

MIFFLINTOWN, Wednesday, July 15, 1895.

B. F. SCHWEIER, EDITOR AND PROPRIETOR.

The question is asked, "is drunkenness a disease?"

The Russian war cloud is still bigger than a man's hand.

There are in the United States 25,000 women physicians.

ENGLAND seems to be determined to keep out of a fight with Russia.

JAT GOULD has appointed a woman freight agent at Castleton, Indiana.

PROMISING in the woods is said to be paradise regained, when it doesn't rain.

A MILLION cat skins are used annually, to make seal skin coats and so forth.

On the 20th of May, a fire in the city of Toyoma, Japan, destroyed 5,917 houses.

PROFESSOR C. P. LANOLEY, of Pittsburgh, insists upon it, that the color of the sun is blue.

Of the more than six hundred Vassar graduates, only two hundred have become wives.

The majority of the Quay delegates to the Republican State Convention had no instructions.

SECRETARY LAMAR could not raise the American flag over his department on the 4th of July.

The Maria Cleaveland reformers are preparing to open the sluice gates of their abuse dam against Quay.

The late German census reports that 1,238,080 women take a part in field labor on German farms.

GENERAL GARZA, with four hundred of his soldiers was killed in Mexico, in a battle with Indians, recently.

First Assistant Post Master General, Malcolm Hay, has resigned. Mr. Stevenson, of Ill., is his successor.

Six days of continuous rain in Kansas brought the wheat harvest to a stand still and entailed a great loss of wheat.

THIRTY thousand of the forty thousand people of the city of Murcia, Spain, have fled from the cholera stricken place.

The Republican State Convention, and the State Teachers Convention at Harrisburg, last week, caused the old town to appear quite lively.

The annual session of the Grand Lodge of the Knights of Pythias of Pennsylvania will convene at Reading on the 18th day of July at 9 o'clock A. M.

"One of the plans to make Paris a seaport is to convert the river Seine into a canal ninety-eight feet wide. The cost of dredging, etc., is estimated at \$20,000,000."

POLITICS is not a pure pool, but men of the world know that it is not by many per cent as foul a pool as the business pool of the country. Open your eyes and ears, and learn for yourself.

QUAY conducted his own campaign excepting the speech of nomination by Col. W. A. Norris. The Colonel's speech was one of the most ably executed pieces of oratory that has been listened to in many years at Harrisburg.

There are histories and histories of the rebellion, by both rebel and union soldiers, and centuries after this, students of history will ask "what was it all about." The answer will be, "a fight for and against slavery, and slavery was crushed out."

A SCIENTIFIC writer publishes an article on the locality of the Garden of Eden. He believes that it was at the North pole and that the deluge destroyed it. He believes that the names found in the Bible, that indicate that Eden was in Mesopotamia, are general names.

There were two camps in Fairmount Park, last week. A camp of volunteer companies from the several states, and a small camp of less than one hundred Indians headed by Buffalo Bill and Sitting Bull. The Indians drew much the larger crowds to witness the drilling.

REV. HENRY WARD BEECHER in a sermon preached on Sunday a week, said, "the tendency in churches to furnish amusement to the children and adults of the congregations, instead of condemning all amusements was a sign of natural evolution taking place in the churches." How's that for evolution?

IS the first rank of Pennsylvania Colleges stands Pennsylvania College, at Gettysburg. People labor under a great mistake when they send their sons beyond the limits of the Commonwealth, to New England Colleges. Pennsylvania schools have not yet been struck by the swell and show element that has come down, like the wolf on the fold, in a number of schools beyond Pennsylvania limits. There may be a good deal of show in this world, but show and pretense is not mental acquirement. Gettysburg College is kept securely moored to the substantial safety line of solid acquirement, and for that reason is a most commendable and desirable place to send a boy for intellectual training.

Should you divide with a socialist this week, he'd have nothing next week, and would be around for another divide with those that had saved of their earnings. It wouldn't take many weeks of that kind of management to create an eager desire to divide the socialists. Socialists should practice what they preach and thus by example teach the world.

The Austrian government refused to recognize Mr. Keiley Minister from the United States of America to Austria. Well, Mr. Keiley can be recalled by Uncle Sam, and some one of his many other wards sent out to Joseph. Will Joseph give a bill of particular objections for refusing to receive Uncle Sam's representative?

