The wind was blowing at the rate of forty miles an hour last Friday noon, when the fire whistles sounded a fire alarm. The sweep of the wind itself was enough to make people feel timid, but when to it was added the fierce piercing fire whistle, it scared everyone and caused every body to hasten to the streets. The fire was in the roof of Cloyd Parker's saloon in Patterson and originated from an engine spark. The fire was soon put out by some one going under the roof and knocking the shingles off and pouring water on the fire. The firemen were on the ground in a few minutes with engine and hose carriage ready for work.

The Commissioners of Warren Co., have discovered that hundreds of couples have been married in the past few years, in an old house on the western border of the county, under the impression that they were being married in Ohio, and escaping the intricate law. They find the house is in Pennsylvania, and decided that as the marrying might be done over again, to give the matches a legal status.—Exchange.

Thieves entered the residence of Robert McMeen in this place last Thursday night. They first made an effort to enter by a window to the cellar in the back part of the house, failing in that they entered the kitchen and there found a chisel and with it came around to the front of the house and pryed up the lower sash of one of the windows in Mr. McMeen's office. They rumaged in the office, and searched the lower part of the house and garrett. In their search they found some silver ware, and took it with them, also a good overcoat of Mr. McMeen, and a cold weather cloak of Mrs. McMeen.

McGrann, Democratic candidate for State Treasurer has only 30 majority, and Thompson Democratic candidate for Supreme Judge has only 24 majority, in the county.

Meminger's majority over Deen is 183.

Shellenberger's majority over Howe is 181.

The difference between the vote of Hower and Cunninghan is only 61 votes. Rice's majority over Winegardner is 8 votes. The Board of Cummnissiners is Hower, Cunningham and Rice.

The differance between the vote of App and Graham is only 12 votes.

Niemond's majority over Cambell is 16 votes. The Board of Auditors is App, Graham and Niemond.

There were a few scattering votes for other Candidates, but the number is so small that they are not made part of the record here.

The Republicans carried almost everything in all of the states where elections were held excepting New York state and Virginia. In this state Hart's majority is over 41,000. The Republican candidate for sheriff was defeated. In such strong Democratic counties as Northumberland, Clearfield and Center, Republicans elected a number of their candidates to office.

MASON & HAMLIN PIANOS.

THE improved method of fastening the strings of pianos, invented by the Mason and Hamlin Organ and Piano Company a few years since, is unquestionably one of the most important improvements ever made, making the instrument more richly musical in its tones, as well as more durable, and less liable to get out of tune.

Countryman (in Messrs. Stonepath' warerooms): "How much is that pianer, Mister?" clerk: "Five hundred and twenty-five dollars." Countryman: "Thunderation! Is there a foldin' bed inside of it?" clerk: "No; that's a combination we don't make." Countryman (positively): "Well, I wouldn't think o' payin' any such money just for a pianer. If you had 'em with foldin' beds, we might make a dicker."—Puck.

We cannot too strongly urge upon our readers the necessity of subscribing for a family weekly newspaper of the first class—such for instance, as THE INDEPENDENT, of New York. Were we obliged to select one publication for habitual and careful reading to the exclusion of all others, we should choose unhesitatingly THE INDEPENDENT. It is a newspaper, magazine, and review, all in one. It is a religious, a literary, an educational, a story, an art, a scientific, an agricultural, a financial, and a political paper combined. It has 32 folio pages and 21 departments. No matter what a person's religion, politics or profession may be, no matter what the age, sex, employment or condition may be, THE INDEPENDENT will prove a help, an instructor, an educator. Our readers can do no less than to send a postal for a free specimen copy, or for 30 cents the paper will be sent a month, enabling one to judge of its merits more critically. Its yearly subscription is $3.00, or two years for $5.00.

Letter From Chicago.

CHICAGO, Illinois, Nov. 11th, 1887.

SENTINEL AND REPUBLICAN.—Anarchy is dead in Chicago. It died this morning at 11.30 o'clock and the citizens breath freer on night than they have done for a long time. Last night being a night of suspense and terror brought about by expecting something dreadful to follow the execution, particularly the families of men who were connected with the trial, and the families of men who belong to or are members of rich and grinding monopolies and corporations, but happily all expectations of an uprising were dispelled from the mind as the day advanced and nothing happened to mar the peace of the community. With three regiments of the vicinity of the jail, from appearances to be seen on the street, one would not have known there was anything like an uprising of a certain class of people against the state government here in existence. For a distance of a block on each side of the jail. The streets were roped off, and police armed with Springfield rifles, which gleamed wickedly in the sunlight, kept the crowd moving, that through curiosity and with no other intent reined against the ropes from every side but the gleaming of the bayonets, fixed to the guns caused many to shudder perceptably and had a great tendency to stay curiously and caused persons to move on with all the speed the crowd would permit. Armed sentinels patrolled the flat roof of the jail, and no doubt the night would have revealed to many old veterans in Juniata similar scenes and experiences they had lived guarding forts and batteries during the late unpleasantness. So far as excitement was concerned the hanging to day was a pretty tame affair, compared to the excitement in Mifflin over the sham battle tonight there some few weeks since. It is to be hoped there will be no more executions, for executions of it have been correct.

