The legislature of New York has passed the bill providing for the infliction of capital punishment by electricity. It now depends on Governor Hill whether it shall become a law or not. It is to be hoped that he will sign the bill.—Independent.

A New York Congregation is having a big talk over the fact that the choir men have been kissing the choir women during preaching. A certain remedy against such conduct is to have the choir sit in front of the congregation. What queer people there must be in New York.

An exchange remarks: One third of the fools in this country think they can beat the lawyers in expounding the law; one half think they can beat the doctors healing the sick; two-thirds think they can beat the ministers in preaching the gospel, and they all think they can beat the editor running a newspaper.

George Heath, who was hurt by one of showman Robbins' elephants at this place some weeks ago, was put on the county as a public charge last week one day. The next day Lieutenant Burchfield, Clerk to the Commissioners had the man sent to his home at Easton, Pa. Robbins had left $25 for the support of Heath.

He sold whisky to certain parties in Shirley township by the bottle while journeying to Franklin county. He was sentenced to pay the costs, $50 fine and ten days in jail, beside receiving a wholesome lecture from the court."

Thirty-two hogs were killed in a freight wreck on the railroad about a mile above Mifflin station, on Friday morning about 1 o'clock. A coupling pin broke and separated the hind part of the train from the engine which with some cars remaining attached ran ahead. It was soon discovered the train was broke and the engine stopped, but to quickly, since the hind part of the train still running at a fast rate of speed crashed into the fore part of the train wrecking a couple of cars and killing the hogs.

"Mrs. Ingalls, the wife of the Senator from Kansas, is a woman of about forty-five, but is remarkably young looking and attractive. She was a Miss Cheesebrough and traces her lineage back to a Puritan ancestor who settled in Boston in 1630, when the colony there was established. She is a lady of medium stature, well rounded form, and her manner is replete with energy, grace and vivacity. During the past winter she was the leading spirit in the Grand Army entertainments in Washington."

We have a large list of paid up subscribers, and we have a number of advance paying subscribers, and a few who are paid to 1889. May they all be blessed in family and purse. We have a number who are in arrears and we do not propose to spank unkindly of them for as an exchange says: Editors as a rule are kind hearted and liberal, and then he tells of a subscriber who died and left fourteen years subscription unpaid. The editor appeared at the grave as the coffin lid was about to be screwed down, and but in a linen duster, a thermometer, a palm leaf fan and a receipt for making artificial ice.

From the Fulton Republican: George W. and Peter A. Mellott, champion bee hunters of Belfast township, during the month of March, succeeded in finding two elegant bee trees. They asked permission to cut them, and after consent, like men, invited a party with them to enjoy the fun. When they arrived at the first tree, to their surprise they found it cut and between six and eight feet of comb and honey extracted. The other tree was not molested and contained about nine feet of comb and honey, one yoke of drones, one bushel of bees, one pint of queens, and a bushel of antichristians. The best of the first tree made all parties very indignant.

It is no uncommon thing for a man to marry a woman of means and get away with her money, but the following is a case of a woman marrying a man of means and then getting away with his money. "Lewis Heiserick until recently owned a farm in Lycoming county, this State. He wanted a wife, and some time ago advertised in a New York newspaper, the result of which was, that he was soon in communication with a young woman residing in Gotham. Subsequently Mr. Heiserick married the fair damsel. She induced him to sell his farm and give her the money to invest in the millinery business. As soon as she got the money the bride skipped. Mr. Heiserick now has neither money, farm nor wife."

A daughter of Barney Fogel, of near Richfield, Juniata county, aged about 22 years, has been troubled by a running sore near her stomach, for a long time, and all treatment by different physicians did not seem to give relief. Her last attendant was Dr. Rothrock, who concluded that there was certainly a pus sack near by that was feeding this sore, and the only remedy was to perform an operation for its removal. He consulted Dr. Hall, of Millerstown, who visited the patient and concluded to operate. The operation was performed successfully. The pus sack was found lying inside the hip bone in what is called the pelvic region. He made an external incision and put a drainage tube in. The patient is doing well with every prospect of recovered. The doctor was assisted by Drs. I. N. Grubb, of Thompsontown, and M. Rothrock, of Fremont.—Liverpool Sun.