GOVERNOR PATTRICK clings to lawyer D. D. Stone, and D. D. Stone clings to the Governor. His excellency has re-appointed Mr. Stone a Notary Public, just as it was fore-shadowed he would do in the event of the Senate rejecting him. Stone and the Governor captured each other long ago, and they seem to be determined to stay captured.

MISS CLEVELAND, the President's sister promises to become as famous as her brother, because of her privacy for house keeping, and for its every work. People who go to Washington—unless they are hunting for free—are more curious to see Miss Cleveland than they are to see the President. The girl seems to possess the virtue and ability of the old Puritan stock from which the Clevelandians have sprung.

CHICAGO has passed through an exciting time of a street-car employees strike. Socialists in that city took advantage of the occasion and held a number of outdoor meetings at which their speakers took occasion to deliver blood and thunder speeches, and declared that the time is about here for the people to rise up and burn and kill. "There is one point that the speakers forgot to explain, and that is the place at which the socialists would come out of the lurid bury."

MISS CLEVELAND, the President's sister, is literary in her tastes, and writes a great deal. She has written a book, which it is expected every Democratic office holder will buy, but she is not only an accomplished and literary woman, but she is a first rate house-keeper, can do any kind of household hand work and can manage one or a dozen servants. If her brother, the President, can manage government affairs as well as she manages the White House, he will be a success.

A MAS. FESS, living at Pottstown, Pa., willed the handsome shirt front of the sheriff who was making an effort to get into the house to eject her from the premises. The wiling process was accomplished by pouring a bucket of water on the officer from a second story. The Sheriff's willed shirt served to put his temper in a boiling rage, he obtained help, and he and three or four deputies charged the house, broke open the doors, and put Mrs. Fess and her furniture on the street.

THE English woman, Mrs. Dudley, who shot, but did not kill Jerry O'Donovan Rossa, a New York dynamiter, was given a trial in a New York court and acquitted on a plea of insanity. She, however, declares that she is not insane. Rossa is a bad man, which is abundantly proven by the fact, that in his paper he advised the Irish of London, to up set all of their stores, at a given time, on a given day and in that way London would be set on fire in no many places that it could not be put out.

The number of superintendents and teachers increased the roll of attendants upon the Teachers State Convention at Harrisburg, last week, to seven hundred names. The work of the Republican State Convention in its election of a candidate for State Treasurer, was tame compared to the work of the teachers for the election of a chairman to preside next year at the Allentown State Teachers Convention. It is not understood except by the wire pullers why a teachers convention should be so worked up over the election of a chairman.

The Locust.

A writer on the subject of the locust says: In about six weeks after the eggs have been deposited in the twigs of trees and bushes, the young locust is hatched out, and drops from the twig to the ground into which it immediately burrows until it finds a root to which it attaches itself and there remains for a period of 17 years, sucking substance from the root through a tube something like the sucking tube of a mosquito. At the naturally appointed time it burrows upwards and crawls up some erect object that stands above ground where it sheds its shell coat and takes wings.

Horace King, colored, who died in Georgia a few days ago, at the age of 78 years, was a famous lattice bridge builder and inventor of the process of inserting new teeth in circular saws. He was once an slave. Many bridges in Georgia, Alabama and Mississippi were built by him.

Pennsylvania Finance. On the 1st of July.—The State Treasurer's statement shows that at the close of business on June 30 there was in the Treasury \$1,428,604.93, of which the following amounts were in Philadelphia banks: Farmers and Merchants National, \$56,781.98; Girard National, \$90,000; People's \$259,999.98; Townsend Whelen & Co., \$30,000; Tradesmen's National, Conshohocken, \$20,000.

Not a Single Gray Hair. "You may laugh and think me a vain thing," writes Mrs. J. R. C., of San Francisco, to a friend in this city, "but I have not a gray hair in my head, and yet (and say) I am fifty and a day. Recently my hair was not only quite gray but quite thin, too. Parker's Hair Balsam—made in New York, I think—did wonders for me. Try it if you have occasion. It really does what it says, and restores the color also." Not a dye, not greasy, highly perfumed. Only reliable 50c. dressing.

