FOR SENATE, JOHN W. WILSON, OF PHILADELPHIA.

There was a day when Berks Co. and Juniata Co. gave nearly the same percentage of Democratic majority, but Berks being a large county and Juniata a small one made the relative difference in the appearance of the two sections. At the approaching election neither of these counties will report the old time Democratic majority. Berks is well high revolutionized, and Juniata Democracy have struck camp with the purpose of swelling the Republican victory. The cause of the change is two fold. Local dissatisfaction and dissatisfaction with Cleveland's attitude toward the industries of the country. Cleveland sent his agents into the Berks district to break down a Democratic Congressman, who would not support the Mills Free Trade Bill, and so heavily was the yoke placed on the necks of the Democracy in Juniata that each wing grounded when they were told that they each and both would be compelled to have on their ticket for admission to the State Convention—For The Mills Bill.

Such is the situation of National politics. In county politics the same feeling prevails largely among the Democracy. A large percentage of them will not vote for Mr. Berry, preferring to vote for Mr. Wiley. Here and there it is claimed that a Republican will vote for Mr. Berry. A large percentage of the Democracy will not vote for Mr. Noble; they will vote for Mr. McCanley. The stampede from Noble by his party friends is attempted to be met, by declaring that there is a large contingent of Republicans who will vote for him that will vote more than cover the loss in his own ranks. As the campaign progresses the prospect for Mr. Hertzler grows brighter. The people of Juniata will not send Mr. Shiesley to the Legislature to make laws for them. Mr. Woods will get a large vote. His competitor for Senate is not by any means as formidable an antagonist as his friends would have him appear. There are scores of his own party who will not vote for him. They did not vote for him when he ran against Atkinson and their political admiration for him has not been intensified since that time.

FREE WHISKY.—"Some of the Democratic papers are denying the statement that the Mills bill proposes to remove all Federal burdens from the retail liquor business and make saloon keeping free throughout the land, so far as the General Government is concerned. If they will turn to the bill in question and look at the fortieth section thereof they will find it to read as follows: "That all classes of section 3244 of the Revised Statutes, and all laws amendatory thereof, and all other laws which impose any special taxes upon manufacturers of spirits, retail dealers in liquors and retail dealers in malt liquors are hereby repealed."

It is Democracy. "Intimidating voters, committing frauds at the ballot-box, making false counts and returns and resorting to every kind of iniquity known to political juggling, to put their candidates into office has become as much a part of the methods of Democracy as holding conventions. Many of their brightest lights and most effective workers are to-day in penitentiaries for their assaults upon the franchise.

What silly bosh is all the talk of Democracy about a free ballot, a fair count. It is not a fact that the shot gun is always given Democracy's candidate 185 electoral votes in Presidential elections? It is not true that majorities there are manufactured regardless of the vote cast? and is it not true that political and social ostracism will follow a person advocating Republican party principles in the South?

Voters of the North, how long must this condition of things last? Look at the questions that confront you and by your intelligent vote put your seal of condemnation on Democratic methods. A vote for Harrison means a vote for pure, upright government; a vote for Cleveland means your approval of Democratic ways. Republicanism means protection to yourself and to your family. Democracy means America for England and English ideas and all the misery and distress you want as a consequence.

Why the Republican Party Should Rule.

"Because it has made under its policy of Protection, United States bonds worth to-day 125 cents on the dollar, while in 1850 they were selling on the market at 85 cents. It enables American workmen to earn good wages, to live well, own their own homes, by a little assiduity for a rainy day in Savings Banks, and to enjoy comforts that are absolutely denied England and European laborers. It has given to old and disabled soldiers on their weary and cheerless walks down the shady sides of life, occupations and good wages, and more than this, it has made it

possible for the 4,000,000, liberated slaves to earn for themselves a decent living. It has made the United States what it is to-day. It has stimulated and fostered and developed manufacturing and living wages to millions of artisans. It has moved in our soil billions of dollars worth of wealth and has created more markets for farm products.

It has enabled the United States to earn more than 55 per cent of the increase of wealth of the earth during the past twenty six years. Its policy has been and is to "build up," not "tear down." What good reason can there be for changing such a policy, for one which in the recent past was tried and brought ruin, bankruptcy, paucity and crime to our land? Compare the records, wage-worker, you have the deciding vote.

The Democratic Program. "The 'Revenue reform' measure, known as the Mills bill, is not claimed by many Democrats, is not a Free Trade measure."

