of paregoric. DO NOT FORGET. Do not forget that at Hesse's Photo-graph Gallery you can get any kind of pictures enlarged for 50 cents. Also anything that is made in Photography, you can get in the best style and in first class style. All the latest style pictures, such as Currier, Cabinet, etc., Promenades, Panned Boulevar, etc., &c. Frames of all kinds cheap.

Officer Price, of Lawistown, dressed himself as a tramp for the purpose of arresting a negro at Vinograd Station, who had out a fellow railroad workman with a knife. Price knew that if he went among the 50 Virginia negroes that work at the above named station, in his true character as an officer, that he would not find the offender, and hence the disguise as a tramp.

Abraham and Joshua had been invited to a special dinner. It was impossible for Joshua not to make out of such an opportunity, accordingly he managed to slip a silver spoon into his book. Abrahams was given with envy at Joshua's success, for he had not even manipulated a salt spoon. But an idea struck him. "My friends," he cried, "I will show you some tricks." Taking up a spoon, he said, "You see does spoon? Well, it sees gone." He passed it up to his sleeve. "You will find it in Joshua's book?" It was found.

Did you ever hear of such a series of accidents as the following to happen in one family? Daniel Strauser, of Shamokin, Pa., has three sons, one of whom, while playing with some companions on Monday the 1st inst., fell and broke his leg. On Tuesday the second fell from a tree on the mountain while gathering chestnuts and broke his leg. On the 3rd inst., the third was knocked down and run over by a wagon and had a leg broken. All three sons lying at this time at home, and each with a leg broken.

The Savannah, Georgia, News of a late date says, last Sabbath Rev. Big-ham, of Conyers, preached a missionary sermon, and in his concluding remarks said, as a matter of convenience to his members, he would call on them privately during the week and receive their donations. Mr. M. Richardson, whose course of duty was too unusual for the occasion, walked to the altar with a grave dignity and presented to the preacher some nice patches, saying solemnly: "Silver and gold I have none, but such as I have give I unto thee." The boldness of the action was equal to the crowd's surprise.

When the Chambersburg Public Opinion published the following it was not intended that every teacher in search of a wife should start at once to pay suit to the lady, which was the case. The lady, Miss Elizabeth Baughman, a fair maiden of 17 years, fell out of a tree on the 10th inst., and broke her leg. Her nice flowers at her love for the beautiful, and as she is a good housekeeper and knows how to make butter—having made forty pounds in two weeks—her domestic requirements are certainly worthy of note.

The Indian job, Sitting Bull, had a mind to join the Catholic church, and all things were arranged for that purpose, at Fort Yates, on the 1st inst., but when the day came around for the ceremony, the priest, who had definitely, because he "can't do it," refused to perform the ceremony, and he will let go. The forms of the church forbid a communicant to have another one. Bishop Morty has had him under his care for several months, and his instructions were being rapidly absorbed by the chief, but the separation from his wives proved too much, and he probably returns to his tent.

A college-bred young man's scientific way of getting the meat out of an egg without breaking the shell is the following: "Take the spherical body in your smaller hand, and with a convenient diminutive pointed instrument hold in the dexter hand, puncture the apex; then in the same manner make an orifice in the base, place either extremity to your labials and endeavor to draw in your breath. A vacuum is created, and the contents of the egg are discharged into the mouth." "La me!" said his grandmother, to whom the important information had been imparted, "when I was a gal we used to make a hole in the egg and suck 'em." And grandmother was still ahead.

The Huntingdon Globe of the 4th inst., says: Mrs. David Estier, who has rooms in Boyer's building at 4th and Penn streets, while moving her personal effects to the attic on Monday morning, secured the services of Samuel Couch to carry the heavy goods. When Sam finished the job Mrs. Estier was about to hand him his pay, when he grabbed her by the throat and applied a handkerchief drenched with chloroform to her mouth. Mrs. Estier screamed and seized Couch away. He ran pell-mell down the stairs, took to the river and in his fear splashed through the water and made his escape. Samuel's lawful conduct might be reformed by a coat of tar and feathers, or by the lyncheon's rope.

A few mornings ago while the north side wall of the burnt Belford building was being put down under the direction of Mr. B. B. McCrea, the wall fell northward instead of southward, as it was intended that it should. The result was, that it fell on the work that

was done by Dr. Banks. The pits for the lower floor of the Doctor's building had all been laid, and a number of carpenters and masons were busy at work when the wall came down on the work side, but fortunately, the men all got out of the way of the brick and mortar cascade. The joints were broken up as easily, recently, as if they had been so many pipe-stumps and the large pile of rubbish from the wall was laid in the cellar of the Doctor's building, which had just recently been cleaned of the late fire rubbish.

ON SUNDAY MORNING last, after a lingering illness, George M. Kulp, a former resident of this place, died at his residence on Third street, Harrisburg, Pa., aged 68 years. For a long time Mr. Kulp had been a faithful employee of the P. R. R. Co., holding the position of time-keeper in the shops in Patterson until the company removed their shops from that place, after which he was assigned a clerkship in the company's store house at Harrisburg, which position he still held at the time of his death. While a resident of this town he was a much respected citizen and had many warm friends. The remains were brought to this place on Tuesday night, and were laid to rest in the Presbyterian cemetery on the afternoon of the same day. Union Lodge, No. 324, F. & A. M., of which the deceased was a member, attended the funeral in a body and performed its impressive rites at the grave.—Democrat and Register, October 3, 1883.

THE PERRY COUNTY DEMOCRAT of the 3rd inst., says: On last Saturday night a valuable mare belonging to Dr. D. B. Milliken was stolen from his stable in Landisburg, as was also the buggy of Rev. H. T. Springer, of same place. Dr. Milliken and Mr. Emanuel Cort followed the track of the buggy, which led to the mountain. Mr. J. A. Boyer heard the horses and buggy pass over the bridge at Bridgeport. Mr. Foster, who was out hunting, saw the party pass him on the mountain road and by the light of his lantern thought he recognized Dr. Milliken's mare. There were two men in the buggy and they were leading a horse behind the buggy. This horse is believed to have been the one seen behind near Jacob Stambaugh's residence, which led to the mountain. The thieves took a long some out of the town. Mr. Levi Kulp's shop. A reward of \$50 is offered for the recovery of the mare and harness; \$25 for buggy and \$25 for the mare and harness of the thief. The mare is a dark dappled gray, heavy forehead, mane long and thin. She is 15 hands high, weighs 1100 pounds and is 6 years old.
