Dandruff is dirty and disagreeable in every way. It soils the clothing continually, and is accompanied by a barely less annoying sensation of itching. The scalp is diseased. RENEWER.
The great popularity of this preparation, after its test of many years, should be an assurance, even to the most skeptical, that it is really meritorious. Those who have used Hall's Hair Renewer know that it does what it claims.
It causes new growth of hair on bald heads, provides relief from itching scalp, restores natural color to gray or faded hair; prevents the scalp from becoming dry and chafed; keeps the hair falling out; keeps the hair clean; keeps the hair soft and causes it to grow long and thick.
It is the best hair preparation in the world. It is not a dye, and it does not contain any alcohol. It does not evaporate quickly and dry up the scalp, as do other preparations.
Buckingham's Dye
WHISKERS
Colors the hair, restores it, as desired, and is the best dye, because it is harmless; produces a permanent natural color; and, being a simple preparation, is more convenient of application than any other.
