Persons who suffer from Indigestion can arrest the progress of that painful malady by the use of an after-diamer pill, so composed that it will give tone to the stomach, prevent hearthurn, rouse the liver to healthful action, invigorate the kidneys, and thus, through the activity of these organs, promote the natural movement of the stomach and bowels. movement of the stomach and bowels.

AYRE'S PILLS are so compounded that their action, though mild, effectually produces the above results. They also, in curing Constipation, remove the cause of Billousness, Liver Complaint, Kidney Discase, Rheumatiam, and many other serious allments.

AYER'S PILLS

contain no mineral nor poisonous sub-stance, and do not gripe unless the bowels are irritated, and even then their influence is healing. To continue their effect in constipated or chronic cases, they need only be taken in diminishing instead of increasing doses. For scamen, and in-habitants or travelers in sparsely settled countries where physicians are not at hand, they are of inestimable value. There is hardly a sickness they will not alleviate, and in most cases cure, if taken promptly. To young girls just entering upon womanhood, and to women whose period of maternity is drawing to a close, Aver's Pills, in moderate doses, merely sufficient to ensure regular action of the bowels, will be found of
