As the museum is less than twenty dedicated his song "Adelaida," which, years old its progress is amazing; and it as an expression of lofty passion, is has received a commendable support from the city and the community. unruffled ease to being linked even New York City, besides building an with a great genus-if, indeed, the afutes \$15,000 annually to its support, and as much more is paid in by members, for the institution is fortunate in never having fallen into the hands of stockholders, so that public liberality takes the form of contributing to its support instead of to its endowment, and adds to its resources instead of expecting a return or cramping its management. As it stands to-day a visit e the Metropolitan collection gives a visitor the fair equivalent of a day in the European galleries.

GLADSTONE was invited by a Wesc ern editor to contribute an article on honored by your letter. But I can not very little investigation will show that act upon it. Washington is a noble the ancient philosophers were puzzled not in my power now to renew the power of mind over mind by various study, & I should not like to profane theories, some of which are still widely the theme by thin & slovenly work."

-The returns published by the Swiss forces that are the causes thereof, Confederation with reference to the probably bagan with primitive man and development of telephonic communica-tion in Switzerland show that, since the establishment of the first telephone in 1880, sixty-one towns have been previded with them and there are now 694 telephonic stations, of which no fewer than 1500 are in Geneva and its It was undertaken by the Royal suburbs. Most of the Swiss towns are Academy of Medicine at Paris, and by now connected with one another, Geneva communicating not only with Lausanne and other places on the shores of the lake, but with Berne, Zurich opinion seems to have been extensively

Interesting Passages From the Lares of Some Writers and Composers.

One Sunday young Walter Scott offered his umbrella to a young lady of much beauty who was coming out of church during a shower. The umbrella was graciously accepted and Scott fell in love with the borrower, who turned out to be Margaret, daugh-ter of Sir John Belches. His atten tions to the lady continued for about six years, when she married a banker, who proved to be one of Scott's most generous friends when his time troubles came. The story of this, his first and only deep passion, is recorded in the diary that Scott kept in 1827, from which it would seem that there may have been some misunderstanding between the young people.

to engage himself, within a year, to Mademoiselle Charpentier, or Miss Carpenter, as she was usually called, the daughter of a French Royalist who had died early in the revolution. She made, on the whole, a very good wife, only one to be protected by Scott from every care, and not one to share his deeper anxieties. or to participate in his dreams. sithout them. The shoes are made of Yet Mrs. Scott was not devoid of when Jeffrey, having reviewed "Mar-mion" in the Edinburgh Review, in that deprecating and omniscient tone which was then considered the evi-
