

MIFLINTOWN. WEDNESDAY, JUNE 4, 1890. B. F. SCHWEIER, Editor and Proprietor.

WHO FOR GOVERNOR? Not a Seesh. Not a Man on Stilts.

There is a fierce contest going on among the Democracy for the nomination of governor, between the Patton men and the Wallace men, and to screen themselves from the public eye, so that their light will not be conspicuous in the eyes of the people, they are found in their shouts against Republican candidates, who are seeking the governorship nomination. It is well known that among the Democrats, DeLamater, Hastings, Monticok, Osborne, Davies and McCormick are candidates for the governorship. The entire Democratic press of the state are writing all manner of trash against DeLamater and why? They are abusing him and everybody who is believed to favor him, because they know he is the strongest candidate, and will go into the State Convention with the largest number of delegates. If anyone of the other candidates possessed the strength that DeLamater does he would be the party denounced with his friends and DeLamater's name would scarcely be mentioned. The erring brethren believe their thundering denunciations against Senator Quay, and all for the purpose of diverting attention from their own fight and securing for office. One party of them want Wallace nominated for Governor; the other party want Patton. Wallace was a sympathizer of Seesh. Patton has no war record but he is a staid sort of a gentleman, and when he headed the soldier opinion-soldier committee in Junata he was held in higher than their stilt. They who they would endure the sight of a substantial clean course man in sheets that were spread in the beds of the children of the school. The majority of people in this community sleep between sheets of course muslin that is as clean as muslin of finer fabric, and they want to be commended to different quality of reform than the candidate who who who had sheets of heavy muslin. Of course at this time no one can tell who will be nominated by the Republican convention for Governor, and the same may be said of the Democratic convention, but one thing is certain the people will not elect a Governor, who was a sympathizer of secession and will not elect a Governor, who is a reformer on a high that he has, profits, the clean substantial sheets, like those on the beds of the majority of clean people in Pennsylvania.

When A. Noll, living at Hestington, Montgomery has made a check that will run eight thousand years. Coal producing companies have raised the price of coal 25 cents a ton. They are getting in line for next winter's business. The General Assembly of the Presbyterian church that convened at Saratoga, adjourned last week and the great question of the revision of the Westminster Confession of Faith, is in the hands of a committee, which is to report at the next General Assembly.

The Democratic press expresses the hope that the Grange and Farmers Alliance will throw their influence in favor of a protective tariff. Reduction of the Democratic press is assumed, that the farming community understand that if a large percentage of farmers could be profitably employed in the towns and manufacturing centers, that there would be but many less farmers and that many more consumers of the farmers' products would better the process and therefore the government policy that protects and fosters manufacturing interests helps the farming interests.

the people to hold another election, especially to fill that office, but the question goes to the governor for appointment, such being the case the Lewistown special election for a judge, under which Mr. Footnot claimed the office was outside of the law and Governor Beaver could not legally have commissioned him on the vote of the special election. The Governor made the appointment upon the tie of the regular spring election, and conferred the office upon Settle, who is a Republican.

Law Breaking Preachers. Preachers ought to be the last persons to break law, yet it is getting to be common for persons to secure license in one county and get married in another. A few weeks ago a couple took out license here and were married at Center Hall, and two weeks ago another couple who secured their license here, were married at Mt. Union. In both cases the clergymen of the place where they were married, were held liable to a heavy fine. The license must be secured in the county where the ceremony takes place—Lewistown Gazette.

Killed by an Elephant. New York, May 27.—Details have reached this country of the death of Frank L. James in Africa, caused by wounds received while elephant hunting. Mr. James was the well known African explorer and hunter, and half brother of D. Wang James of the firm of Phelps, Dodge & Co., of this city. His death occurred on April 21. The details of his death are given by the party who accompanied him. Mr. James left Portugal the latter part of last January, intending to return to London in July. His party entered the Galvon river, on the west coast of Africa, and there anchored. Preparations were made for expeditions and they were set out for elephants. On the fatal day Mr. James had gone in advance of his party and met an elephant, to which he gave battle. The enraged beast turned on him, piercing him several times with its tusks. Mr. James lived only forty minutes after receiving the fatal wound. His cries brought his companions to his side to render him aid, but he died before they could reach him. The party returned to the coast and buried the body. Mr. James was a gentleman of high standing in the world of African exploration and discovery. The body was shipped to Kessel Green Cemetery near London.

