large to supply the company with a meal of  
fish from the water.

it out of their way they attempted to  
steal one of Sheriff Hamilton's ladders that  
was in use in the painting of Dr. Back's  
house, and carried it down to Snyder's place  
last Friday morning. In taking the ladder  
over the yard fence they made a noise that  
aroused Snyder. He reached the window  
in time to see the thieves fit away in the  
darkness.

A dispatch from Chicago last Thursday  
says the drought in this state is cutting  
off the milk supply from the city. There  
are hundreds of farmers that have no in-  
come except from milk sales. They raise  
no grain save such as used in caring  
for the stock. A short continuation of the  
drought means want and hunger. Many  
are now buying corn from Iowa for which  
they pay 25 cents a bushel and oats at 30c  
a bushel. They pay for bran 15c and for  
middlings 11c.

The lawyer and sheriff were busy last  
week looking up claims of one class or  
another. The sheriff says that the crops of  
the past few years have caused no little en-  
couragement of young farmers, who have large

indebtedness and claimants becoming panic  
stricken hurried their claims to an ex-  
ecution thereby bringing on a feverish state  
of uneasiness in the mind of the public.  
The great subject last week for conversa-  
tion was the execution of judgment paper  
against debtors.

Some months ago George Hower, bought  
the past 10 years has been known as  
the McCoyle property at the first lock north  
of town. The house was put in a state of  
repairs and this week was to have received  
a tenant. About 11 o'clock on the night of  
the 9th of this month it was discovered to  
be on fire. Men first on the ground say  
the fire was burning briskly from a point  
of a coal oil and burnt from a point on  
the first floor about midway along the Pike  
front. Insured.

The Harvest Home picnic held at McCoy's  
last Saturday was a successful gather-  
ing in all of the features pertaining to  
such an assembly. The new feature of a  
parade was admirably managed with W. C.  
Laird as Marshal. The Port Royal Band,  
the McCoytown Drum Corps, and the Water-  
ford string band furnished the music.  
The procession drew around the platform  
in a grove southeast of town, where Dr.  
Kittler, as President, called the meeting to  
order. Rev. John Land offered a prayer  
and delivered an address and was followed  
by Rev. J. B. Work and T. D. Gorman.  
After dinner the meeting was addressed by  
Congressman Atkinson, Rev. Philip Graff,  
and John Spedy. Rev. Philip Graff pro-  
nounced the benediction.

There was a peculiar incident at the  
house of George Jacobs about midnight  
last Sunday. James Mathers, who in this  
place has his home with Mr. Jacobs. About  
the time mentioned, James went to his  
room to retire for the night, having struck  
a light he noticed that the slats of the win-  
dow shutters were closed. To have light in  
the morning at the people of day he went  
to a window and began opening the slats.  
Three sections opened easily, the fourth  
section seemed fast in its place. He took  
a firm grip on the bar that controls the sec-  
tion and gave it a strong pull. It sprung  
open and to his amazement a man's hand  
slipped through between two slats. The  
hand was instantly withdrawn, but James  
was satisfied that he had seen a man's hand,  
and felt certain that the owner of the hand  
stood on the roof of the porch on the  
west side of the building. He listened and heard  
the third slat from the window to a space  
between two windows, there the third  
remained awhile. His breathing was heard  
by James, who stood inside listening. Mr.  
Mathers thought of his uncle Jacobs and  
hastened to his room to inform him of the  
intrusion. When they returned the third  
slat was gone, without having left any trace  
of its presence, excepting a place under a  
shutter that he had cut, doubtless for the  
purpose of inserting a "spry" with which  
to open the shutter. The thief stood on  
the roof of the back porch to operate on the  
window.

**What.**  
E. R. Haines, has been west this summer,  
returning from Illinois, he presents us with  
a statement of what raising that was pub-  
lished in the Illinois Farmer City Republi-  
can of July 30, 1887. Mr. Haines says,  
that A. V. who made the following state-  
ment of his wheat farming in 1886, did not  
venture to raise wheat in 1887.

Statement—80 acres of wheat raised by  
W. W. Alder:  
\$545 1750 bushels @ 97c cents \$521.09  
EXPENSES,  
Plowing 80 acres at \$1.00..... \$ 80.00  
Sowing 80 acres at 75c..... 60.00  
110 bushels Seed Wheat at \$1.10..... 110.00  
Cutting and binding a \$1.00..... 80.00  
155 pounds of Fertilizer at 14 cents..... 21.70  
Shocking..... 27.75  
Thrashing and delivering to  
town..... 127.95  
Stacking straw..... 29.25  
Boarding hands..... 15.80  
Total..... \$672.20  
Net Profit..... \$608.80  
An average Net Profit of \$8.23 per acre.  
This statement settles the question about  
the profit in wheat growing. The wheat  
was sold at low figures, and if it had been  
raised by a farmer on his own farm, half the  
expense, incurred by Mr. Alder would have  
been saved.

ment will be in the pink of condition to