"It is not only a Free Trade measure in every sense but it is sectional legislation. It is Free Trade because it declares for free lumber, of which we produce to the value of \$300,000,000 annually, free wool of which we produce 300,000,000 pounds annually. It declares for Free Trade in flax, hemp, jute and other fibres. Free Trade in cement, potash, lime and brick; Free Trade in meats, game and poultry; Free Trade in vegetables, peas and beans. Free Trade in salt of which we produce 10,000,000 bushels annually. Free Trade in marble and stone. Free Trade in tin plates and free Trade in one hundred other ways.

It is sectional legislation because it proposes to protect such articles as are produced in the South and places on the free list every article produced in the North as can be seen from the following partial list. Southern sugar, 35 per cent duty. Southern rice, 100 1/2 per cent duty. Northern lumber, no duty. Northern wool, no duty. Northern beans, and peas, no duty. Northern wheat, no duty. Northern flax, (not dressed) no duty. Northern lime, no duty.

Can Conscientious and Loyal Men Support Dr. Brooks? "The third party Prohibition candidates for Vice President is everywhere flaunting his unrepentant rebel views in the faces of the people and to such an extent that the loyal temperance people who admire Gen'l Fiske cannot conscientiously vote for his campaign on the ticket and to vote for one is to vote for the other.

Dr. Brooks, the third party Prohibition candidate for Vice President, in speaking at a large temperance convention at Minneapolis, in January said: "In that contest my distinguished friend (Fiske) and brother who leads me in this contest was on the side of emancipation. He was an abolitionist; and I used to hate an abolitionist worse than I did the devil. If there was anything outside the nether regions that I hated more than an abolitionist, it was an abolitionist; and I used to hate an abolitionist worse than I did the devil. If there was anything outside the nether regions that I hated more than an abolitionist, it was an abolitionist; and I used to hate an abolitionist worse than I did the devil.

The same Dr. Brooks, since his nomination said in a public address: "I thank God that I will never have to answer for the sin of voting the Republican ticket."

Harrison on Home. Rev. M. L. Haines, pastor of the First Presbyterian Church of Indianapolis, whose General and Mrs. Benjamin Harrison have been members ever since they went to Indianapolis, just after they were married, says that even during political campaigns General Harrison almost invariably managed to so arrange his engagements as to be in his pew on Sundays. Often he spoke from six to ten times a week, and on Sunday afternoon met his Bible class, composed of half a hundred young men, looking as bright and as fresh as if just back from a vacation in the mountains.

Confronted by Fifteen Wives.

DETROIT, September 26.—About fifteen of the thirty-three women who were married to James W. Brown, the champion Benedict since 1883, confronted him in the Recorder's Court yesterday. Brown's method was to advertise for a housekeeper, select as a victim the one from among the applicants who pleased him most and marry her soon as possible. He would desert her after a few days. Five clergymen of this city certified to marrying Brown to as many different women, and the case against him was clear. When the prosecutor left it to the jury without argument the jury took but four minutes to find him guilty. Sentence was deferred for the Court to investigate Brown's career further.

MINNEAPOLIS, Minn., Sept. 25.—A Pembina, Dakota, special says: The news was received here yesterday of a horrible accident about eight miles from here. While on a bridge, two men were trying to break a colt to saddle, the colt reared up striking one man with his fore feet, killing him instantly, and throwing the other and dragging him over the side. When the man was dead, his head kicked to a pulp.

PITTSBURGH, Pa., Sept. 25.—About 9:30 last evening a north-bound engine on the south-west branch of the Pennsylvania Railroad, running at the rate of about thirty miles per hour, struck a cow between Fairview and Uniontown, throwing the engine off the track and completely covering it. Instantly killing one man named Leonard Miller, lying at Fairview. It is supposed he was stealing his way to Uniontown. Engineer Thompson, of Uniontown; Dr. James R. of Uniontown, and Constable Dwyer, of Pittsburgh, were also severely injured, but will recover. The wreck caused several hours delay to trains.

OTTAWA, Ont., Sept. 26.—A shocking affair occurred at the Exhibition on the afternoon of the 25th. A young butcher named Tom Winsley was dashed to pieces by falling from a balloon at the height of over 1000 feet. A balloon ascension and a parachute drop was advertised as the closing crop of the day. Among the volunteers to hold down the balloon was Winsley, who with others grasped a stout rope running round the base of the balloon. When the order to let go was given all released their hold with the exception of Winsley, who, retaining his hold, was swiftly borne upwards. The ascent was unable to help him. Winsley was killed by the rope, but still clung to the rope. The balloon had now gone 1000 feet upwards, and the spectators stood paralyzed with fear.

It let go one hand, but clung to the rope with the other. It was only for a moment, however, that he supported himself with his one hand. That was released and he fell like a rocket, excepting a series of somersaults in the air as he fell. He struck in a field one hundred feet from the grounds, and with the exception of his face was terribly injured. He lay for a few minutes later collapsed, and the aeronaut descended in safety with his parachute.

