

SENTINEL & REPUBLICAN
PUBLISHED WEEKLY
Wednesday, April 27, 1893.
B. F. SCHWEIER,
PUBLISHER.

Our country is in a state of transition. The people are weary of the old and are looking for a new order of things.

The British and the American found out that General Kitchener's gun was loaded. They then went for a declaration of war.

There is a feeling of relief in the world as a whole. It is expected that the world will be in a state of peace and that the people will be able to live in peace and harmony.

It is a pity that the American people are not more united. They are divided into many parties and are fighting for their own interests.

Cleveland is said to be forwarding his former law partner, W. B. Russell, to the office of Governor of New York. The country is just becoming acquainted with the fact that Cleveland is a politician.

Italy is said to stand about the same as England. Italy has a powerful navy. It is expected that the United States will keep everything and anything from going out or into Italy by water.

Frederick in Belgium has struck, and has proceeded because of a reduction of wages. Here in America, a large percentage of the most prosperous people in the Republic have a regularly obtained industry that does without pay.

The Democratic politicians had planned to have Governor Feltson transplanted to a Federal office so that they might see the state government, but they are not able to realize their plans for the reason that the Governor prefers to be governor till the end of the term. Such at least is the latest information.

The gold has become so scarce that they are getting things to sleep to do a moderate thing in a standard money market. They think to make gold the measure of value. From this time out, there will be a standard of money value, and there is little chance for the market to rise or fall.

Mr. Deane, a member of the Chicago bar, has been elected by the Fairmount Association, at Washington, to be the first president of the Fairmount Association. The Fairmount Association is a body of men who are interested in the Fairmount Association.

In Belgium an annual appropriation of \$100,000 was not made for a stated class of prisoners. This year the state failed to appropriate the sum of money for the prisoners because of state financial difficulties. The prisoners will not suffer a reduction of salary or wages and have not protesting. They refuse to hold church services, or religious meetings, and burial.

The body of Dr. Beach, who murdered his wife at Albany, has been analyzed and pronounced to resemble that of an ape more than a man; therefore, a number of people have arisen and pronounced the doctor a full human man, one that should have been executed for murder. It is a grim and unpleasant subject to talk about, but it is a man's brain that is the one to be examined for its ability to be exempt from execution for murder. If he had had more than the sympathy for him, he would have been executed.

The fact that the American people are in a state of transition is a fact that is not to be denied. The people are weary of the old and are looking for a new order of things. The people are divided into many parties and are fighting for their own interests. The people are in a state of transition and are looking for a new order of things.

One of the points that Democratic speakers and writers have made in during the late Blaine and Cleveland campaign was that there are 2,000,000 in the Treasury of the nation, and since the election Mr. Russell and other statements of his quality have been talking about the outrage of keeping such a surplus in the Treasury. How the surplus speakers and writers had, they don't say, since Secretary Manning in the monthly statement of the Debt

of the nation, outside the fact that there is only a surplus of \$12,000,000 in the Treasury, against which there is no claim. There is more than \$12,000,000 in the Treasury, but it is in the hands of the people.

A Republic. The people are weary of the old and are looking for a new order of things. The people are divided into many parties and are fighting for their own interests.

That with the British alone for get their liberties in the hands of the British alone, that with the British alone for get their liberties in the hands of the British alone, that with the British alone for get their liberties in the hands of the British alone.