Select Excursion to The Seashore. The second select excursion to the Jersey coast via the Pennsylvania Railroad will leave Pittsburgh at 9:00 A. M., Thursday, July 23d, by special train. The great popularity of these excursions during last season, and its renewal as evidenced by the success of the first one this summer, proves that the people of this section thoroughly appreciate the enterprise of the road in thus providing cheap and rapid transportation to the seashore. The season at the seaside will be at its height, and the numberless modes of amusement and recreation may be enjoyed to the best advantage. The fishing, sailing and bathing facilities at both Cape May and Atlantic City are unsurpassed, and their arrangements for festive and social occasions are of a high order. Ample accommodations can be secured at both places. Excursion tickets, good for ten days, will be sold from the following points at the rates quoted: Pittsburgh, Irwin, Greensburg, Uniontown, Connelville, Latrobe, Blairsville, Indiana, \$10.00; Johnstown, \$9.25; Crescon, \$8.50; Altoona, \$8.00; Tyrone, \$7.05; Huntingdon, \$7.10; Cumberland, \$8.50; Bedford, \$8.50; Mt. Union, \$6.75; McVeytown, \$6.50; Lewistown Junction, \$6.00; Millin, \$5.65; Newport, \$5.00.

ADDITIONAL LOCALS. Walk in Quay. "Got left," "The Philadelphia Press."

The dry weather has shortened the oak crop.

Democrat's say Quay will have 20,000 majority.

The light of the fire of Brubaker's barn was seen by a number of people in this town.

It is mid summer and Sunday school picnics are needed to keep the young membership in full attendance.

The contest for the election of a chairman for the State Teachers' Association for the coming year, as held at Harrisburg last week, by the State Teachers' Association contained more solicitation than would run several political state conventions.

Mr. Wenrick, who lives near Freeburg, Snyder county, with two sons was shocking wheat about 4 o'clock P. M., July 8, when a bolt of lightning came down, and struck the two sons. William the elder one was killed. The younger one was severely hurt. His limbs were black and blue from the hips down. At last accounts he was doing as well as could be expected.

An unknown contemporary utters a truth when it remarks that some men refuse to take their county paper, and give an excuse that they take several papers printed in the cities. Just watch them, however, and you will find these men skimming around each week as soon as the local paper is published endeavoring to sponge a reading of some intelligent subscriber.

"What shall I sing for you to night?" she asked him.

"Sing that old Scotch song, 'I Canna Leave the Auld Folsk Yet, We'd Better Bide a Wee.'"

"Oh George, that is a very ugly song, I suggest prostitution. Let for sing that beautiful song, 'Just Now.'"—Chicago Tribune.

When lovely women throw a cork, A contumacious bomb to seek, It gives 't' artistic eye a shock To mark her attitude and air. But be not to your danger blind, If you should be beside her then, At once a place or safety find— That is to say, stand near the hen.

Text Book Committee.

The committee on uniform text books met at the Jacobs House, Mifflintown, Pa., on Saturday, June 20, 1895. The preliminary discussions, Prof. W. H. Groninger offered the following resolution, which was unanimously adopted as the sentiment of this committee:

Resolved, That in each school district in Juniata county, in which there is now in use a series of school books not giving satisfaction, a. c. the said boards of directors contemplate a change, it would be well, in the opinion of this committee, to adopt the books this day recommended.

The different books in the hands of the committee were then presented, and their respective merits and demerits discussed, which resulted in the selection of the following books:

Morroe's Charts, Morroe's Spellers, Normal Readers, Raub's Grammars, Harper's Geographies, Harper's Copy Books, Hous-ton's Physical Geography, Baer's U. S. History, Raub's Arithmetics, Mills' Physiology, Brooks' Algebra.

On motion of Dr. L. N. Grubb, the following resolution was adopted:

Resolved, That it is the sense of this committee that a four (4) book series of Readers adapted to the wants of the common schools of Juniata county, be recommended to the board of directors, with the committee respectfully recommended that the 1st, 2nd and 3rd readers be used, with either the 8th of the Normal series or Raub's Literature as the fourth book.

