

It isn't the fish question that disturbs the English now. It is the seal question.

A GRAND monument in honor of the pilgrims—the Mayflower people—was dedicated at Plymouth, Mass., on the 1st of August.

MINNESOTA law defines drunkenness, a crime, punishable by fine or imprisonment until the third offense, and thereafter by imprisonment only.

The North Carolina Messiah is in an insane asylum. His successor is a colored preacher named James, who predicts the end of the world on the 16th of August.

JOHN L. SULLIVAN was arrested several days ago, and taken South to face Mississippi justice for prize fighting in violation of Governor Lowry's proclamation.

KIOWA—SIOUX, the largest of the Japanese group of islands was destroyed by an earthquake recently. It had a population of forty-five thousand people. The particulars are anxiously awaited by the next steamer from Japan.

Flood disasters are reported from all parts of the compass almost every day, but none equal the flood of the last day on May and the 1st day of June, in the valley of the Conemaugh, the valley of the Juniata, and the valley of the Susquehanna.

The continued wet weather is said to have almost entirely destroyed the Delaware peach crop, and this report must be taken with some allowance for the peach is in the habit of coming to the front after the most doubtful predictions have been passed upon it.

A few months ago it was English ships of war capturing American fishermen for catching fish in Canadian waters. The complaint is now returning by American ships of war capturing English seal fishers for catching seals in American waters in Behring Sea.

MONKEY Scientific weather wise men are a good deal like the old time shoemakers, who when they had a too large misfit shoe for a customer recommended an application of water to shrink the shoe, and if the shoe was a too tight misfit one, water was recommended to stretch the shoe. So with the weather wise scientific men, who tell us in the time of drought that the cutting away of wood has caused the drought.

When we have excessive rain, or the so called cloud burst, they say it is because the wood has been too much cut away. The present scientific weather wise men must have descended from the leather shoemakers of the past.

The famous French doctor, Brown Sequard is preparing a liquid which when injected into an old human body restores it to its youthful vigor. Once the doctor has his liquid properly prepared for use, old age among the human family will be a thing of the past. It will be a perpetual youth for everybody. Hasten the day when the doctor's liquor for eternal life may be ready for use. It is hoped that he may not share the fate of the Chinese Emperor, who several thousand years ago was engaged in distilling a liquor that was to give everlasting life to all who might imbibe of it. But, alas, just about the time the distillation was about to be put through the finishing process the Emperor died.

A British Sealer Seized.

CAPTURED BY THE UNITED STATES CREW. The steamer Down arrived from Behring Sea last night and brings the first detailed news of the capture of the British sealer Black Diamond by the United States revenue cutter Richard Rusk. July 11 the Rusk overtook the Black Diamond and ordered her to heave to. The Captain of the Black Diamond refused to do this. Thereupon the commander of the Rusk ordered the lowering of ports and running out of guns, which caused the sealer to heave to.

Captain Shepard and Lieutenant Tuttle boarded the English craft and asked for her papers. The officers of the Black Diamond offered no armed resistance, but refused to deliver the ship's papers. Captain Shepard at once broke open the cabin and forced the hinges of the strong box and the captain's chest, thereby securing the papers. A search of the vessel disclosed 103 seal skins which had been taken in Behring's Sea. Captain Shepard placed a non-commissioned officer from the Rusk in charge of the Black Diamond and ordered the vessel to be taken to Sitka to await further instructions.

Another Weather Prophet.

George Post of St. Louis weather prophet says: A great event in the meteorology will take place between September 12 and 15, 1889, and is destined to be the greatest storm period that has occurred in the past 100 years, or during the present century. This storm will be universal, covering every meteorological district of the globe.

The main part of the storm will in all probability take its course along the Gulf and Atlantic coasts, producing terrible hurricanes, tidal waves and possible earthquakes. The interior portion of the United States will be severely affected by eddies or "spurs" from the main storm, which will spread over the country in high gales and terrific storms during the passage of the main storm.

There was a time when we felt timid in publishing our great storm predictions, but since we have offered reward after reward to any or all who would find a single failure in our predicted tornado periods and none have come forward to claim the reward, we feel confident that our forecasts are favorably received everywhere. And though it is with sorrowful feelings that we announce the above approaching disaster, accompanied as it will be with fearful loss of life and property, yet we feel it our duty to warn the people of danger in time to prepare for it, and hope the warning will be of inestimable value to them.

The Signal Service with all its facilities are not competent or able to give timely warning, so we thought it best to make the news public—the sooner the better.

Lashed For Wife Beating.