In one of his letters to be beautiful Theodosia, Aaron Burr implored his daughter to cultivate an inaudible laugh, and that is precisely what fashionable women are doing in Chicago. The training is individual, and may be pursued to suit the face, features and fancy of the anti-laughter, who, mirror in hand, studies her glass continually. If the chin is pretty in contour and modelling, and teeth white, the pupil must learn to laugh with her lips, but wear a rigid brow and steady eye. Are the teeth unsightly, then she will have a woful time, for the mouth must be kept closed, and how to laugh with the eyes and not wrinkle the face is a task. Handbooks and teachers of the art of expression tell the students to train the eyes to smile, and caution them against the habit of tightly closing the eyes when a pleasing sensation is felt, a habit which prematurely wrinkles the lower lids and works crow's feet about the corners of the eyes.—Chicago Inter-Ocean.

On the 15th inst., Wm. A. Ingham, President of the Rock Hill Iron and Coal Company; E. R. Wood, President of the Shade Gap Railroad Company; R. D. Wood, a director in the companies named; General Lilly, Mr. Longstreet, Dr. Royer, Mr. Calvin Pardee and Mr. Roberts, passed through this place on fast line bound for Orbisonia, Huntingdon county. They were joined at the station at this place by Mr. A. S. Okeson of Academia, who accompanied them to Orbisonia. The Company have extensive iron works at Orbisonia where they employ 200 hands. They own a large hotel at that place and thousands of acres of coal lands between that and Robertsdale. They are making a superior quality of iron out of the ore taken out of Shade Valley. Their railroad from Shade Gap this way—toward Mifflintown—is complete to Gorhorn station, a distance of five miles, and if the people will give the right of way the railroad will be run to connect with the Pennsylvania Central in Juniata county at Mifflintown.

The Perry county Freeman says: And now the talk is about picnics, which, as sanitary amusements have come to stay in this country. Care should be taken to exclude from them the rough and rowdy element which is worse than "the fly in the ointment" mentioned by Soloman who appears to have disliked this kind of a mixture. * * * Mr. John Owings of Centre township, on last Thursday afternoon, was found insensible in a field on his farm where he had been harrowing. He had been kicked by one of his horses over the left eye, and the top of his head was terribly mangled. His situation is critical, perhaps fatally dangerous. * * * Mr. John Martin, of Madison township, one of the County Commissioners, on last Friday evening, was driving home when a short distance above Loysville, his horse scared at some cattle and ran off, throwing him out of his buggy, and injuring him so badly that he lay out until Saturday morning, when having recovered his consciousness, the stage driver met him making his way towards his home, with his clothing saturated with mud, and his face covered with blood. A short distance from where Mr. Martin was met, his horse and buggy were found beside the road.

The Fifty-Sixth Annual Catalogue of Pennsylvania College, Gettysburg, Pa., for the acad mic year of 1887-88, has just been issued. The number of Professors, Lecturers and Instructors for the year are 13. The number of students pursuing a post-graduate course 12; in the college classes 119, in the preparatory school 62, making a total of 193.

The college offers two courses of study, of four years each; the Classical Course leading to the degree of Bachelor of Arts, and the Scientific Course leading to the degree of Bachelor of Science. Special courses are open to students, particularly in Chemistry.

The necessary annual expenses, exclusive of board, amount to $22.00. Board can be obtained at prices varying from $1.65 to $2.00 per week.

The catalogue contains a brief historical sketch of the College, statements of the system of instruction in the different departments, donations to the Cabinets and other information. It also contains an engraving of a handsome and commodious new building now in process of erection. This building will be used for recitation, literary and museum rooms and for the literary society halls.

More Pensions and Bounty.

A gentleman representing the Washington office of Milo B. Stevens & Co., can be seen at Central Hotel, Newport, Tuesday, June 5; Jacobs House, Mifflintown, Wednesday, June 6th; and at the National Hotel, Lewistown, Thursday, June 7, by persons desiring information concerning pensions, bounties, etc., or having claims which they may desire to have prosecuted by said attorneys.

Obituary.

Charles L. McDonald formerly of Beale Twp., Juniata Co., Pa., was injured on the railroad, at Nerenta, Mich., on April 12, '88., and died at Escanata, Mich., on April 18, 1888, aged 26 years, 4 months and 21 days.

Time hurries on so fast indeed
It seems so quick of flight,
Our loved ones ere they pass their youth
Are gone beyond our sight.

Another year has passed and gone
And with its exit given,
One less to love upon the earth,
One more to love in Heaven.

We mourn the loss of a brother dear,
Who is seen in life no more.
His spirit took on wings of light,
And flew to that far off shore.