Farmers and the Census. The census year began June 1, 1890, and ends May 31, 1891. Each state has from nine to eleven supervisory districts. There are 175 special assessors in all. There are 42,900 farms in the country. The census of the country will begin their work Monday morning, June 2, 1890. Every farm will be visited before June 20, and the following questions will be asked, keeping in mind that the figures you give to be nearly pertain to the crops of 1889, and not to the crops of 1890. (1) Name of the farmer. (2) Name of the occupant of the farm. (3) Are you owner, renter for money, or for share of the crops of the farm? (4) Are you white or black? (5) Number of acres of land, improved and unimproved. (6) Acres irrigated. (7) Number of arable lands flowing. (8) Value of farm, including improvements, machinery and live stock. (9) Acres of land and repairing. (10) Cost of fertilizers. (11) Labor. Amounts paid for labor, including board, weeks of hired labor, white or black. (12) Products. Estimated value of all farm productions sold, consumed, or on hand for 1889. (13) Forestry. Amount of wood cut, and value of all forest products, such as (14) Grass lands. Acres of each kind of grass, land cut for hay or pasture; tons of hay and straw sold; clover and grass seeds produced and sold; silos and their capacity. (15) Sugar. Cane, sorghum, maple, and beet; sugar and molasses; acres, product and value of each. (16) Cattle. Breeds, number, and value of each. (17) Horses. Breeds, number, and value of each. (18) Sheep. Number and value of each. (19) Poultry. Breeds, number, and value of each. (20) Swine. Number and value of each. (21) Other. Name, number, and value of each. (22) Crops. Name, number, and value of each. (23) Fruits. Name, number, and value of each. (24) Live stock. Name, number, and value of each. (25) Machinery. Name, number, and value of each. (26) Tools. Name, number, and value of each. (27) Buildings. Name, number, and value of each. (28) Other. Name, number, and value of each. (29) Total. Name, number, and value of each. (30) Remarks. Name, number, and value of each.

Number of acres in vegetables, blackberries, raspberries, strawberries, and other small fruits, and total value of products in 1889. (31) Vegetables and Fruits for Canning. Number of acres and products in bushels, of peas and beans, green corn, tomatoes, other vegetables and fruits. (32) Orchards. Apples, apricots, cherries, peaches, pears, plums, and prunes, and other orchard fruits, in each of the number of acres, crop in 1889, number of bearing trees, number of young trees not bearing, and value of all orchard products sold. (33) Vineyards. Number of acres bearing and in young vines not bearing; products of grapes and raisins and value in 1889. Besides these questions on the regular Agricultural Schedule No. 2, Superintendent Rosser P. Pozner has ordered several special investigations in the interests of agriculture, among which are: (1) Agriculture, Nurseries, Florists, Seed and Truck Farms, Semi-tropic Fruits, Oranges, etc. Live stock on the great ranges, and cities and villages; also, the names and number of all the various farmers' organizations such as Agricultural and Horticultural Societies, Poultry and Bee Associations, Farmers Clubs, Granges, Alliances, Wheels Unions, Legions, etc. In no part of the census work have the lines been extended more than in the direction of agriculture, and if farmers will cooperate with the enumerators and other officials in promptly furnishing the information requested, the best results regarding our greatest industry will be obtained than ever before.

Penalty Against Fence Breaking. Because a man is ignorant of the penalty of the law against fence breaking in Pennsylvania, does not excuse him from the penalty of breaking or damaging the fence of another. The law is clear in its expression: "Anyone can understand it," it says. "If any person or persons shall maliciously or wantonly break and throw down any post and rail or other fence erected for the enclosure of land, or shall carry away, break or destroy any post, rail, or other material of which such fence was built, including any lot or fields within the commonwealth, such person or persons shall be deemed guilty of a misdemeanor, and on conviction shall be sentenced to pay a fine not exceeding fifty dollars, or half thereof, to be paid to the informant or conviction of the offender or offenders, the other half to the support of the poor of such county, township or borough or ward where the offense has been committed, with costs of prosecution or to undergo an imprisonment not exceeding six months, or both or either at the discretion of the court."

