introduce you."
When, after being introduced, I stated the desire I had to know all about the rangers, in the interest of The Globe Dewocrat, Mr. Gillett said:

"To tell all about the Texan ranger worth telling would fill a good sized volume, so you will have to be content with an outline. The history of the state in the southwest, from the days of the Lone Star republic to the present hour, has been one of continued struggle with savage and semi-savage foes, and the state had from time to time since the war to raise troops to stand off the Indians and help the authorities in upholding the law. It was in 1874, however, when Governor Richard Coke was in office, that the present organization of rangers was effected. legislature appropriated \$300,000 to otect the border counties, and a suitable police, under the control of the state and Adjuant General Steele, was immediately formed.
"It consisted then of six companies

of seventy-five men each. Each compiny was commanded by a captain, two lieutenants, three sergeants and four corporals. It was soon found that the appropriation would not be sufficient to support this establishment, and reductions had to be made from time to time, so that at present the companies are only twenty-five strong, and have but one captain, one lieutenant, one sergeant and two corporals each. What would be about the present

strength of the force?" "About 150 men, which is ample just now. In 1882," continued the marshal, *Congressman Upson introduced a bill. which passed both houses and was ap proved by the president, refunding to the state \$1,000,000 expended frontier defense, but the money has not vet been received by the state. What is the present pay of a ran-

"Well, a captain gets \$100 a month, rations and allowance for two horses; a lieutenant \$75, same rations and allowance for two horses; a sergear t \$50, rations and allowance for one horse; a corporal \$35, rations and allowance for one lorse, and a private \$30, and allowance the same as corporal. Privates used to receive \$40 a month when the battalion was first organized." "What does the allowance for a horse

amount to ?"? "A little over \$11 a month. The men provide their own horses and arms, but the state furnishes all the ammunition they require."

'Are the men all Texans?" 'No, the rule is the reverse. They are from every state in the Union, and many of them are young fellows most respectably connected. Very few of the old hands except officers are now in the service. Capt. L. P. Seiker is the veteran of the battalion. He joined in May, 1874, and has served without losing a day ever since. He is now captain of company D, which he entered as a private. This company killed more Indians and rustlers than any other in "What are the usual duties of a

"He is a state police officer and a soldier at the same time. In the one capacity he performs the duties of a deputy sheriff and is in addition empowered to arrest without warrant all fugitives from justice in the state. A list of these fugitives is furnished from the office of the adjutant general from time to time for the information of the rangers. Like to see it?"

The scribe said he would, and Mr. Gillett produced a ponderous roll of closely-written foolscap containing the names and descriptions of fully 5,000 criminals whom the state was desirous to renew acquaintance.

"But times are changed now," said Mr. Gillett in conclusion; "the railroads are cutting the country up in all directions, the Indians are dead or rounded up, the scout is a thing of the past, and in the near future even the ranger may follow. There will soon be no trontier, and the frontiersman will be a reile of the past. We can't put the breaks on the wiseels of progress. Perhaps it is as well that it is so.

The St. Pani Globe says a man at Milbank, Colorado, has a chicken with a head at each end, one white and the other black, out no tail,

Givs soft feed to poultry in the morn ing, and the whole grains at night, excepting a little wheat or whole grains of corn placed in the "scratching pisce" in the forenoon, to furnish employment during the day.

A PROMINENT mathematician's wife has presented him with a pair of twins. He has now obtained the full sum of human happiness, with two to carry.

How to Use Washstands,-The old pipe washstands, now tucked away in the garret, but so common a few years ago, the one with a hole in the top for washbowl, bars for towels and a drawer and shelf below, is a treasure not to be despised. Do you want a pretty table for books or music? Remove the back piece and bars and nail a smooth board over the top to cover the hole. An ounce of shellac dissolved in a pint of alcohol, with enough lampblack added to it to make the desired dark shade, will supply enough varnish to transform the ripetable into a fashionable ebonized one, as the legs only require to be varnished. Then cover both shelves with dark blue or clive plush or velveteen and put a straight valance of the same around the lower shelf. Finish the top one with a worsted chemille fringe in bright Persian colors and mediate storm, the painter left. edge the valance with the same. It will take only about a vard and a quarter of the plush and three yaads of fringe. If it is to stand against the wall three sides of the lower shelf only need to be trimmed, and the drawer left for use at the back. For a bedroom these tables are pleasing, if simply covered

in the same way with a pretty, cheerful cretonne, edged with a full ruffle of the

