DOMESTIC,

HANGING THE MISTLETOE -A large bunch of mistletoe must be hung up it the parlor so that under its charmed green cunning youths may have an opportunity to kiss unsuspecting maidens, To be in keeping with old custom, the mistletoe must be fastened to a wheel suspended from the ceiling. The wheel looks well hung by garlands of holly leaves sewed to dark colored tape, or if there is a chandelier in the room it may be hung from and directly beneath it, Gariands and festoons of green are arranged around the walls of the room in any way which the taste of the worker suggests, but sameness should be avoided as much as possible. The wheel and mistletoe should be used only in one place, and the wheel should not appear in any place except the parlot and the hall window. All kinds of green should be used in abundance, out nothing should be employed for col or save natural berries, home-made berries and the shields and banners, except that a few bunches of bright ribbe are allowable. Artificial flowers should not be used, and even fresh blossoms from the green-house are delegated to the flower-bowls on the tables-

Tun woman who gets through her work quickly and casily, 18 not the one who leaves every thing at sixes and sevens. She has a place for everything and everything in its place, even to the nutmeg grater and stove lifter. She never considers she is through her work until every article used is in its own particular niche. She has a bag for clothes pins, and a mail somewhere out of sight on which to hang her kilchen apron; she can go in the darkest night and hy her hand on the catmint bag when Johnnie has the stomsch sche, and not be in the condition of a near neighbor of mine who sent her little girl in to borrow a nutmeg. she said "Ma had one somewheres, but souldu': find it.

Caugo many bottles are of English make, with opaque surface of curoe, pomegranate or amber glass, on which are incised white ornaments, the lotus and leaves, figures or other device stand out in relief in the precise tones of white onyx cameo cutting. The bottles intended for perfume are of Pompelian and Egyptian shapes, ending in a point, so that they must always lie flat. Flasks for pocket use or tim vials for smelling salts are round or ob long. The colors of the ground work in those bottles are those of genis, and are superb in the deep shades they hold imprisoned under their ornaments.

GHRAFT SOUP .- The giblets from two or three chickens or two turkeys; one medium sized onion, one small carrot, half a large turnip, two stalks of celery. two quarts of water, one of strong slock of any kind, two large tablespoonfuls of butter, two of flour, little salt and pepper to taste; one or two leaves of parsley and a leaf of sage. Put chopped giblets on in two quarts of water, boil to one quart; now add the stock, Cut vegetables small, fry in the butter until tender (about fifteen minutes) then stir in the flour until it browns. Turn into the soup and season; cook another half hour, serve with dice of fried bread

SAUCE HOLLANDAISE OF DUTCH SAUCE -Pour four tablesmonthis of good vinegor into a small stew pan, add a little pepper and sait; let it boil to half the quantity and cool; add well beaten yolks of four eggs, butter the size of an egg and a little nutmeg. Set over a low fire; stir until thick as cream and remove it immediately; set into another pan containing hot water at the side of the range. Beat briskly with a spoon or whisk to make it frothy, adding littie buts of butter all together about the

TAC-SIMILE OF TYPE-WRITER LETTER.) TO THE PUBLIC, GREETING :

Boards of Health are now everywhere correcting the faults of sewerage and advising the people how to prevent future epidemics.

But other precautions are necessary, without which no amount of Sanitation can avail. Dr. Koch says that cholera has but little chance among those who keep the digestive organs and the liver, skin and kidneys (the sewers of the body) in healthful operation.

Warner's SAFE Remedies are the best scientific Curatives and Preventives, and we cannot too much emphasize the importance of using them now, as a safeguard against any future scourge

Much of the common ailments are caused, not primarily by bad blood, but by IMPAIRED LIVER AND KIDNEYS. This regults in blood corruption and injury to the entire system. Remove this impaired action, and most ordinary ailments will disappear. Other practitioners have held that extreme liver and kidney disorders are incurable. We, however, by the severest tests, have unanswerably proved the contrary. Please note:

FIRST. -- WE DO NOT CURE EVERY KNOWN DISEASE FROM ONE BOTTLE. Warner's Safe Remedies are specifics, which have been successively put upon the market ONLY IN OBEDIENCE TO STRONG PUBLIC DEMAND. These remedies are: Warner's SAFE Cure, for kidney, liver, bladder and blood disorders, General debility, Impotency, gravel, female irregularities; Warner's Safe Diabetes Cure, for Diabetes-the only known specific; Warner's Safe Rheumatic Cure for Rheumatism, Neuralgia; Warner's Safe Pills for constipation, diarrhoea, biliousness; Warner's Safe Nervine for nervous disorders; Warner's Safe Throatine for Asthma, catarrh; Warner's Tippecance for all stomach derangements.

SECOND. -- Warner's Safe Remedies, spite of all opposition, have won the victory and are everywhere recognized as leading STANDARDS.

THIRD. - After six years of unequalled experience, we give these unqualified guarantees: GUARANTEE I. -- That Warner's Safe Remedies are pure, harmless, effective.

