HUMOROUS

Some weeks ago the wife of a Philadelphia broker asked her husband to give her \$1,000 on which he stipulated, and like the good man he is, he complied. In a day or two an opportunity offered to buy some country railroad bonds at very low figures, and she invested. When he came home that night she remarked:

"George, it seems as if I remember of your having some Bank county railroad bonds."

"Yes, I did."

"Just a thousand dollar's worth, was it not?"

"Exactly."

"And you sold them?"

"Yes, to-day."

"What are they worth?"

"About ten per cent."

"What! the thousand, Way, I bought those very bonds, and paid fifty-five for them."

"Just so, darling, just so! You wanted to speculate. I knew you would, but I therefore arranged to buy the most of that thousand back into my wallet."

"But sir—"

"Be calm, Maria, be calm. If you lose your temper that way you will ruin any jack buying on an excited market. You ought to be proud of a husband who can take in seven or eight hundred dollars as a little speculation like that."

"FATHER," began a young son the other evening, "were you in the war?"

"Yes, my son."

"Was it awful?"

"Yes, it was."

"Lots of dead and wounded men?"

"Yes."

"Did you kill many?"

"Well, I shouldn't like to answer the question."

"Why not, father?"

"I have very much to be proud of."

"I hope you would to brag."

"That's what Mr. Smith meant, when he told the men down at the drug store that you had killed any one in the war."

"He did, did Mr. Smith say so?"

"That's what I thought, he told me that you could never be so wicked as to kill any one in the war."

"FATHER, you see an awful lot of men," said a youth, as he crossed down the old man's gray looks the other evening. "How do you know that Willie?"

"I heard some one say so at the store say that you killed the men of soldiers during the war."

"Why, I was a dead contractor for the army."

"Yes, that's what they said, explaining young innocents, as he left for the kitchen."

Thousands Hastened to their Graves

By relying on testimonials written in vivid glowing language of some miraculous cures made by some largely puffed-up doctor or patent medicine has hastened thousands to their graves; the reader has had almost insane faith that the same miracle will be performed on them, that these testimonials mention, while the so-called medicine is all the time hastening them to their graves. Although we have

Thousands Upon Thousands!!

of testimonials of the most wonderful cures, voluntarily sent us, we do not publish them, as they do not make the cure. It is our medicine, Hop Bitters, that makes the cure, and has never failed and never can. We will give reference to any one for any disease similar to their own if desired, or will refer to any neighbor, as there is not a neighborhood in the known world but can show its cures by Hop Bitters.

A Losing Joke.

A prominent physician of Pittsburgh said to a "day patient" who was complaining of her condition of the stomach, "I have a remedy for you, but I shall not give it to you until you have tried Hop Bitters." The lady said, "I have tried Hop Bitters, but it has done me no good." The physician said, "I shall not give it to you until you have tried Hop Bitters." The lady said, "I have tried Hop Bitters, but it has done me no good." The physician said, "I shall not give it to you until you have tried Hop Bitters."

Feet of Doctors.

The fee of doctors at \$5.00 a visit would tax a man for a year, and in need of a daily visit, or \$1,000 a year for medical attendance. And one single bottle of Hop Bitters takes in time would save the \$1,000 and all the year's sickness.

Given up by the Doctors.

"It is possible that Mr. Godfrey is up and at work, and cured by a simple remedy?"

"I assure you it is true that he is entirely cured and will be long of Hop Bitters, and only ten days ago he was in bed, and he had to be carried to his room."

When I married,

"When I married," said Boggs to a party of gentlemen who had been bragging of the successful marriages they had made, "I got a fine horse and lot."

"And I, gentlemen," exclaimed Mrs. Boggs, "I have a fine horse and lot in time to hear her husband's remark, 'I got a flat, the top story of which has always remained vacant.'"

Bright's Disease.

"Bright's Disease" is regarded by many as incurable and it is well to be so, except in the hands of a physician of the name of Dr. J. C. Bright. This is a reliable medicine has specific power in all cases of all other diseases of the kidneys and bladder. It is pure, vegetable, and is highly endorsed by physicians.

Albion's Cures of Monstrous Swellings.

Albion's Cures of Monstrous Swellings, Barington Dr. N. J., says: "Eighteen months ago I had dropsy around the heart. The first bottle of Huxley's Kidney and Liver Bitters gave me great relief. I had I use my very best medicine to Huxley's (Kidney and Liver) Bitters."

Consumption Cured.

"An old physician, retired from practice, having read in the London Lancet, of the cure effected by the use of a simple vegetable remedy in the case of a gentleman of the name of Dr. J. C. Bright, who had been suffering with consumption for many years, and who had been pronounced incurable by all other physicians, he determined to try the remedy, and he was cured."

Consult the lips for opinions.

When you visit an old man, you will find his lips are as dry as parchment, and his eyes are as dim as the stars in the night sky. This is the result of a dry, parched throat, and is a sure sign of consumption. Consult the lips for opinions, and you will find that the lips are as dry as parchment, and the eyes are as dim as the stars in the night sky.

People who go out riding.

People who go out riding need no longer be afraid of runaway horses, and the horses themselves will also be gainers by the new turn of affairs. A humane blacksmith in Nevada has built a cart with the axle bent so that the horse is directly under it, sheltered from sun and wind. The driver sits in front, and other passengers sit on seats running lengthwise over the horse's back. There is, of course, a steering apparatus, and also an arrangement with a wide band under the horse so that in going down a hill that animal can be lifted bodily off its feet and given rest, while the outfit "coasts." And the lifting machine comes into use if the horse tries to run away, as a turn of the crank leaves him working his legs in the air to no purpose whatever.

The planting of the lever tree.

The planting of the lever tree on the Gulf coast of the coast of Florida, for the purpose of arresting malarious vapors, and improving the healthfulness of the region, has, it appears, proved a remarkable success. The tree has been reported to have been planted in the month of August, and many specimens have gained twenty-five feet in height in only five years; and the country (or broken bones) fever has disappeared in sections where it was supposed to be permanently endemic.

A very curious effect of the sedative action.

A very curious effect of the sedative action of monochloride of cuprous has been reported. The patient was subject to persistent gastric irritation for which the drug was prescribed. Very soon the points of the stomach became permanently reversed, north, being south, and the sitting machine came into use if the horse tries to run away, as a turn of the crank leaves him working his legs in the air to no purpose whatever.

The cause of powerful muscular contraction.

The cause of powerful muscular contraction of the claw of the common crab after it has been severed from the body with the scissor has engaged the attention of a New York physiologist mentioned in the New York journal. The contraction is in the nature of a reflex of a death throes to the tissue, but the rigidity continues for about forty minutes, when the rigid muscle spontaneously relaxes.

A new incandescent electric lamp.

A new incandescent electric lamp has been perfected and is about to be patented by a physician in this city, for which the advantage is claimed that it can be used in the most dangerous cases of a death throes to the tissue, but the rigidity continues for about forty minutes, when the rigid muscle spontaneously relaxes.