J. N. KAUFMAN, Secretary.

W. H. GRONINGER, Secretary.

All the talk that some people have, is gossip about their neighbors. "Trying to do business without advertising is like winking at a pretty girl through a pair of green goggles. You may know what you are doing, but nobody else does. Families that advocate the whipping of children at school, seem to be shocked when the whipping post is advocated for wife beaters, thieves and so forth. These are facts worth more than a passing thought. A man and his wife went into a dentist's. "How much do you charge for filling teeth?" asked the farmer. "From two to five dollars." "And for pulling 'em?" "Fifty cents." "Ma'lar," he said, turning to his wife, "you'd better get it pulled." Mrs. Brown—"What do you think? Mrs. Goldfish has just returned from Paris with several thousand dollars' worth of bracelets that she could have purchased just as cheap at home." Mr. White—"Yes, I know; she bought it at my store yesterday afternoon."—Boston Transcript.

"A New York paper has begun suit against several delinquent subscribers under the U. S. Postal Laws, which say "the taking of a newspaper and refusal to pay for the same renders a person liable to criminal prosecution as a thief, and the person guilty of the same can be punished as if he had stolen goods the amount of subscription."

One of the Louisville Girls. From the Memphis Sunday Times. A Louisville girl who was visiting here a short time ago scored a signal triumph over a fresh young society man of this city. They were sitting upon a sofa together and as the conversation progressed he allowed his arm to gradually fall down until he had it around her waist.

She arose very indignant and he made the following explanation and apology: "I hope you will not think anything of this. It is just a way I have. All the Memphis boys act the same way and you will have to get used to it. I hope you will not take any offense at it, as it's just my way."

She left the room, but came back in a few minutes with a married friend and a young man on the sofa again. Soon she began to fawn on the young man and she showed him a proof of her thoroughly loved. Finally she said: "I'm dreadfully sleepy and I hope you'll go home. You mustn't take any offense at this. All the Louisville girls act the same way. You are exceedingly tiresome and you had better go home at once. Don't be offended at this. It is simply a way I have."

He stood upon the order of his going.

Vegetable Sicilian HALL'S HAIR RENEWER.

The great popularity of this preparation, after its test of many years, should be an assurance, even to the most skeptical, that it is really meritorious. Those who have used HALL'S HAIR RENEWER know that it does all that is claimed.

It causes new growth of hair on bald heads—provided the hair follicles are not decayed, which is seldom the case; restores natural color to gray or cold hair; preserves the scalp beautiful and clear of dandruff; prevents the hair falling off or changing color; lowers its soft plant, lustrous, and causes it to grow long and thick.

HALL'S HAIR RENEWER produces its effects by the beneficial influence of its vegetable ingredients, which invigorate and relaxate. It is not a dye, and is a delightful article for toilet use. Containing no alcohol, it does not evaporate quickly and dry up the natural oil, leaving the hair harsh and brittle, as do other preparations.

Buckingham's Dye FOR THE WHISKERS Colors them brown or black, as desired, and is the best dye, because it is harmless; produces a permanent natural color; and, being a skin preparation, is more convenient of application than any other.

STILL ON TOP AND WE MEAN TO STAY THERE. FAIR DEALING, IS OUR MOTTO. SUCCESS, OUR REWARD. STRAYER will not, nor cannot be undersold. We are highly gratified at the success attending our efforts to bring down the high prices formerly charged for CLOTHING in Mifflintown, and find the community sticks to its first love. The public have faith in our published statements, and we strive to deserve the full measure of confidence so freely placed in us. Every day brings fresh proof to us of the good will of all classes. We say without the least fear of contradiction (and have plenty money to back it) that my terribly underrated opposition has Two Dollars worth of usable, or as he calls them, WAR GOODS to my one. NO OLD GOODS THIS SEASON. as all our summer clothing was destroyed by fire. SOME TALK ABOUT FIVE PER CENT. FIE! Why, before I will allow my customers and friends to be deceived in this manner. I will do business this summer for pleasure, and show you the bill for every piece of goods you buy, only asking expense of transportation, and our advantages for buying are equal, if not superior, to any house in central Pennsylvania. "I had rather be a dog and bay the moon, than such a clothier." How conceited, some people think all others are old fogies. Well, by the time they get through with us and our low prices, they shall change their minds. Remember whatever you buy of us must be as represented. When we say a suit is all wool such must be fact, and when we give you a price we guarantee that such price is lower than any one else can sell the same article at.
