> An innovation, which hard-working business men will appreciate and the residents of suburban towns and neighboring cities will find most convenient, is a late evening train from Philadelphia. It is proposed that this train shall leave Philadelphia about 6.30 P. M., after all the afternoon connections are in and all busi ness is over, and arrive in Atlantic City for late supper. It will un doubtedly prove a popular movement, and will oftentimes save much hurry and annoyance. Another new feature will be a late train up, leaving At-lantic City at 10.30 P. M. for Philadelphia, enabling visitors to spend the evening with friends and return the same night. Other fast trains will run at convenient hours of the day in both directions, so that every one may find a leaving and arriving

hour to his taste. Two new trains of considerable importance have been added to the schedule within the past week-one an early morning train, designed to deliver the newspapers in Atlantic City before breakfast, and the other an early train up for the accommo dation of those who would be in Philadelphia before nine o'clock.

The equipment of the summer trains will be greatly improved by the use of new coaches and by the substitution of new Altoona-built Parlor Cars, such as are run between New York and Washington, for the old Woodruff Parlor Cars that the march of progress has left behind.

With these superior facilities, and the advantages offered by a centrally located station easily accessible from omes yesterday to call for a free trial pack- all portions of the city, and in direct
