AN EFFICIENT REMEDY

In all cases of Bronchial and Pulmonary Affectious is AYER'S CHERRY PECTORAL. As such it is recognized and prescribed by the medical profession, and in many thou-sands of families, for the past forty years, it has been regarded as an invaluable household remedy. It is a preparation that only requires to be taken in very small quantis, and a few doses of it administered in the early stages of a cold or cough will eftect a speedy cure, any may, very possibly, save life. There is no doubt whatever that

Has preserved the lives of great numbers Done Shellenberger, persons, by arresting the development This Home being intended to provide for and and Prudence Howard, aged 17 years, 4 Pulmonary Consumption, and by the cure Pulmonary Consumption, and by the cure of those dangerous maladies. It should be kept ready for use in every family where there are children, as it is a medicine far superior to all others in the treatment of Croup, the alleviation of Whooping Cough, and the cure of Colds and Influenza, allments speculiarly incidental to childhood and youth. Promptitude in dealing with all diseases of this class is of the atmost aportance. The loss of a single day may, in many cases, entail fatal consequences Do not waste precious time in experimentwhile the malady is constantly gaining a deeper hold, but take at once the speedies and most certain to cure.