In the course of some valuable legal hints to travelers, Myron T. Bly, a deciduous tree, the buds of which have lawyer furnishes the following: He gives the authority or precedent upon which each case depends. Those who travel much will do well to put these hints in their purses, their hats or their memories. It would be worth while, if

at a later date than the printed condi-tions disclose. If you can induce him to alter the face of the ticket to meet to alter the face of the ticket to meet to alter the face of the ticket to meet your convenience for using it, well and good. The company will be bound to carry you according to its tenor. But be sure that the alteration is done before it is paid for and delivered to you, otherwise there will be no consideration for the change in the contract, and it would be void.—61 Barb., N. Y.. 611.

And right here, it is well to bear in mind that nervous travelers are always afraid that the train is going to leave them. They rush up to the ticket winary of the contract, and it would be void.—61 Barb., N. Y.. 611.

And right here, it is well to bear in mind that nervous travelers are always afraid that the train is going to leave them. They rush up to the ticket winary to be handled, as for hedging, them. They rush up to the ticket win-dow, throw down their money and rush keep them trenched in moist soil, reaway again, without waiting to take the

Euch evil Liver A running river Of harmiess merriment

HOUSEHOLD

THE increasing frequency of neural gic headache among women must have a cause. There is one of simplicity which has been overlooked, and one to which it is worth while to draw attention. The pain experienced is generally located in one or more of the branches of the second cervical nerve, very commonly those terminating in the scalp at the occipult or back of the head. The nerves of the scalp are irritated by the hair being drawn tightly back and put on the strain, not as a whole, in which case the strain would be spread over a large area of the surface, but by small bundles of hair which are pulled back and held in place by hairpins. Relief is experienced by removing the hairpins, but this gives only a temporary and partial effect. The injury done is lasting, if not permanent, in its consequences. The present style of dressing the hair should be discontinued, as it in part accounts for the prevalence of a form of suffering which is both intractable and distressing. If it were

LILY TABLE MAT. - For materials use four shades of green single zephyr, one skein of dark green and a haif skein of each of the other shades; commence and crochet with the treble statch a mat with eighty-nine stitches around; then eleven chains; then fill this chain with treble stitches; then ten treble; then the ohain and proceed all around until it is six stitches deep. Finish with the lightest shade; by putting over the thread and drawing it through three stitches the mat will be very full. Tack the fullness with the thread which will leave a place for the lily, which must be crocheted with one ounce white zephyr. Set up three-chain, use the stitch, use one in center, and go back and forth until six deep, then finish the edge same as the mat; there must be eight lilies; then have half an ounce of yellow to represent the center. Set up thirty statches on knatting needles; knit plain ten stitches deep; bind off and sew together; insert a wire! sew lily together and put it in its place

neck. A deft hand makes this effect very charming, but only a woman with a gift for dress need attempt the audacious trick. An easier way of wearing lace is to gather it for the neck, and the ends in soft folds down the front of the dress, passing them under the belt or fastening with ribbons. Lace standing collars are worn as high for dresses with open throats,

Here is a pretty way to make a toilet set which may be new to some: For foundation use scrim of some pretty, open work, striped design. For the band of ribbon of the same color as the ployed in tattooing, lining, and fluish the edge with lace. You can buy the antique lace, or cro-chet some pretty patterns of unbleached linen. Make the small mats and cushion cover the same way. Put a tasty bow of the ribbon in one corner of your cushion. Your set will be more complete if you make a splasher and table scarf in the same way.

PARLOR WHISE BROOM, -A pretty whisk broom holder can easily be made. Take a small round Japanese fan, cover both sides with pretty cretonne, fastening at the handle; cut a narrow strip of pasteboard, say two inches wide and four or five inches long (according to the size of the fan), cover with cretonne, fasten the edges of the strip in the centre of the fan, far enough to admit the broom. Twist ribbon around the hanleaving a little loop at the top to hang it up with, put a bow of ribbon at the handle, where the cretonne is fast- durable and offers no chance for moths ened. If desired, one can be put at the

CHOCOLATE CARE, -One cupful of butter, two cuptuis of white sugar, three cupfuls of flour, four eggs, one capful of sweet milk and two teaspoonfuls of baking powder. Bake one half in a square tin, add to the remaining part one-half cupful of grated chocolate, one tablespoonful of molasses, yolks of two eggs and a little more flour. Bake in the same sized tin and put together with chocolate icing, the dark cake on top, which also ice with the chocolate icing. We have always called it brownstone front.

