It has been discovered that a bag filled with paint oil placed ahead of a ship in the sea, or astern of the vessel, or in whatever direction a storm may come effectually breaks the waves. This is proving oil on the troubled waters.

The railroad company are preparing to put down narrow tracks in the yard at this station. Within the next fifty years there will be four tracks on this line. Pittsburg and all the Patterson "flat ground" could be utilized as a freight yard.

The cold was intense enough last week to cause fences to crack like pistons, and timbers in porches, barns, and houses to sound like the noise of discharged muskets and the frozen snow in some cases boomed like cannon.

Last Thursday the Railroad Company moved the Supervisors office from its place above the Car Inspector's office for the purpose of making more room and possibly for another side track to be run into the Patterson yard.

"Why don't you try the hot water cure?" asked Tomkins of a friend who was complaining of indigestion. "Drink a cup of hot water every morning."

"I do," was the reply. "I drink our boarding house tea every morning." Auditor General Niles in his letter of instruction to the County Commissioners of the State, states that under a recent decision of the Supreme Court, in the case of John E. Jones vs. Alexander E. McCandless, the publication of the Mercantile Appraiser's list will be dispensed with until the legislature makes further provision for such publication. -Bloomfield Advocate.

The wonderful popularity attained by Hood's Calendar last year, will be repeated by Hood's Household Calendar-Almanac for 1887, just published. A happy combination of calendar and almanac, of beauty and utility, of art and advertising, has seldom been produced. The lovely child's face, the elegant and useful information, copies may be obtained of the druggist, or by sending six cents for two, to G. I. Hood & Co., Lowell, Mass.

William Fulton, a wealthy farmer of Independence, O., who is suing for divorce from his second wife Rebecca, testified the other day, that being unable to keep any papers or other valuables in his house without his wife getting them, he made a package of them and put it in the manger of his big bull. They were pretty safe there," said Mr. Fulton, "because it was safe for any one on the farm except a very safe dog near the animal. He was a very handy bull."

Letter from Kansas. TOPEKA, Kansas, January 2nd, 1887. Mr. Editor, -One more year has been put on the record, and to Kansas has been a prosperous year, and has been noted for the great competition in railroads and railroad building. A thousand miles of new track has been laid and there has been unusual activity in securing charters for new roads. Two hundred companies have taken out charters representing almost \$7,000,000. We have ten miles of street railroad and a franchise has just been granted to build a cable railroad; we have gas and electric light, water works and so forth with twenty-five miles of pipes. All Eastern roads are trying first to occupy the territory. The agent of the Pennsylvania Central has been here, with agents of other great roads. It is a puzzle to understand why so many people go to California, when Pullman coaches full is the average daily trains through. John Boal and bride returned from California yesterday, after having visited Los Angeles, San Francisco and so forth. We in Topeka built in 1885, fifteen hundred, and builders say, next year, 1887, will surpass that figure. This makes business good. I rent a store room to a fruit and candy man; he tells me Christmas week he sold six tons of mixed candies, ten barrels of gum drops, seven hundred pounds of nuts and there are many other stores that sell mixed candies. As an evidence of the financial health of Topeka, I will mention that in a talk with F. G. Willard, I learned that their deposits in the first national bank is almost \$700,000, being one of the eight banks in the city and seven trust and loan companies beside land agents who loan money. Rail road building still goes on. Abraham Thompson sold his six hundred acres of powder last Thursday to one contractor if the ground freezes too hard they blow it loose. They are working on the third span of the Rock Island railroad bridge across the Kansas river. Piers, and iron ready to be set up are here, this makes nine railroads running in and out of Topeka. Come out on some of these excursions and run down to old Mexico and see that curious race and their old churches. In one of their churches a picture has been left on the wall. The picture is railed in. For the railing around it 25 tons of silver have been offered and refused. Wishing you a prosperous New Year. Good Bye, T. B. THOMPSON.

Walker Township News. Good sleighing and moon light nights make many people happy. The Grange met at Centerville on Saturday for the installation of officers.

Teacher, S. G. Rumbaugh, had his school to visit Red Rock on last Tuesday afternoon. Rev. Monis is holding a protracted meeting at Locust Run. Only two persons have yet been at the altar.

Our directors have secured a Webster's Unabridged dictionary for each of the schools that had none. Thanks to them for the kindness. Some people are looking about already for a Supervisor for the east end of the township. Michael Knecht appears to be the people's man for the office. He will make a good one and is worthy of it.

On last Thursday morning Miss Nancy Boner was found dead on the floor, in her room. It is not known the immediate cause of her death, but she had not been well for some time. She had been a paper, and was buried by the proper authorities on Friday, in the grave yard, near Cedar Grove. It has been said, she was aged, about 57 years. -Bex Nox.

Tom's New Year's Resolves. No more ten-cent cigars I'll smoke, No dollars thus I'll spend, No walking to the bus with boys, No suppers with a friend, No more to balls or theatres, No sleigh rides, hops or fairs; But every night at nine o'clock Will find me snug up stairs, And thus I'll all my money save To be a millionaire, And live to be an Alderman - Oh, how the girls will stare! So here I write my firm resolve; I've turned a brand new leaf; To each temptation I'll be cold As stone, in bas-relief. Knock at the door - "Hello who's there?" "Why, Tom, my boy, such fun!" And you're set down for one."

"Oh, no, I can't!" "Now, Tom, shut up! You can't back out that way! Why, all the girls are going, too, And your own dear, sweet May!" "Oh, hang that book! - tear out the leaf! We're boys but for a day; I'll go if it my fortune takes, To have a ride with May." Boston Transcript.

