These organs are thus unable to perform their functions of elimi-nating the impurities and lactic acid, which are taken up by the blood and deposited in the joints and tissues, resulting in the pains and aches we call rheumatism. Hood's Sarsaparilla has had great success in curing this disease, both chronic and inflammatory. Acting promptly on the blood, it neutralizes the lactic acid, expels all impurities, and restores the acid, expels all impurities, and restores the ver and kidneys to natural action.

HOUSEHOL

SANUARY IN THE HOUSE. -There is to harder time to the mother and the housekeeper than the first few weeks of the new year. The house has been al most literally "turned upside down." A number of new articles have made their appearance, furniture, bric-a-brac, books or toys, have found a welcome in the house. The children have been obliged to stay in the house almost all the holiday week perhaps, and it has required all a mothers, arts and some of Job's patience to keep themin order and supply means for the r enjoyment. They have soon tired of the Christmas tree. The candies are all eaten and the light burned out. Then comes a time when they go back to old favorite playthings and pictures, and books stored away for months are brought out. All this, and the fact that many of their friends have come to see their Christ-mas, makes work for the housekeeper when the school begins again and it is very apt to be a very discouraging season. There are sometimes alas! New Year's Bills to pay and they come with the most certain regularity. Just at this time it is difficult also to have a variety upon the table, and those delicacles which we desire are expensive. Then it is a time for colds and fevers and we must have a care about ventilation. Altogether January is a hard month

not be out of the way.

Do not try to accomplish too much, things will right themselves in time. There are long evenings still and a great deal can be accomplished then. Save a short time every day for personal improvement either by an hour's chat with a friend-I do not mean pouring over paper patterns-but friendly and entertaining talk that does not include the neighbors, or by an hours intercourse with some author through his book. Let the children make a noise, it is hard for them just at this time as well as you, and above all do not tell your hosband, or father, or brother, all the petty trials of a day of "clearing up". They have many petty trials as well as you, but they have learned to keep quiet