BALTIMORE, July 20.—A special despatch from Hagerstown, Md., says: "The first whipping administered in this county since the passage of the Act of 1882 for wife beating, occurred here this afternoon. The prisoner was a white man named David C. Herbert, a resident of the Clearfork district, this county. Herbert is a tall, well-proportioned man, while his wife, who made the complaint, is a fragile, delicate-looking woman. At the trial this morning before Justice Bitner, it was proven that Herbert, while intoxicated last Friday, beat and choked his wife into unconsciousness. While she was in that condition he grabbed a chair, swearing that he intended to kill her. He was prevented from carrying his threat into execution by his son wrestling the chair from him. Herbert had been guilty of the same offense several times before, and the Justice determined to impose a salutary restraint upon his future conduct by sentencing him to receive fifteen lashes and an imprisonment of five days in jail. The sheriff was notified and at once made preparations to carry the sentence into execution. A thick piece of leather, two feet in length, tapering to the end, and joined to a wooden handle, was selected for the lash. The prisoner, after being stripped to the waist, was made to stand handcuffed to the bars of a door in the jail. One of the sergeants of the station, while the Sheriff laid them on with force and in quick succession. During the whipping the prisoner writhed repeatedly and several moans escaped him. After the last stroke had fallen it was found that a portion of the prisoner's back was covered with welts and his right side, which the end of the strap had lashed, was badly discolored, and in several places ridges of clotted blood had been raised."

Wife (1.30 P. M.)—What's that horrid odor! Smells like alcohol.

Husband—Yes, my dear; we use alcohol at the lodge for initiations. Take some alcohol, light it, put salt in the flame, and it gives a ghastly yellow light; makes folks look like ghosts, that you know.

"Yes, my dear; in the thirty-seventh degree I personate the chief demon, with flames coming from his mouth. I take a mouthful of alcohol and a swallow of salt, and then set fire to it. But, my dear, you mustn't tell these things. Secret-society secrets very sacred you know."

The young girl who is permitted to roam the streets at night, her parents neither knowing nor caring where she is, is much to be pitied.

She is apt to make shipwreck of virtue and the responsibility will be on the parents. No man or woman can escape by weakly whimpering that they can't do anything with their children. A parent who deliberately acknowledges that he has no influence over a young child advertises himself a failure and invites the contempt of the community.—Altoona Tribune.

"One of the oddest typographical errors ever made in Boston was in a book published by the firm of Crocker & Brewster, which has just been brought to public attention by the death of Mr. Brewster. It was one of the sermons of Dr. Nathaniel Emmons, the great orthodox divine. The Dr. quoted the scripture text "Cut him down. Why cumbereth he the ground?" The intelligent compositor put in type, "Cut him down like a cucumber to the ground."

At Erie a couple of nights since a husband and wife were quietly seated in their unlighted parlor talking over family matters, when a slight noise was heard outside the open window. The husband glided out to the woodshed, got a wholehog whip, stole round to the front of the house and brought the whip down in such a lively rain on the eaves-dropper's shoulders that he cried for mercy. But he got none till his back was raw and the wife had interceded.

"An Ashland man removed a tattooed design from the back of his hand in an original way. He got a number of long needles, which he drove along just under the surface of the skin pretty close to the skin. Then he held a candle to the ends of the needles till they got hot enough to cook the tattooing thoroughly. Next day he wiped the device off with his hand and found no scar."

A huiusmodi in Villafranca, Piedmont, was of such enormous stones that more than one hundred persons were badly hurt and a boy and girl had their skulls fractured. The weight of some huiusmodi was estimated at two pounds.

The excursion to be run to Niagara Falls under the auspices of the Pennsylvania Railroad Company on Thursday, August 15th, will afford the residents of this section a grand opportunity to visit America's greatest wonder at a nominal cost and under the most favorable circumstances. This excursion will be conducted on the same high grade that all the other personally-conducted tours of the Pennsylvania Railroad. It will be run under the direction of the Tourist Agent, and the party will go by special train of day coaches and Pullman parlor cars through to Niagara. The date is without doubt well chosen, as the ten days contemplated in the limit of tickets will cover a period of the year that people like to indulge in a little rest and recreation. Stop-off at Watkins, with an opportunity to visit the famous Glen, will be allowed either going or returning.

Excursion tickets good for ten days will be sold from Washington and Baltimore at \$10.00, and from principal stations in the following territory at extremely low rates: Stations on the main line between Conestoga and Tyrone, both inclusive; Frederick Division between Hanover and

Wrightsville, both inclusive; stations on Cumberland Valley Railroad; stations on Sunbury and Lewistown Branch and Lewisburg and Tyrone Branch; stations on the Northern Central Railway between Harrisburg and Williamsport, including Shamokin Division; stations on Philadelphia and Erie Railroad between Driftwood and Williamsport, including Tyrone and Clearfield Branch. The special train will leave Washington 7.10 A. M., Baltimore 8.15, Harrisburg 11.15 A. M., stopping at principal stations and at junction points, where connection from stations off the main line may be made by regular trains.
