Surface Indications

What a rafner would very properly term "surface of adications" of what is beneath, are the Pimples, Sties, Sore Eyes, Bolls, and Cutaneous Eruptions with which people are nanoved in spring and whice people are annoved in spring and early sum oner. The effete matter accumu-lated during the winter months, now makes it a presence felt, through Nature's endeavous to expel it from the system. While it, remains, it is a poison that festers in the bised and may develop into Scrof-ula. This condition causes dorangement of the directive and assimilatory organs, with a facility of enervation, languor, and weatings of the nervation, languor, and watings of the species that spring lover." These are evidences that Nature is not able, unalded, to throw off the corrupt atoms which weaken the vital forces. To regain health, Nature must be forces. To regain licana, Southying med foine; and nothing else is so effective as