Recollection of School Days. Forty years ago, there were nine boys of us, whose ages ranged from nine to twelve years, as near as I can remember all attending school together. The school house was about 15 by 18 feet, built of round logs, and finished with plaster. The light was admitted to this temple of learning through small windows; an end window, and a window on each side. The ceiling was not over six feet six inches from the floor. In the middle of the floor there stood a big stove with plates about one inch thick with the name of Wm. Dunn, Franklin Furnace, cast on its side. When the first fire had burnt down, and the teacher had drawn out a pile of coals on the hearth to study. We had a comfortable place to sit. Occasionally some one would bring a load of wood. When that was burnt we supplied wood from the nearest woods. There was no school every second Saturday. If the wood pile looked depleted on Friday evening the teacher would say "Boys bring your axes in the morning," then like the Roman soldiers at the siege at Jerusalem, it was time to recite the choros catechism. Did the wood cutting and the stove smoking injure our health, or the health of the teacher? Not say I should think; we are all living yet and average in weight 150 pounds. The teacher is now 75 years old and has taught school 48 winters. But no boys have been scattered. One lives in

Strattonville, one is a Presbyterian preacher, one a missionary to Siam, where he has been 22 years, one lives in Lynchburg Virginia, one in Kansas, two in Franklin Co., Pa., and your correspondent makes the nine. E. M. Waterloo, Juniata Co., Pa., Dec. 30, 1886.

Joseph Willman, lumbering with Martz, Calp, McWilliams & Co., in West Virginia, gave us a call last Saturday evening. His description of the lock system and "trip dams" in use in the Kenabaw river to facilitate navigation was quite interesting.

The windows of the new Westminster Presbyterian church are greatly admired. The memorial window, furnished by Mr. Warner of Washington D. C., in honor of his wife, whose maiden name was Mary Parker, is the finest window in many counties.

The Democracy keep up a constant firing at Blaine. They have an idea that he is to be the next Republican candidate for the Presidency. If he fall of making the nomination they will express regret. Democratic politicians are not as glib as doves.

The world wide reputation of Ayer's Hair Vigor, is due to a healthy action on the hair and scalp. This incomparable preparation restores the original color to gray and faded hair, and imparts the gloss and freshness so much desired by all classes of people.

SENTINEL AND REPUBLICAN, One dollar a year in advance. One dollar and fifty cents if not paid within three weeks after time of subscription.

After the children have learned to read, the greatest educator is the newspaper. Every man should do justice to his family by subscribing for a public journal.

Never in the history of newspapers has the subscription price been so low. Subscribe for the SENTINEL AND REPUBLICAN, it gives nearly twice as much reading as any one of the other papers in Juniata. Its reports of all important home news and enterprises is full and within the period of a year its variety of reading matter comprehends within its scope almost every topic.

You should not be without a county paper if it cost you six or seven dollars a year.

In this day and generation it amounts almost to a wrong to one's self and family to deny themselves the advantage of a good home paper. There are more than a thousand and one things during the passage of a year that interest and sometimes directly benefit us, that appear in the home paper but like the rain, sunshine and air, that we are so familiar with, we do not appreciate as they merit.

There are people who do not take a home paper, but they are not representative people. To be sure this is a free country and people can do as they please so long as they do not trespass on the rights of their neighbors, but the man who does not take his county paper is like the man who has a place that he calls home when his desires are outside of its doors, his home is a misnomer.

"It is all right" if you desire a city paper to subscribe for one, or if you desire to have one from a half dozen cities, it is no one's business but your own if you pay for them, but first of all, subscribe for your county paper and then look abroad.

After having subscribed for the SENTINEL AND REPUBLICAN you are certain in your securement of the county paper that gives you a larger quantity and greater variety of reading matter than is presented by other journals published in Juniata county.

As a medium for advertising the SENTINEL AND REPUBLICAN is number one.

Its job department is not as complete as the job offices in Philadelphia or New York more than its newspaper department is like the department of a Philadelphia or New York daily, but the job department is ample and prices are down to city prices. We'll print you a nice quarter sheet bill for one dollar, a half sheet bill for one dollar and a half, and a whole sheet bill for three dollars.

Mention it to your neighbor that they may do well to subscribe for the SENTINEL AND REPUBLICAN, and send one dollar in advance to pay for one year's subscription, and when you have job printing to do, or desire to have sale bills printed send in the order and it will be executed.

The Judge's Cash Puzzle IN BEHALF OF THE GRANT MONUMENT FUND. USE YOUR HEADS AND MAKE MONEY. Men-Women-Children-Everybody

The Judge proposes to assist the Grant Monument Fund by organizing a great competition on word-building (creating) the largest number of English words from a given sentence by transposing and using letters to suit the purpose, using for the purpose the sentence "Who will be our next President?" and offering Cash prizes to successful competitors, each of whom will have to pay Fifty (\$50) cents on presentation of his competitive paper. The money received will be applied as follows: Twenty-five cents is at once credited to the Grant Fund. The remaining twenty-five cents, after deducting the legitimate expenses of advertising names with their respective answers, etc., will be placed in a contest fund to be equally divided among the six successful competitors, i. e., the six persons sending in the largest lists of English words (proper nouns included) made from the sentence "Who will be our next President?"

This is not a new thing. In England large sums of money have been raised for charity by this method, and those who have participated and incidentally helped a worthy object have won a prize as high as \$10,000 as a reward for mental activity. The names of competitors will be published from week to week in Judge as they may come in. This will not only serve as an acknowledgment of the receipt of the money, etc., but will also serve to show the weekly progress of the fund. Governing rules in this week's Judge. Address "Grant Fund," THE JUDGE PUBLISHING CO., Potter Building, New York City. 1-12-87-41.
