

SENTINEL & REPUBLICAN

Mifflintown, Wednesday, May 27, 1885.

B. F. SCHWEIER, Editor and Proprietor.

REV. HENRY WARD BEECHER is a convert to the doctrine of evolution.

Logan must have been born under a permanently ascending political star.

The Canadians are discussing the question, "What shall we do with the rebel Riel?"

The General Assembly of the Presbyterian church convenes at Cincinnati on Thursday.

The P. C. R. Co., will pay a semi-annual dividend of 3 per cent. on the 29th day of this month.

The stars and stripes is the flag, and cranks socialists have been ordered not to carry the red or black flag in procession in Chicago.

In Cleveland would distribute his patronage as do the Democracy of Juniata, every Republican that holds an office, would be speedily turned out.

The bad Indian, these summer days, leaves his reservation to fish and hunt, and once in a while to read the hair of a lone pale face brother.

Cunningham and Barton, two dynamiters, whose explosions in London, killed women and children, have been sentenced to penal servitude for life.

What right have such fiends to live.

Baltimore knocks the pension perdition, as is evidenced by the fact that 800 pensioners in the Monumental city all give one address, not one name, but one number to which they shall be addressed.

In the western states divorces are obtained from a court located in Huntington, this State. The whole business is a fraud, there is no divorce court in Huntington, so say the Huntington papers.

The Legislature passed a Congressional appointment bill, giving the Republicans eighteen and the Democrats ten of the districts of the State. This, the eighteenth district, is composed of the counties of Huntington, Fulton, Mifflin, Juniata, Snyder and Union.

A French doctor comes forward and declares that by vaccination with cholera virus the cholera may be prevented, just as by vaccination with cow-pox virus, the small-pox is prevented. Time will tell whether the Frenchman is correct. If cholera is a blood disease the doctor may be correct.

GENERAL JOHN A. LOGAN was elected United States Senator by the Illinois Legislature on the 19th inst. Of the 204 votes polled, he received 103. Free had 96 votes, Hoxie had 1 vote, Morrison had 2 votes. It was a long contest, and Logan's victory has placed him in the front rank for the Republican nomination in 1888.

No event in politics of the present time has so thrilled the Democracy as the election of General Logan to the United States Senate from Illinois. They, that is some of them, are already talking about running Cleveland against Logan for the Presidency. Perhaps the erring brethren had better wait till Cleveland develops his policy. Wait till next December, boys, before you shout so loudly for Cleveland.

Blood Will Tell. The case of a family of women that have been too often married during a period of more than a hundred years, again demonstrates how a ruling trait of character perpetuates itself in the blood, is stated by the Philadelphia Times, as follows:

Rocky, May 21.—A peculiar case is best described as hereditary bigamy, came to light here to-day. On the 23rd of January last a marriage took place here which has developed into a case of bigamy. A young girl, who gave the name of Emma Studley, and a man named Eldredge were the contracting parties, and after the marriage they boarded in this city. Some time afterward a letter was received by the husband from a woman in Hymnis, who claimed that Emma Studley was already married and had not secured a divorce. The letter was from the mother of husband No. 1, and the young wife on being confronted with it denied any previous marriage, but her husband on looking into the matter found that she not only had a legal husband on Cape Cod, but had been convicted in the court at Hymnis of infidelity to the marriage relations. The girl has since been placed in a Boston institution, and the first husband arrived in this city to-day and is taking active steps to prosecute his wife. A peculiar feature of the case is that the woman's female ancestors for four generations have been bigamists.

The North American of May 20, relates the following case of a baby seller: As an officer of the Children's Society was investigating an alleged case of cruelty to an eight-month-old child at the house of Mrs. Catherine Josephine Elizabeth Miller, 17-05 Market street, yesterday, he was informed that Mrs. Miller was not

the child's mother. At the hearing before Magistrate Clements the woman confessed to having purchased the babe in September last from a female doctor on north fifth street for ten dollars. The woman was fined \$10 and costs, and the child was given into the charge of the society.

Killed By Lightning. WILMINGTON, Del., May 21.—An Every Evening special, reports that during a heavy thunder storm which prevailed yesterday afternoon near Cecilton, Md., lightning struck a two horse wagon in which Messrs. Coston and Foulker, well-known citizens of the First district of Cecil county, were riding, killing Coston and stunning Foulker, who lay insensible for an hour. Both of the horses were killed.

What Parents Feel. Many persons—especially parents object to many quack nostrums as likely to engender or encourage a love for strong drink. They are right. Better die of disease than of drunkenness. The use of Parker's Tonic does not involve this danger. It not only builds up the system, curing all ailments of the stomach, liver and kidneys, but it stimulates without intoxicating and absolutely cures the appetite for liquor.

A Woman Shoots a Man for Attempting To Enter Her House. MENZOTA, Ill., May 19.—At 12 o'clock yesterday Mrs. John Bailey, wife of a miner in the employ of the Mendota coal and mining company, at this place, shot and instantly killed a man by the name of Browning. The circumstances which led to the murder, as near as can be ascertained, are about as follows: Browning, having been informed that Mrs. Bailey's reputation in the community was not the best, endeavored to enter her house, but upon being refused by the woman, persisted in his advances when she drew a revolver and shot him. Browning was a married man, about 45 years of age, living near Corydon Iowa, and was here visiting a married daughter. Mrs. Bailey was placed under arrest.