DETROIT, Mich., Sept. 25.—About fifteen of the thirty-three women who were married to James W. Brown, the champion Benedict since 1883, confronted him in the Recorder's Court yesterday afternoon. It was established that Brown's method was to advertise for a house keeper, select as a victim the one from among the applicants who pleased him most and marry her as soon as possible. He would desert her after a few days. Five clergymen of this city certified to marrying Brown to as many different women, and the case against him was clear. When the prosecutor left it to the jury without argument, Brown testified in his own behalf and made a sorry mess of it. He contradicted himself at every turn. He professed not to remember any of his dupes, asserting that he was only once married, and that his wife was dead, and that he had once been convicted on a charge of New Orleans. Brown was pallid and looked like a sick man. During the trial Nancy Robertson's indignation could not be repressed, and she denounced Brown as a perfidious wretch. The jury agreed with her, evidently, for they took but four minutes to find him guilty. Sentence was deferred for the court to investigate Brown's career still further.

A Diligent Young Girl. Rosa Wise, a young girl of Meriden, Conn., had five cents given her as a job for a birthday present. She bought a yard of calico with it and made a sun bonnet, which she sold for forty cents. This she invested in a book, made it up, sold the garments and returned the cash to her mother. She had \$10. With this she bought potatoes, planted them, paid for the cultivation of her crop, for gathering and carting to town, and made \$50 clean profit.—Altoona Tribune.

The Great Virginia Industrial Exposition—Reduced Rates via Pennsylvania Railroad. The Virginia Agricultural, Mechanical, and Tobacco Exposition will be held at Richmond, beginning October 24 and closing November 21st, 1888. This exposition will be the best exhibit of the industrial and agricultural resources of the upper South ever held. Beside an extensive display of agricultural products and fine stock, a special section will be devoted to tobacco illustrating all its phases from the plant to the pipe. The special features embrace a large number of interesting exhibits and numerous other forms of interesting entertainment. The capital of the Old Dominion is an exceptionally interesting place, and with the extraordinary attractions of the exposition, it is a most delightful climate of this season, the pleasure of a visit is greatly enhanced.

For the benefit of the hosts of people who will desire to visit the city under these favorable circumstances, the Pennsylvania Railroad Company will sell excursion tickets to Richmond every Monday and Thursday during the continuance of the exposition, good to return until October 26th inclusive, from all principal stations on its system at a single fare for the round trip.

Notice to Trespassers. Having leased 400 acres of wood land near John Wilson, and 400 acres of wood land of David McClure, adjoining lands of the Pennsylvania Railroad Company in the vicinity of Booker's Gap, I hereby caution all persons against trespassing on the above mentioned lands for the purpose of cutting timber and so forth. JOHN HARRISON, Millintown, Pa., Sept. 26, 1888.

MASON & HAMLIN PIANOS.

The improved method of fastening the strings of pianos, invented by the Mason and Hamlin Organ and Piano Company a few years since, is unquestionably one of the most important improvements ever made, making the instrument more richly toned, and less liable to get out of tune.

The Population of Millintown and Patterson is about 1000, and we would say at least one half are troubled with some ailment of the Throat and Lungs, as those complaints are, according to statistics, more numerous than others. We would advise all our druggist and get a bottle of Kemp's Balsam for the Throat and Lungs. Price 50c and \$1.00. Trial size free. Sold by all druggists.

BEST MADE CLOTHING FOR BOYS

A. C. YATES & CO. LEDGER BUILDING SIXTH AND CHESTNUT.

Mason & Hamlin MEAT CUTTER. The Improved Model of Serrated Planes, invented by Mason & Hamlin in 1862, is a great advance in the construction of meat cutters, providing a great improvement in planing in half quantity. This tool is constantly used everywhere.

WM. RADAM'S MICROBE KILLER. The Great GERM DESTROYER. To Cure Disease, Remove the Cause.

SALESMEN WANTED TO SELL NURSERY STOCK. Profitable employment for honest, energetic men, either on salary or commission. Exclusive territories furnished each salesman. The business easily learned. Full and complete information sent free.

AGENTS WANTED. To canvass for one of the largest, oldest established, BEST KNOWN NURSERIES in the country. Most liberal terms. Unexcelled facilities. GENEVA NURSERY, established 1846.

Caution Notice. All persons are hereby cautioned, not to trespass on the lands of the undersigned in Spruce Hill and Beale townships, for the purpose of gathering berries, hunting, fishing, or in any other way trespassing, on said lands, as the trespass law will be enforced against people who violate said law.
