What a miner would very properly term "surface indications" of what is beneath, are the Pimples, Stics, Sore Eyes, Bolls, and Cataneous Eruptions with Boils, and calculations is republicly which people are samoyed in spring and early summer. The effets matter accumu-hated during the winter months, now rates its presence felt, through Nature's endeavors to expel it from the system. endeavors to expel it from the system. While it remains, it is a poison that festers in the blood and may develop into Serof-uia. This condition causes decangement of the directive and assimilatory organs, with a feeling of enervation, languer, and wariness—often lightly spoken of as "only spring fever." These are evidences that Name is not able, unnided, to throw of the corrupt atoms which weaken the vital forces. To regain health, Nature must be aided by a florough blood-purifying med-icine; and nothing else is so effective as uniting, gathering berries, cutting timber, or for any unneccessery purpose.
