INVALIDS' HOTEL SURGICAL INSTITUTE

No. 663 Main Street, BUFFALO, N. V.

Not a Hospital, but a pleasant Remedial Home, organized with A FULL STAFF OF EIGHTEEN PHYSICIANS AND SURGEONS

And exclusively devoted to the treatment of all Chronic Diseases, This imposing Establishment was designed and erected to accommodate the large number of invalids who visit Burato from every State and Territory, as well as from many foreign lands, that they may avail themselves of the professional serious of the State of skilled specialists in medicine and surgery that compose the Faculty of this widely-celebrated institution.

A FAIR AND BUSINESS-LIKE OFFER TO INVALIDS

We earnestly invite you to come, see and examine for yourself, our institutions, appliances, advantages and survey in early chronic descays. Have a mind of your own. Do not listen to or heed the counsel of skeptical friends or leaders pure any six know nothing of us, our system of treatment, or means of cure, yet who never lose an opportunity to misrepresent and to prejudice people against us. We are responsible to you for what we represent, and if you come and visit us and list me have misrepresented, in any particular, our institutions, advantages or success, we will promptly return to year all expenses of your trip. We court honest, sincere investigation, have no secrets, and are only too goal to see all interested and candid people what we are doing for a fering humanity

By our original system of diagnosis, we can treat many chronic diseases just as successfully without as with a personal consultation. While we are sivays glad to see our patients, and become acquainted with them, show them our institutions, and become acquainted with them, show them our institutions, and personal examination of the patient, we ching a subset of the principles of the principles of modern seen one person in live hundred whom we have cured. The personal examination of the principles of modern size of the accuracy with which this system has a most mirraculous, if we view it in the light of the early ages, the first of the age. Is in not a marvelous degree of accuracy which enables an operator to cracily locate a fracture in a submarine cable nearly three thousand miles long? Our venerable "clerk of the weather" has become so thoroughly finniliar with the most wayward elements of nature that he can accurately what the weather will be in Florida or New York as well as if what the weather will be in Florida or New York as well as if we ever all hundred unites did not interveue between him and the everal hundred unites did not interveue between him and the places named. And so in all departments of modern science, of seases have certain unmistakable signs. From these scientists deduce accurate conditions, the procedule of the skuifful practitioner argin. From these scientists deduce accurate conditions regardless of distance. So, also, in medial science, diseases of distance, so, also, in media system of examining and treating and, scientific system of examining and treating and, scientific system of each office of the skuifful practitioner argin. From these scientists deduce accurate conditions. The noset of the substance of such affections a specialty. Full particular, and the mature of diseases conditions. The procedular science, and so in all departments of modern science.

Signs of symptoms, and by reason of this fact, we are contained in "The People's Collegions regardless of distance. So, also,

MARVELOUS

The marvelous success which has been affaced through it, demonstrate the furt that dease through it, demonstrate the furt that dease extensive and unmistakable data, to guide the longing of the skillful practice analysis. Furnish administrate the restriction of the skillful practicioner arrest in determining the nature of discused conditions. The most ample recurrent for treating linguing or chronic diseases, and the greates and are thus placed within the easy reach of every invalid, however distant he or she may reside from the physicians making the ment of such affections a specialty. Full particulars of our organial, scientific system of examining and treating patients at a factor are contained in "The People's Common Sense Medical Adviser." By R. V. Pierce, M. B. 100 pages and over 300 colored and other illustrations. Sent, post-read for §12. Or write and describe your symptoms, inclosing ten own as tamps, and a complete treatier, on your particular descent ables sent you, with our terms for treatment and all perticular

stamps, and a complete frentise, on your particular discas-be sent you, with our terms for freatment and all perfect

COMMON SENSE AS APPLIED TO MEDICINE.

It is a well-known fact, and one that appeals to the judgment of every thinking person, that the physician who denote his whole time to the study and investigation of a certain class of diseases, must become better qualified to treat each diseases than he who attempts to treat every ill to which flesh is helr, without giving special attention to any class of disease than he who attempts to treat every ill to which flesh is helr, without giving special attention to any class of disease Men, in all ages of the world, who have become famous, have devoted their lives to some special branch of scence, if, if

OUR FIELD OF SUCCESS.

Dyspepsia, "Liver Complaint," Obsider Complaint, Diseases of Carone Constitute Constitution, Chronic Biarchea, Tape-worms, and kindred affections are among those chronic diseases in the successful treatment of which our specialists have attained unparalleled success. Many of the diseases affecting the liver and other organs contributing in their functions to the process of direction, are very obscure, and are not infrequently mistaken by both laymen and physicians for other maladies, and treatment is employed directed to the removal of a disease which does not exist. Our Complete Treatise on diseases of the Digestive Organs will be sent to any address on receipt of ten cents in postage stamps. BRIGHT'S DISEASE, DIABETES, and

KIDNEY

DISEASES.

BRIGHT'S DISEASE, DIABETES, and kindred maladies, have been very largely treated, and curve effected in thousands of cases which had been pronounced beyond hope. The study and practice of chemical analysis and microscopical examination of the mine in our consideration of cases, with reference to correct diagnosis, in which our institution long ago became famous, his maturally icd to a very extensive practice in diseases of the urinary organs. Our specialists have acquired, through a vast and varied experience, great expertness in determining the cract nature of each case, and, hence, have been successful in succip adapting their remedies for the cure of each individual case.

The treatment of diseases of the urinary organs having constituted a prominent branch, or specialty, of our practice at the lavalist Hotel and Surgical Institute, and, being in constant receipt of numerous inquiries for a complete but concise work on the nature and curability of these maindies, we have published a large dilustrated treatise on these diseases, which will be sent to any address on receipt of ten cents in postney stamps.

BLADDER

DISEASES.

BLADDER

DISEASES.
