All civilized communities demand that a ife to be sacrificed shall be sacrificed swiftly and without needless pain. True, various nations have different opinions as to how this may best be accomplished; but the American and English Governments have decided that banging is the most merciful. As compared with the Spanish instrument of torture—the garrote—it is through fruiting season, over the entire questionable whether or not hanging is the surface. most merciful. A bungling executioner this naper has nothing to do. The writer intensified only by a moment's respite; the yield well next year, the fruit must make bites of the vultures of the air, and the its growth and form its "fruit germs" stings and burrowings of insects; the burn | the season before.

been an upright tree, to which the victim plants set near the glass and air well on was either bound or nailed. In Ezra vi, 11, warm days. it is ordered that "whosoever shall alter Don't leave an old strawberry bed His word, let timber be pulled down from that is one mass of matted plants, to his home, and, being set up, let him be bear fruit, but as early in the spring as hanged thereon, and let his house be made possible, spade under strips of plants 15 a dunghill for this." Titus had no time to inches wide, and leave strips to fruit 9 add a horizontal beam when caucifying 500 to 12 inches wide. Work these out nicely Jews a day for months. He simply drove with a fork potato digger, and scatter a pole into the ground, to which the victim over the ground and among the plants was lashed, and he was left to die. Siaves well rotted compost. You will get donwere generally punished by having a "furea" (fork) slipped over their necks, to which their arms were tied, and this was too much fiver fruit hoisted to the top of a pole, and secured cross, to save time, and as being more

### TORNADOES.

Scientifically Accounted for, and Some Remote Causes that produce Pain-ful Results Explained.

The following synopsis of a lecture dehvered by Dr. Horace R. Hamilton be-"needles" through the winter and fore the New York Society for the promotion of science, contains so much that is boiling. timely and important that it can be read with both interest and profit:

> er attention than the origin of tornadoes. Scientists have studied it for the benefit of humanity; men have investigated it for the welfare of their families. It has been a vexed subject long considered, and through all this investigation the cyclone has swept across the land carrying destruction to scientists as well as to the manocent dwellers in its track. One thing, however, is certain; the cause of the cyclone must be sought far away from the whirling body of wind itself. Its results are powerful; its cause must also be powerful. Let us therefore consider a few facts. First, the appearance of a cyclone is invariably preceded by dark spots upon the tace of the sun. These spots, indicating a disturbed condition of the solar regions, nec-An unusual generation of heat in one part of the atmosphere is certain to cause a partial vacuum in another portion. Air must utes for boiling each pound of fresh rush in to fill this vacuum. Hence the dis-turbances—hence the cyclone. This theory finds additional confirmation in the fact.
>
> Allow fifteen minutes for each pound that tornadoes come during the day and of meat to roast; for veal or pork twennot at night. The dark spots upon the ty minutes to the pound. surface of the sun, whatever they may be, seem to cause great commotion in the atosphere of the world, and it is almost certain that the extremely wet weather of the present season can be accounted for on precisely this basis. Is it reasonable to suppose that the marvelous effect of the

Most animals drink by suction, as the HAY FEVER. I can recommend Ely's ox, and a few by lapping, as the dog; the elephant pumps the water up with beak, and then, raising the head, allow the water to run down.

> R. V. PIERCE, M. D.: Dear Sir-My wife, who had been ill for over two years, and who had been it for over two years, and had tried many other medicines, became sound and well by using your "Favorite Prescription." My niece was also cured by its use, after several physicians had failed to do her any good.
>

A composition has been invented by "Wednesday, Wednesday," pondered he Remsen street man. "Was I at tersburg, which is reported to be tough, MM. Dankwork and Landers of St. Peelastic, water-proof, insulating—in short, a nearly sufficient substitute for india-rubber. It is composed of a mixture of wood and coal tar, linseed oil success in making feather flowers, while "No, I saw you there Tuesday with satisfactory results are sure to add a the brunette, but this wasnt't the one."

liver pills") and no pain or griping. Cure sick or bilious headache, sour stomach, and cleanse the system and bowels. 23 cents a

The doctors disagree. The now fa-mous fossil footprints found last year at Carson, Nevada, and supposed to have been made by prehistoric human giants are regarded by Professor O. C. Marsh as probable tracks of a large sloth. It is stated, however, that Dr. Harkness still insists that the impressions were left by a species of man, and that he finds his theory strengthened by fresh discoveries of tracks even more clearly defined than those first uncovered.

Such is the lot of the dyspeptic. Prevention where in I gestion has not assumed the chronic phase, and a horough cure where it has, is poss ble of a tainment by those who resort to Hos-tetter's Stomach Beters, a remedy of established and a sinking sensation in that region between meals, are entire y obviated by this fine correc-tive. Names, billow symptoms and constiputed are also entirely removed by it. Lack of vigor, oss of flesh and want of appetite are usually

A HUNTER'S EXPERIENCE. C. N. CRITTENTON, ESQ.:

THANG SHI: I was a hunter in Idaho and Utah in 1895, and from exposure and there I was compelled to drink alkal water, having wothing size for over 36 hours. It attented my system, benigne out on my face and forest the size of the si

head large red blotches near the mose, which refor over 10 years.

I tried everything I could find, and had the best physicians in Chicago doctor me for over two years. Finally,
I tried GLENN's SULPHUR SOAP, and it is a mercy that
I did, for six coles took the blotches all usuay, and I shall
always feel like recommending this soap to the public.
I have at all times told everybody of its marvelous curs
to me. I remain, yours sincerely.

Three Particular Points. Point the First.-Brown's Iron Bitters is not an intoxicating compound. It is a tonic medicine, not a drink. It is a skillfully compounded preparation made to restore strength and health; not a beverage to be sold in bar-rooms and taverns.

Point the Second .- BROWN'S IRON BITTERS is free from everything injurious. The most delicate ladies and the most enfeebled infants may use it with perfect safety and with great advantage. • While it is powerful in its remedial agency, it is gentle in its operation, restoring wasted strength and imparting robust health in the most efficient manner.

· Point the Third,-Brown's Iron Bitters is made by the Brown Chemical Company of Baltimore, a long-established house, whose reputa-tion is well-known to the business world and the general community. There is no risk in buying such a medicine.

LOYELY COMPLEXIONS POSSIBLE TO ALL.