NOVEL PINCUSHION .- A novelty in the shape of a pincushion cover is to cover a thick cushion of medium size with satin, then cover one corner with sheer white muslin. This should be cut in the form of a triangle, and where the muslin ends and the satin begins put a jabot of lace there. The effect is both pretty and quite new.

LEMON PUDDING .- One cup of milk, two tablespoonfuls of cornstarch, three eggs, one cup of sugar, one tablespoon ful of butter, juice and grated rind of two lemons. Mtx these ingredients and bake in a rich crust, Make a meringue of the whites of two eggs and put on top atter the puddings are baked.

In cases of congestion, bilions colic, inflammation, there is no remedy more certain to give relief. In cases of obstinate constipation, also, wonderful cures have been wrought. For sore throat, diphtheria and inflammation of the lungs, a hot compress is one of the most notent remedies

LAYER CARE, -Four eggs, one cup of white sugar, butter the size of a walnut, one and a haif cups of flour, one large tablespoonful of baking powder, six tablespoonfusl of water; flavor to taste; bake in moderate oven.

Pres'deptial Heads Washington's hair was long and gray.

was bald and his hair of was a fine looking man.

Jefferson had red hair and we are told

that he was freckled. William Henry Harrison combed his hair well to the front of his ears, and he was gray at the time he was elected. President Lincoln did not pay much ttention to his hair, and most of his pictures represent it as rather long. It was dark and straight.

John Adams worea wig, and his son, John Quincy Adams, had the baldest head which ever rested on the pillows of the White House. Some of Jefferson's portraits repre-sent him with his hair banged in front

and coming down over his forehead in the style of the dude of to-day.

President Arthur had dark hair, which was growing gray when he left the White House. He kept it well combed back from his face and wore it President Cleveland's hair is brown

and thin. He wears it short and combs it up from his forehead. His head is bald at the crown, and its baldness is said to be daily increasing.

Frank Pierce had thick curly hair which fell down upon his forehead, and

James Buchanan kept his gray head well trimmed, combing his hair so as to show to the full his high, open brow. Polk patterned after Jackson in combing his hair straight back with hardly a part, and both Fillmore and Taylor parted their hair on the left side of the head, while Frank Pierce parted his boldly on the right. Every one knows how Jackson's hair

stood up all over his head as straight and stiff as the quills of a porcupine, but all are not aware that he was as gray as badger during his Presidential term, and his hair was as fine as the thinnest strands of spun silver.

SCIENTIFIC.

-E. Bohlig, in a recent paper on the solubility of glass, described experi-ments which showed that 100 c. c. of distilled water at the boiling temperature will in every two seconds extract as much alkatine silicate out of glass commonly used as will suffice to neutralize 0.1. c. c. of a solution containing 0.1 the fashion for women to wear their gram of oxalic acid per liter. With hair short instead of long and tied up, some old flasks and beakers no apprecithe fashion for women to wear hair short instead of long and tied up, some old flasks and beakers no appropriate there would be less headache than there able quantity was dissolved in the short time required for quantitative analysis.

A new case of fraud with preserved food has been disclosed by P. Carles in the Journal de Pharmacie et de Chemie. A san ple of preserved tomatoes when examined differed from a normal specimen by containing much less dry ex-tract, potassium bitartrate and total phosphoric acid. The inference is that the sample in question contained but little tomato, and was chiefly composed of carrots and pumpkins, the whole being covered with some aniline dry.

-Ex Commissioner Le Duc gives, in the Husbandman, the formula for cheap paint for outbuildings and fences, to be made of sweet skimmed milk, mixed to the thickness of cream with common custern cement (fresh) and applied to wood and brick. It is of a ye owish stone color, and any pigment necessary to give it any desired color can be added without injury to the paint. The lime of the cement and the caseine of the milk form an insoluble compound.

