The interesting Views of the Late Dr. J. G. Holland.

The columns of the newspapers appear to be flooded with proprietary medicine advertisements. As we cast our eye over them, it brings to mind an article that was published by the late Dr. Holland in Scribner's Monthly. He says: "Nevertheless, it is a fact that many of the best proprietary medicines of the day were more succeasful than many physicians, and most of them, it should be remembered were at first discovered or used in actual medical practice. When, however, any shrewd person, knowing their virtue, and forseeing their popularity, secures and advertises them, then, in the opinion of the bigoted, all virtue went out of them.'

is not this absurd? This great man appreciated the real merits of popular remedies, and the absurdity of those that derided them feeting his investigations,

If up plear is found upon one's arm. and is cured by some dear old grandnant, and amputation is made necessary at last, to save life, yet all done according to the "isms" of the mediany kind, eggs prepared this way are fowls if confined until the smoke cal code, this is much more gratifying to the medical profession, and adds more dignity to that distinguished order than to be cured by the dear old

grandmother's remedy. This appears like a severe arraignment, yet we believe that it expresses The physician of the highest standing is ready to concede its merits and sustain the theories the proprietors have nundo-that is, that it benfits in most of because it assists in putting the kidhave him cured by this great remedy. Yet we notice that the popularity of

by year. The discoverer comes boldly before the people with its ments, and proclaims them from door to door in our opinion much more honorably than the physician who, perchance, may and is permitted to set a bone of an of ham in a mortar, just as fine as you stitution, and the extra expense of arm or a finger, which he does with can. Season it with pepper and spice, making it right pays big profits yearly to have it announced in the morning into the oven for half an hour. MIRACULOUS RESTORATION.

Dr. Pierce's Favorite Prescription is the world-famed, invigorating tonic and

nervine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable and perfectly harmless in any condition of the system. It is the only medicine for the dis-

tressing weaknesses and derangements peculiar to women, sold by druggists, under a positive guarantee, from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on

Copyright, 1888, by World's Dispension Medical Association, Proprietora.

Laxative or Cathartic, according to size of dose.

Dr. Pierce's Pellets, or Anti-bilious Granules, are

How fresh her check with healthful glow, I've often seen-a remedy-

the bottle-wrappers, and faithfully carried out for many years.

At last, while in a hopeless frame

And every baleful symptom fled,

And so, according to directs

One day she said, "There is a name

Perhaps 'twill help: I can but fry."

And she was raised as from the dead.

She took Dr. Picroe's Pavorite Prescription.

HUMOROUS. HE KNEW .- At a side track and representative for four successive times | water tank between two towns, the from his Congressional district. His bour being about 9 o'clock at night, a remark was addressed to a kind faced man bourded the train and took a seat lady who held in her arms a little fel directly ahead of me. When the train
