"I couldn't do that. It's very beaudirection. ful, Play it again, Her long, shapely fingers swept over the keys in a delicious prelude, which led up to the composition proper. It was hard for the young girl, in telling about it afterwards, to describe what she heard. The way she interpreted it was this: Bars upon bars of beautiful descriptive passages seemed to speak of beautiful spring weather, nature in her finest dress, the trees full of foliage, owers blooming, soft winds blowing, ippling streams, and all that sort of She fancied she could hear the ong of birds in the boughs, and answers coming back. This was youth n full glow, and the tender, joyous, and sometimes exuberant, dialogue in placing a continuous series that followed was surely two happy shallow iron troughs, about 5 feet square, along the line of tracks. These people talking and telling of things that lle mighty deep in these human natures of ours, and which cannot be found out ties and rails are laid. by superficial examination. It was something of love. The melody went n, rippingly beautiful, now deeper, w lighter in its go, changing occasonally in time and key, with a notice-ble introduction here and there of a arsh bar or two, the memory of which. marches, bits of melody resembling the famous Mendelssokn and "Lohengrin" wedding marches, familiar to every-body, but not exactly like them. Here was a wedding day. The characteristic quality of the piece had been developing slowly. Now comes, in slow time, one of the softest, most moving halbays the girl had ever heard. The pathos of the player, she said, was wonderful from the first moment she tough.

"No, sir, I have tried you often enough of the you often may determined in my when you are "put and call" than this: when you are "put to bed with a severe cold and your triends "call a physician. Avoid all this by keeping in the bouse Dr. Plerce's Golden Medical Discovery.