GUARANTEE II. -- That the Testimonials used

- by us, so far as we know, are bona fide, with a forfeit of \$5,000 for proof to the contrary. GUARANTEE III. -- That Warner's Safe Remedies
 - are NOT MERELY TEMPORARY, BUT PERMANENT. IN THEIR CURATIVE EFFECTS AND WILL SUS-TAIN EVERY CLAIM, IF USED SUFFICIENTLY AND PRECISELY AS DIRECTED.

FOURTH. -- Special inquiry among hundreds of our oldest patients results in unequivocal testimony that the cures wrought six, five, four and three years ago, were PERMANENT. And most of these Patients were pronounced INCURA-BLE when they began Warner's Safe Remedies. Read a few of Thousands of examples:

Cleveland, Ohio, founder of North Union Shakers : In 1878 was pronounced incur-ably sick of chronic Bright's disease, by the best physicians. Then he resorted to Warner's SAFE Cure, March 12, 1883, "Health never better. Just past Soth year." Oct. 18, 1884 ; "I am enjoy ing a very comfortable degree of health He says also, "1 am an enthusiast over Warner's SAFE Cure." Used 4 dor, hottles. ARS, HELEN LEIKEM, West McHenry,

IF THE VALUE OF DETERMINE WERE DELfer known it would be more used and less wasted, says an exchange. It is a laxative and aperient, invigorates the stomach, liver and kidneys, and is nutritious to the sytem. Thousands of persons are suffering to-day with sepsis a the blood, from which proceed nervous headaches, weak diaphragms, cosliveness and even rheumatism and ague. who would be he relieved in a very short time if they would drop their pork and slimulating diet and use only outtermilk, fruits and vegetables.

SWEETBBEADS,-Veal are the best. Soak in cold water an hour: lard them by drawing thin pieces of salt pork through them; put them into salted water and boll twenty minutes, remove and throw into cold water to blanch them. Remove carefully any skin or gristle and they are ready to be cooked again with a cream sauce or with peas, French peas or canned peas seasoned with butter, pepper and salt and poured around the sweetbreads.

Cons BREAD IN CUPS .- Two and one half cups of Indian meal, one cup of flour, three tablespoonfuls of corastarch, three tablespoonfuls shortening, three eggs, one tenspoonful of soda, and three and a half cups of thick sour milk; add salt at discretion. It should make a thin batter. Bake quickly in small tins or cups. It is best to soak the meal all night, or at least several hours in the sour milk, adding the other ingredients before baking.

WHEN roasting lamb or fowls, if you do not like the flavor given by thin slices of salt pork or of bacon, which are generally put over them, take some hard butter, roll it in flour, and separate it into small lumps and my here and there on the meat. This will give richness and flavor to the liquid with which you baste them.

Hunn is a new way to make a ric pudding, Wash a small teaconful of rice in cold water; then put it into a quart of cold milk; add salt and sugar and vanilla to your taste, and a small lump of batter. Pat this into the oven two hours before it is to be eaten; stir it occasionally. Follow these directions carefully, however skeptical you may be, and you will be pleased with the result.

A SPLENUTD application for weak ever is two grains of sulphate of zinc dissolved in one ounce of rose water. Dilute with a little cold water and rootige into the eyes several times a day. Strength will be greatly increased.

MOLASSES PUPPS are easily made, and nice when esten hot. One cupful of cosl used was only 150,450 tons, m st sugar, one-half cupful of butter, one cupini of molasses, one egg, one tablespoonful of ginger, one teaspoonful of soda, one captul of hot water, four cupful of flour and a pinch of salt. Bake in gem pans,

A company has been formed at New York to carry cold through pipes the same as heat, water and gas are now Ammonia vapor is forced carried. through the pipes, and by its use the temperature can be kept at zero if nec essary. It is cheaper than ice, much less bulky, and very easily managed. The new Washington Market at New York has its refrigerators so cooled rather than by ice. The company proposes to lay pipes in the street and sell cold especially to stores, hotels and large apartment houses. The process is already used in one large packing house for preserving meat and pouitry.

A process invented by Edwin Lloyd, Eustou Road, county of Middlesex, England, for decorating glass, consists in first painting, printing, etching, or engraving a design or ornamentation on the back surface of the glass; second, coating the designs with protecting var nish; third, silvering or gilding the glass and the design or ornamentation: and, fourth, coating the silvered or gilded back with varuish, red-lead paint, or other protecting medium or backing.

In country neighborhoods, and where good servants are scarce, a hotess should earn to carve. In these days of serving dinners a la Russe-that is having everything handed from a side tablethe teaching of a servant how to carve should be one of her duties. It is se much neater and saves so very much embarrassment that it is worth while to lerrn the art of serving a dunner a lu Russe

New Gun,-An Itatian admiral has invented a shrapnel shell for the 100-ton guns. At thirty yards from the can ion's mouth it bursts, throwing forward seventy-five smaller projectiles, which in turn burst, strewing in fanshape i thick shower of balls and fragments with terribly destructive effect.

Cramps.—Elevation of the head of the bed, by placing under each leg a block of the thickness of two bricks, is stated to be an effective remedy for oramps. Patients who have suffered at nights, crying sloud with pain, have found this plan to afford immediate, certain, permanent relief,
