...A trial of four men, two brothers named Klines and a man named Shaffer and a man named Johnson, is in progress this week in the Clinton county court, at Lock Haven for the murder of several members of the Culvy family last June. "Culvy and his wife, with two children, lived on a farm in a desolate spot, twelve miles south of Lock Haven and two miles from any other habitation. Early in June last the lifeless and horribly mutilated bodies of Mr. and Mrs. Culvy were found near their home. Both had been shot. From all appearances the man had been killed instantly, while the woman had been first wounded, ravished and then murdered. Inside the house a baby little more than ten months old was found almost dead, but by careful treatment the little thing recovered. The four men named were arrested and they have been in the County Jail since June. The evidence against them is purely circumstantial."

...From the Newport News: One night this week, not very late, William Gardner, who takes care of Capt. Bechtel's horses, went to the stable to look after his stock and just as he approached the stable a man of small stature jumped out of the poultry house door with the captain's finest Christmas turkey in his arms, hugging it close to his bosom as if it were his sweetheart. The rapidity and suddenness with which the man appeared almost frightened William out of a year's growth. The thief started to run, of course, but in leaping the gutter he fell and the turkey bounced out of his grasp and escaped. By this time William had collected his senses together again and yelled "Stop, thief or I will shoot you." The thief stopped and implored William not to give him away. William then caught the turkey and put it in the coop. Some of our local philosophers are now arguing whether, according to law, William or the thief should have captured the turkey and returned it to its roosting place.

DIED:

HOOPS—At her residence near East Salem, Mrs. Elizabeth Hoops wife of Jacob Hoops, died November 4th, 1837, aged 64 years, 2 months and 21 days.

Yes sleep dear mother take your rest,
As Christ our Saviour thought it best
To take you home with him to dwell
Though we must bid a sad farewell.

We shall miss the dear mother we know,
At home, at church, where'er we go,
A vacant chair, a vacant pew,
Reminds us mother is not there.

O! came to memory words of love,
Which mother spoke of rest above
And told how we should faithful live,
And our whole heart to Jesus give.

Prepare us Lord to meet above,
Where all is joy and perfect love,
That we may there together dwell
And never bid a sad farewell.

MASON & HAMLIN PIANOS.

THE improved method of fastening the strings of pianos, invented by the Mason and Hamlin Organ and Piano Company a few years since, is unquestionably one of the most important improvements ever made, making the instrument more richly musical in its tones, as well as more durable, and less liable to get out of tune.

A GREAT REDUCTION

In the Price of the Beautiful and Popular Cabinet Photograph.

I would respectfully call the attention of the citizens of Juniata to the fact that I will make First class Cabinet Photographs at the

Low Price of $3.00 per Dozen,

during the months of November and December, this being a reduction of ONE DOLLAR per dozen from my usual price.]

All persons who desire to make Christmas presents to their friends of pictures must come during November, as, unless they do so, on account of the rush of business about the Holidays I will not be able to get the work out in time. All work will be guaranteed first class. Do not put it off a single week after you read this advertisement. Come at once. Hitch up your teams and bring in your entire families, babies and all.

I will still make a further reduction, where three or more in one family get pictures, of FIFTY CENTS on each dozen, makeach dozen of Cabinets $2.50. Less than one dozen of each person will not be made at these prices, but at the following: four pictures, $1.50, or six for $2.00.

Remember, that these are extremely low prices and will only continue during the months of November and December. In order to make good work cheap it is necessary that there shall be a large demand, hence if the public want good work cheap, they must all come in to get it within a very short space of time, just as lots of travel on a railroad at a particular time justifies excursion rates.

Respectfully,
JOSEPH HESS.
