We are indebted to F. F. Robn, the enterprising market car man for a mammoth watermelon. The long way round the melon measured forty-six and a half inches, the short way round the melon measured thirty-eight inches, and its weight was that of a good sized boy. But the real test of the pudding is in the eating thereof, so with the melon, it was better inside than even its handsome exterior indicated. Long live Robn.

The men who led the riot and murdered the Chinamen at Rock Springs, Wyoming Territory, last week should be brought to justice. In the mines at Rock Springs where both Chinamen and white men worked, 75 tons to \$1 a ton is paid for mining, and men in eight hours can average \$3 per day. In most of the cases of strike and riot and murder, the instigators are men who receive good wages, much better pay for the work than the average American farmer who owns a good farm. Take the United States over and the average farmer cannot, counting his labor in, make on an average \$3 per day, and out of his earnings he must pay expenses, taxes, live and so forth. It is about time that the owners of this land prick up their ears, and sharpen their understandings as to the kind of people that are carrying on the outrages in the country.

Last Sunday morning a week, the pastor of the Evangelical church at Wintersburg, in York county, began preaching a Grant memorial sermon, and just as he had announced the text, a man named Fulton said no such sermon should be preached. When the pastor, Rev. Shiner, referred to the heroes of Bible times, and spoke of our hero just placed in his last resting place, Fulton called out to him to stop, at the same time advancing to the pulpit. The preacher continuing, Fulton seized him and dragged him away from the pulpit, striking him a blow with his fist and knocking him down. Simon Engelbrecht, who interfered to save the pastor from assault, received one of Fulton's blows on his face. There was great excitement, and after a time order was restored and the services proceeded. Fulton is reported, has skipped over the line into the State of Maryland.

The Bellefonte Republican says: That Judge Fay has issued the following rules in the Bellefonte court house. No person will be allowed inside of the bar except those having business with the court. The first three rows of seats, immediately to the rear of the bar on the north side of the court room, are reserved exclusively for the traverse jurors, and all jurors are required to be present during sessions of the court. The judges are required to keep order, and that the court means to enforce this rule was demonstrated Monday afternoon. A young man from Boalsburg was smoking in the court room. He was promptly brought before the bar, fined \$2 and was handed over to the sheriff till he had paid the fine. This would seem to indicate that when Judge Fay lays down a rule it must be obeyed.

Only a Call. The Lewistown Free Press of last week, relates the following: On Thursday evening a week while Elmer Wertz and John Weaver were on their way home from Henry Snook's, where they had been paring apples, they saw on the road what they supposed to be a bear. Becoming frightened they went back to Mr. S. and had him get his double barrel gun and go along down to where they had seen the bear. On reaching the place in the road where the supposed bear was, they saw it standing above the bank in the bushes. Mr. S. pulled up his gun, took good aim, and pulled the trigger, and down went the bear. But on going to examine it they found it to be only a calf, belonging to Mr. Peters.

From the Stomach to the Side. Under the above head the Lewistown Gazette tells the following: For some thirty years Miss Betsy Comfort, residing on Third street, has been more or less troubled with a pain in her right side, which she took to be a rheumatism until a few weeks ago, when an abscess formed that caused chills and general prostration. Upon this breaking three or four weeks ago, there came therefrom about three-fourths of a peck stone, in two pieces, the one half being entire. The stone was entirely smooth, having no doubt been worn so in its passage from the stomach to the outside skin of the body. When the stone was swallowed it is not known and it is probable that it has been in the lady's system since childhood, she now being well advanced in years. It is no doubt lay in the stomach until it cracked open and the kernel digested, but the stone itself being indigestible was forced to find a way out of the system by a course of its own, which it had to make for itself. It is usually considered wonderful for a needle to pass through the body, and how the peck stone made its way out is certainly more of a mystery.

Wm. Hartman, of Patterson, had the hind wheels of his wagon broken by an engine, while he was crossing the railroad a few days ago, to get a load of wood. If he had been a half minute slower, or if the engine had been a half minute quicker, the result is not pleasant to think about.

HALL'S HAIR RENEWER. The great popularity of this preparation, after its test of many years, should be an assurance, even to the most skeptical, that it is really meritorious. Those who have used HALL'S HAIR RENEWER know that it does what it claims.

It causes new growth of hair on bald heads, restores the hair follicles as not dead, which is seldom the case; restores natural color to gray or faded hair; preserves the scalp beautiful and clear of dandruff; prevents the hair falling off or changing color; keeps it soft, pliant, lustrous, and causes it to grow long and thick. HALL'S HAIR RENEWER produces its effects by the beautiful influence of its vegetable ingredients, which invigorate and stimulate. It is not a dye, and it is a delightful article for toilet use. Containing no alcohol, it does not evaporate quickly and dry up the natural oil of the hair, leaving the hair harsh and brittle, as do other preparations.

Buckingham's Dye WHISKERS. Colors them brown or black, as desired, and is the best dye, because it is harmless; produces a permanent natural color; and requires a simple preparation, is more convenient of application than any other.
