The Indian Outbreak. WASHINGTON, June 24.—The outbreak of the Cheyenne Indians which was threatened Saturday last has been brewing for a year or longer. PORTLAND, June 24.—General Logan was introduced to the Grand Army Veterans last night and after the enthusiastic cheering said: "Mr. Commander, Comrades Ladies and Gentlemen: While we are assembled here to-night in this beautiful city, surrounded as we are by friends who meet us cheerily and greet us kindly, we cannot but allow our minds to wander away from here, momentarily at least, to where the old Commander, grander than his name, with a disease that has brought him to the very verge of the grave. In my judgment he has not given to any people a grander commander of men, a greater director of forces, a more magnificent campaigner (applause), a man with more ability to execute than U. S. Grant. [Applause.] For his country he has done as much as any man that ever lived has done for any other country. [Great applause.] No matter what may have been said, no matter how asspersed by those who despised him, he has passed up and beyond the clouds that have surrounded him, and his character shines out to day before the civilized world as bright as the brightest star that deck's the heavens. [Applause.] I believe there is not a citizen in the United States of America that does not sympathize with his misfortune and suffering now, and it is the prayer of the G. A. R. I am sure, that God, who disposes all things, may permit this grand old man to live on as one of the citizens of this grand republic. For him I can say no more than that we wish he passed away into the country and civilization will lose one of the greatest supporters of liberty that ever lived and one of the grandest that ever died."