Two years ago we parted here,
My brother Charles and I.
We have not seen him since that time,
His spirit's up on high.

He has met the great conductor
On the Heavenly road of life,
And has passed into the mansions,
Free from every care and strife.

Another seat is vacant now,
The home is wrapt in gloom,
The angles from the pearly gates,
Have whispered, Charles come home.

Slowly and sadly he relinquished
Every hope and cherished plan,
And the angels bore his spirit
To that bright and better land.

In the bright and Heavenly mansions.
He rests from labor free,
A crown of life upon his brow,
Happy in Eternity.

We know that in the harbor now,
Its shores so bright and fair
He has cast his anchor mother
To await your coming there.

The weaving of life is finished,
The pattern now appears
In beautiful and bright colors
As seen through grief and tears.

Mother and sisters, bound with sorrow,
For the loss of one we love,
May you seek divinest comfort
From Him who rules above.

Charlie has left a legacy
More valuable than gold
In his purse and noble character
And kindness all untold.

MASON & HAMLIN PIANOS.

THE improved method of fastening the strings of pianos, invented by the Mason and Hamlin Organ and Piano Company a few years since, is unquestionably one of the most important improvements ever made, making the instrument more richly musical in its tones, as well as more durable, and less liable to get out of tune.

The Population of Mifflintown and Patterson is about 1680, and we would say at least one half are troubled with some affection of the Throat and Lungs, as those complaints are, as cording to statistics, more numerous than others. We would advise all not to neglect the opportunity to call on their druggist and get a bottle of Kemp's Balsam for the Throat and Lungs. Price 50c and $1.00. *Trial size free.* Sold by all druggists.

A Great Help to Women.

"Man's work is from sun to sun,
Woman's work is never done."

How true and yet inventive genius and science has read a wonderful progress in relieving woman of much of her former drudgery and slavery. The Model Steam Cooker, an illustration of which we give to our readers, is a happy combination of scientific principles and while improving the food we eat and saving its cost in fuel in short time, its use does away with the red hot stove, and cooking with it is a positive pleasure. Steam cooked food is healthier and more palatable than when prepared in the ordinary way. It never burns or dries, and with the Model Cooker there is not steam or odor in the house when cooking food. It is self regulating—blows a whistle when the water gets low, and needs no care to keep the meal from spoiling. The Franklin Institute of Philadelphia has made a practical test with Boston Brown bread and vegetables, and report that they can be cooked more successfully by steam than in any other way. A further test was made with onions and showed no trace of odor in the room. This is the highest scientific authority in this country. The Model Cooker Co., 34 Park Row, New York, want agents to help them place these wonderful Steam Cookers in every family. Those who apply early will get the best territory. Any lady or gentleman wishing to engage in permanent remunerative employment, cannot do better than by writing to the Model Cooker Co.

A GOLDEN HARVEST FOR THE THRIFTY,

We have given the people of Juniata Co., a great many benefits in the way of extraordinary low prices in the past few years but it has never been our pleasure to offer such unusual values for the amount invested. Our enormous trade is keeping up, which is an extraordinary demonstration of the peoples' confidence in our goods, in our famous low prices, and our method of conducting our large business.

Our opening of *Spring and Summer Clothing* will take place, on

SATURDAY, MARCH 31.

The most glowing description can hardly do justice to this grand assortment of spring garments. It is a stock of merchandise we have just reason to be proud of; it is bound to challenge the admiration of every man who sees it. Every counter and table in the large

with stylish spring suits for men, youths, boys and children, which will delight every saving and economical person. Just to give you an idea: We show pile after pile of serviceable, well made cassimere and worsted suits, at $5, $6, $7, $8, $9, and $10; we show counter after counter of Men's neat and nobby dress Suits made of Scotch cheviots and English cork-screws at $10, $12, $14, $15, and $18.

BOYS' & CHILDREN'S CLOTHING

have arrived and are now on our counters. They are the tastiest and prettiest designs we have ever seen. We cordially invite the ladies of Juniata county to come and see them. Our ready made garments will stand against clothing made anywhere. Our Boy's Department is particularly popular because the strongest and most endurable fabrics and the best sewing are made features in putting up this class of goods.

OUR HAT DEPARTMENT,

We are not only showing these new spring styles ahead of any other house, but are also offering them 25 per cent. below the prices asked elsewhere. Don't fail to visit us for Furnishing Goods. Orders by mail promptly attended to.