The anarchist or Socialist ticket was completely snowed under here on election day. But I am anxiously awaiting returns of the election in Juniata county, and I won't hazzard a guess as to who was elected on last Tuesday.

"Pennsylvania Chestnuts 1" is a cry that is often heard on the streets, uttered by lads who have for sale the nuts that grow so plentifully in the wooded districts of Pennsylvania.

Miss Mary Patterson of Mifflin accompanied by a cousin from Harrisburg Pa., was in the city a few hours last Thursday a week. They had been in attendance at the wedding of Miss Patterson's father, Ex Senator John J. Patterson to a Miss—— from Wisconsin. They left the same day for Bloomington, Illinois.

There is a rumour that there will be a wedding or two among the young folks of Mifflin during the Holidays. Well there is nothing like human race likes so much as a change, or something new, and there is no doubt that it will be a change and something new for Mifflin.

I dreamed last night that the Democracy of Juniata were scattered in a night so complete that they will not be able to rally with any of the old time vigor. That their days of political supremacy have ended in Juniata. That their strength which has been waning for a number of years has completely deserted them. It seems to be a characteristic of the human race, that if they can't run the machine, that they will help destroy it. It is a mighty mean spirit, but it is a good thing in representative government, for it will keep one party from entirely and for any long period of time of controlling the affairs of government. I am hoping to night that my dream has been a true one, but it cannot be called a prophetic dream, because it occurred two nights subsequent to the election, but before word of the result has been reached.

I anticipate a victory for the Republicans in Juniata.

WILDFROGER.

An old Liverpool blacksmith had a terrible experience last Thursday night. From what can be learned he was pushing a boat from Millersburg to Liverpool and evidently had more propelling power on board than the low stage of the water warranted to see him through on his voyage.—His barge got stranded on San Domingo where he passed part of the night in exile. The banishment lasted until his supply of ammunition was exhausted when his senses returned and he became conscious of his predicament. Captivated by the beacon lights in the farm houses on the Dauphin county side, he attempted to wade to the shore but was soon anchored on a gravel bar where his cries were heard next morning. The neighbors came to his relief, who found him in a perishing condition from cold and exposure. He had a narrow escape and will not likely repeat the experiment soon again.—Millersburg Herald.

From the Newport Ledger Quite a considerable thieving is carried on in Hunter's Valley, so much so that the farmers are arming themselves to give the depredators a warm reception * * *

Monday evening after dark, a young masher ventured to take a stroll with some of Newport's young ladies, addressed five on the street, in the neighborhood of the square, the "pleasure of a stroll." He struck the wrong ladies and his advances were properly repulsed. The girls he addressed have brothers who are anxious for the masher's return to Newport. He is about five feet eight inches tall, rather slim, wears black whiskers trimmed short, and has his mush head covered with either a high silk or a black felt hat, which ever seems to suit his purpose. Monday evening he changed his line three times in less than an hour.

From the Bloomfield Times. Mr. Daniel Reiter, a highly respectable citizen of Miller township, died on Wednesday last after an illness of only a few hours. * * * Last Tuesday was a religious holiday with the Indians on the Perry Co R R, and so instead of working some of them got drunk. * * * Among the vegetable curiosities left at the Times office is a radish 22 inches long, weighing six pounds. It was raised by Mrs Lizzie Fry, of Blue Ball * * * On Monday night of last week some scamp stole a fat sheep from the barn of Mr. Jos. Weldon, in Wheatfield twp., and took it behind the barn and killed it, carrying off the best of it and leaving the balance as an evidence of their deviltry. * * * Fairview school house, in Tobeyne twp., was consumed by fire last Wednesday night. It is not known how the fire originated. The school was taught by Miss Mary Gibson. * * * As we go to press we learn that a fire occurred at Esheng early on Sunday morning, destroying the store and dwelling of J. H. Harman, and the dwelling-house of Dr. J. D. Baker. Harman had insurance. Baker none.

A GREAT REDUCTION

In the Price of the Beautiful and Popular Cabinet Photograph.

I would respectfully call the attention of the citizens of Juniata to the fact that I will make First class Cabinet Photographs at the

Low Price of $3.00 per Dozen,

during the months of November and December, this being a reduction of ONE DOLLAR per dozen from my usual price.

All persons who desire to make Christmas presents to their friends of pictures must come during November, as, unless they do so, on account of the rush of business about the Holidays I will not be able to get the work out in time. All work will be guaranteed first class. Do not put it off a single week after you read this advertisement. Come at once. Hitch up your teams and bring in your entire families, babies and all.

I will still make a further reduction, where three or more in one family get pictures, of FIFTY CENTS on each dozen, making each dozen of Cabinets $2.50. Less than one dozen of each person will not be made at these prices, but at the following: four pictures, $1.50, or six for $2.00.

Remember, that these are extremely low prices and will only continue during the months of November and December. In order to make good work cheap it is necessary that there shall be a large demand, hence if the public want good work cheap, they must all come in to get it within a very short space of time, just as lots of travel on a railroad at a particular time justifies excursion rates.

Respectfully,

JOSEPH HESS.

Mifflintown, Pa., November 1st, 1887.