In a Chimney. Philadelphians are inclined to believe that burglars sometimes get in to houses by going down a chimney, and the following, from the Philadelphia Bulletin, of May 21, gives color to the belief. While Officer Gales, of the Third district, was patrolling his beat at Second and Spruce streets, last night, he heard cries for help coming from somewhere overhead, but could not ascertain the exact location of the party making the appeal. He concluded, however, that the cries came from the roof of J. Bonnell's jewelry store, No. 258 South Second street, and accompanied by James McDonald, of No. 307 Comptroller street, he made his way there, but still was unable to see anyone. He waited until the cry was repeated and then found a man wedged in the chimney in such a way that he could neither go down or come up. He had torn down part of the chimney in his efforts to get out, but they were not successful. With the help of McDonald the officer succeeded in extricating the man from his uncomfortable perilous position, and started off for the station house. On the way there the man threw away a large chisel, and when searched a box of matches and a quart flask of whiskey was found on him. He gave his name as George Whittle and his dress as No. 1250 Richmond street. The latter is fictitious. When given a hearing before Magistrate Thompson he said he was drunk and did not know how he got on the roof. When found by the officer he said: "I came here to beat Bonnell, but got caught dead to rights myself."

The Muddy Run ghost was a flesh and blood ghost but it didn't visit her rooms for as is known, which is the habit of most ghost ghouls, as may be learned from a dispatch that was to the Philadelphia Times last week as follows: John Walkack, a resident of Highland township, claims that a ghost appears at his premises in the night, in the form of a woman dressed in white. She first scares the chickens, then appears on the well curb and soon afterwards is heard coming up the stairs in the house. The inmates say the pit-pat noise made by her ascending the stairs is distinctly heard. A former occupant of the house, James Glass, says he used to hear strange and singular noises there. Another man asserts that he was driving along the road near the house, twenty-five years ago, when he saw a woman in white standing in the road. He pulled his horse to one side to avoid running over her, when to his astonishment she suddenly disappeared. So far Walkack hasn't missed any chickens.

The National Guard of this state is about to be reorganized. The entire division is to be pruned down and reorganized for the sake of economy and efficiency. The number of companies in each regiment will be increased to 12, and the number of regiments reduced to 10, and those will be equally divided into two organized brigades of 5 regiments, one battery and one company of cavalry each. The state will be divided into halves geographically. The first brigade will be located in the eastern and the second in the western part. The third brigade will be pretty badly cut into pieces, and Brigadier General Seigrist, its commander, will resign. The change will be accomplished before the next encampment on July 25. The state expects to save \$50,000 a year and at the same time increase the efficiency of the troops."

It is historical that when the bee was first imported into the West Indies and discovered that flowers bloomed the year round and that there was no necessity for working and laying up a store of food for the winter the newly enlightened insect, as the historian graphically relates, spent his time changing "round the sugar houses and stinging negroes."

STILL ON TOP AND WE MEAN TO STAY THERE. FAIR DEALING, IS OUR MOTTO. SUCCESS, OUR REWARD. STRAYER will not, nor cannot be undersold. We are highly gratified at the success attending our efforts to bring down the high prices formerly charged for CLOTHING in Mifflintown, and find the community sticks to its first love. The public have faith in our published statements, and we strive to deserve the full measure of confidence so freely placed in us. Every day brings fresh proof to us of the good will of all classes. We say without the least fear of contradiction (and have plenty money to back it) that our terribly extended opposition has Two Dollars worth of unsalable, or as he calls them, W.A.R. GOODS to my one.

NO OLD GOODS THIS SEASON. SOME TALK ABOUT FIVE PER CENT. F.I.P!

Why, before I will allow my customers and friends to be deceived in that manner. I will do business this summer for pleasure, and show you the bill for every piece of goods you buy, only asking expense of transportation, and our advantages for buying are equal, if not superior, to any house in central Pennsylvania.

"I had rather be a dog and bay the moon, than such a clothier." How conceited, some people think all others are old foggies. Well, by the time they get through with us and our low prices, they shall change their minds.

Remember whatever you buy of us must be as represented. When we say a suit is all wool such must be fact, and when we give you a price we guarantee that such price is lower than any one else can sell the same article at.

PYÆMIA Is the most virulent form of blood-poisoning. Less often fatal, but not less certainly so, is the vitiation of the blood of which typhoid fever, Typhus, Cholera, Typhoid, and Contagious Eruptions, when the taint of Scrophula gives warning of its presence by such indications, no time should be lost in using AYER'S SARSAPARILLA, the only perfect and reliable medicine for the purification of the blood.

SCROFULA Is a foul corruption in the blood that eats out all the machinery of life. Nothing will eradicate it from the system and prevent its transmission to offspring but AYER'S SARSAPARILLA. This preparation is not the only one that will cleanse the blood, but it is the most powerful and the taint of Contagious Diseases. Impoverished blood is productive of ANÆMIA.

A wretched condition indicated by Pallid Skin, Flaccid Muscles, Shattered Nerves, and Melancholy. Its first symptoms are Weakness, Lassitude, Loss of Nerve Force, and Mental Dejection. Its course, uncorrected, leads inevitably to insanity or death. Women frequently suffer from it. The only medicine that will purify the blood, enriches it with new vitality, and invigorates the whole system.
