Davis Grove, Montrodenth T. Co., Pa., May 18th, 1966.

Sice.—This is to certify that I have been using BALGH'S \$25 PHOSPHATE for some time, and it does well for me. I have use acres of ground on which I used last year, 2,200 lbs. of BALGH'S \$25 PHOSPHATE for Whest, Grass, etc., bought of Will HALLOWALL of Halborn, Pa. I plompled about half an acre of ground drive the corn we taken of in October, and applied one long of a Bigh-Priced Fermicar to one-half of the ground, and one-bag of BALGH'S \$25 PHOSPHATE to the other halfs of this time. May 18th, the Rye is four feet high or mess. Where BALFGH'S \$25 PHOSPHATE was applied, the Rie is thicker than where the Bigh-Priced Bauter was used. I will defy any near to show one where the \$14.00 per ins. difference is between the 10 Phosphates. If any one wants to see the Rie ground, come to Housinsk Township, Montgomery Co., Pa., and sequing for met or tool my previous correspondence with you, but we are grained to make your acquessitance, auder each favorable circumstances.