GENTLEMAN-I am sorry to learn of your wife's death, Uncle Rastus. Uncle Rastus-Sah?

Gentleman-I say that I am very sorry to hear that your wife has recently died. Uncle Rastns (with a puzzled look)-I giss da' am some mistake 'bout dat, Mustah Brown. I lef' de ole ooman in gud health dis mawnin', sah, Who

said she was dead? Gentleman-Tve forgotten now. But I certainly heard so several days ago, Uncle Rastus(his face clearing up)— Oh, ya'as, now I understan's, sah. wuz er formah wife ob mine, Mistah Brown, She died mo'n foah weeks ago. De present incumbent am all

HE WAS NO CHICKEN, -"Yes, stran ger," said a passenger from Texas, "I'm goin" down East on an important errand. Don't mind telling you that I'm going to be married. You can imagine how good-natured and jolly I feel. "Yes; but don't you feel a little anxiety, ractes in the world is a human being a little trepidation, about taking such an important step in life?" "Nary a trep, one fight with Injuns, two scrimmages with cowboys, an' went through four cyclones. I'm no chicken,"

> "Is THE 'coon a smart animal?" asked stranger of old Si Jackson on Onion "Talk about 'coons being smart, I should say dey was smart," "Well, how smart are they?" "A 'coon played me de meanest trick you eber heerd tell on. I foun' a hole whar de 'coon went inter de groun', and I waited dar all day long to shoot dat 'coon, and when he come out he was a polecat."

IN A Western town a citizen of the name of William Shakespeare has been appointed Postmaster. Recently a visitor asked one of the

leading residents of the place if he were familiar with the works of Shakespeare. "All I know about him is," replied the resident, "he has been workin' for the Postmastership for sixteen years, an' he's got there at last. That't about all the work I ever knew Bill to do." A FASHIONABLE Austin lady, immedi-

is," she replied hesitatingly, "my deceased brother-in-law." That city cousin of yours, who is now ready to end his little visit of six week's duration, will likely ask you to drop in and see him at the office when you are in town. Job wasn't wanted by city

"The junior class will embrace seven-teen young ladies." "It will?" exclaimed the voung man address Great Scott! then I shall join the ju-

THE other night, after the thunder

"Well, well, you look cheerful after such a close call," growled Jones as he removed his hat, "What close call?"

"Why, lightning struck the barn in the alley not a hundred feet away." "Oh, dear!" said one of the but I knew it all the time. One of my arms has been numb ever since."
"And it affected my foot," said an

other. "And it set my heart to palpitating." "And my elbow has felt queer ever

Every one in the room reme to have been shocked, and every one was thankful over the narrow escape.

By and by a boy, who had been thinking deeply, gushed out:

"Why, there is no barn in the alley!"

Amidst the deepest silence every-body remembered this fact, and the boy elimber it.

hed it with: "And how could there be when the s no alley!

Jones had lied, but so had all

THE BEAUTIPUL MISS SMITH.-At an evening party Dumley was introduced to a young lady, and after a remark about the weather he said gallantly: "And have I really the pleasure of meeting the beautiful Miss Smith, whose praises are being sounded by everybody?"

Oh, no, Mr. Dumley," the lady replied, "the beautiful Miss Smith to whom you refer is a consin of mine. "O; that's it. Well, I thought there must be a mistake somewhere, said the gallant Damley.

"I would not live alway." No; not "I would not live alway." No; not if disease is to make my life a daily burden. But it need not, good friend, and will not if you will be wise in time. How many of our loved ones are mouldering in the dust who might have been spared for years. The slight cough was unheeded, the many symptoms of disease that lurked within were slighted and death came. Dr. Pierce's "Golden Medical Discovery" cannot recall the dead though it has snatched numbers the dead though it has snatched numbers from the verge of the grave, and will cure consumption in its earlier stages.

One has only to die to be praised.

Don't Hawk, Spit, Cough, suffer dizziness, indigestion, inflammation of the eyes, headache, lassitude, inability to perform mental work and indisposition for bodily labor, amony and disgust your friends and acquaintances with your massituding and offensive breath and constant efforts to clean your nose and throat, when Dr. Sage's "Catarrh Remedy" will promptly relieve you of discomfort and suffering, and your friends of the disgusting and secular inflictions of your losthagms disneedless inflictions of your loathsome di
