THE FISHERY TROUBLES.

JOHNNIE BULL TO UNCLE SAM-See Samy, my ships sail on every sea, , and the sun never sets on my empire I have a girdle around the earth, and rule people in every clime,

UNCLE SAM TO JOHNNIE BULL-Johnnie, accept my compliments with the remarks that "Britania rules the waves" but Brittania can't get away with the fish business

JOHNNIE-I know Samy that you are sensitive on the subject of fishing in British waters in America and our fishermen have perhaps strained a point to keep your people from being despoiled of in Canadian waters or ports. They have gone even so far as to seize and fine several American fishing crews for entering Canadian ports for fish bait and other supplies.

Samy-Dear Johnnie how frank you are to admit so much. Did you hear how the question was raised in the United States Senate on Monday January 24? How the Senate passed a bill to give President Cleveland the power to protect and defend the rights of American fishing vessels, American fishermen and American trading

JOHNNIE-Yes Samy, I hear that they propose to close American ports against Canada fish? Goodness, don't want the ports closed against us, for the trade of Canada with the United States is worth \$40,000,000. Samy-Well Johnnie all that we want is fair play. We'll close our ports to your fish and other products; We love you Johnnie, dearly, but we love ourselves just a little better, and that you will give us credit with. for you Johnnie love yourself a great deal better than any neighbors you have in the world. How you love the inhabitants of India ; you send them missionaries, with the Bible in front and then back them with your navy and army. You govern 250,000,000 there and shave their rupee at the rate of 25 per cent and on the shave alone make \$200,000,000 a year. Uncle Sam you know has the habit of telling the naked truth and if he tells you these truths you will excuse him for the sake of the truth.

JOHNNIE-Peace, peace Samy don't get mad, don't retaliate, we'll fix the fish business, and I do wish you would cease throwing it into my teeth of how I am akinning the financial life out of India by the demonitiza tion of silver. Peace, peace ; let's fish to rether.

SAMT TO JOHNSON-That's all very well, let's fish together, but just now, the herring are running along the American shore of Maine, and over two dozen British fishing ships are catching the herring within the distance from shore that they are allowed to fish under the treaty law, while at the same time, Johnnie, your war ships are on guard along the Canada line to keep my ships all the time three miles from land, which is the treaty line. Fair play, Johnnie, and we can fish together.

This is evidenced by the failure on the part of thousands of softerers to find relief, even though they have exhausted the skill of various physicians and tried numerous so-called remedies. To such Athlophoros is offered as a role, sure, and quick cure. Its success has been phenomenal, and yet it is not surprising because it will do all that is claimed for it. #### Scrofula

Is one of the most fatal scourges which afflict mankind. It is often inherited, but may be the result of improper vaccination, mercurial poison, uncleanliness, and various other causes. Chronic Sores, Ulcers, Abscesses, Cancerous Humors, and, in some cases, Emaciation and Consumption, result from a scrofulous condition of the blood. This disease can be cure i by the use of Ayer's Sarsaparilla. I inherited a scrofulous condition of the blood, which caused a derangement of my whole system. After taking less than four bottles of Ayer's Sarsaparilla I am

Some months ago I was troubled with Scrofulous Sores on my leg. The limb was badly swollen and inflamed, and the sores discharged large quantities of offen-sive matter. Every remedy failed until I used Ayer's Sarsaparilia. By taking three bottles of this medicine the sores have been healed, and my health is re-stored. I am grateful for the good it has done me.—Mrs. Ann O'Brian, 158 Sulli-van st., New York.