THE SUMMER AT ATLANTIC CITY. The Pennsylvania Railroad's Great Facilities. The prospects for a brilliant summer season at Atlantic City were never so bright as at the present time. The extraordinary liberal patronage which it has gained during the winter and spring, largely due to the magnificent transportation maintained by the Pennsylvania Railroad is still manifesting itself in the well filled hotels which bid fair to hold their visitors well through the early summer season. The city is the sea is in its best condition, to entertain and amuse its friends than ever before. New hotels have been built, and older ones remodelled and enlarged. The great ocean boulevard has been completed so that Atlantic City now possesses the handsomest and most attractive ocean front of any sea-side resort in America. All the modern conveniences of the road have been improved, and the terminal facilities both at Philadelphia and Atlantic City have been enlarged and improved. The betterment of the tracks will enable the management to materially reduce the time between the Delaware river and the sea and the summer season will present the quickest, best equipped, safest, and most satisfactory service of trains for everybody ever enjoyed by the coast of Atlantic City summer patrons. The comprehensive system of excursion tickets, including all points on the Pennsylvania system will be available, as in the past years, at the exceptionally low rate of 10 cents for the round trip, and it would be well for our readers to remember that a summer trip that does not include Atlantic City, lacks the spice that would make it memorable.

A Spring Medicine. The druggists claim that people called daily for the new cure for constipation and sick headache, discovered by Dr. S. L. M. White in the Rocky Mountains. It is said to be the best remedy for constipation, and is the best for the most complicated cases, combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells at 40 cents a package and is called Lane's Family Medicine. A singular accident occurred on a passenger train from Philadelphia to Daily about 5 o'clock Wednesday evening of last week. At the time started on its way, the train was running rapidly, and just before it struck the curve near Daily the two-year-old child of Mrs. William G. M. White, who was seated on its mother's lap, started at the window and looked out. The sudden jerk at the curve, threw the child out the window. She rushed to the rear of the car and made desperate efforts to leap from the train, which was still running at a high rate of speed, but she was prevented by the train men and some of the passengers. She was pulled up and the child was rescued. The mother and passengers were wild with delight over the child's miraculous escape.

NEW DRUG STORE. M. P. CHAFFIN, PHARMACEUT. Has opened a new drug store in Mifflintown and has in stock a full line of all goods kept in a first class drug store. Prescriptions accurately compounded. Purity of ingredients guaranteed. The patronage of the public is respectfully solicited. Democrat and Register building, opposite Odd Fellows' Hall, Bridge Street.

Opportunity to Secure Bargains. Samuel S. Rayer did not find a customer to buy his clothing store, therefore he has laid in a nice new stock at very low cash price. Old stock still at cost as he wants to quit business and will sell to anyone wanting to buy him out. He invites you to call and learn terms and forth at his store on Bridge Street, Patterson. May 7, 1890-3m.

Ask Your Friends About It. Your distressing cough can be cured. We know it because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c and \$1 at all drug-gists.

Defi Fingered Showmen. Peter Shaver, one of the oldest and richest citizens of Mt. Union, went to Giveen circus in that town on Monday week, and backed up against a gambler with disastrous results. A certain "Mr. Johnson" stepped up as a jockey, asked the price of Shaver's horses, gave him a thousand dollars in clean, cold cash as an evidence of good faith, had the old for \$500, took him to the show, loaning him a few trunks at once, had him try his luck, lost the \$500, as well as "Johnson's" \$1000, and then said Peter Shaver became dazed began to cry, hunted up a squire and constable, worked through the channels of the law for his money and succeeded in recovering it with the aid of Horace B. Dunn, Esq., of this place, who went down to Mt. Union on Day Express. A few other persons "were let," and they did not get their money back either. So no more at present.—Huntingdon Globe.

TO CONSUMPTIVES. The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, and that dread disease, Consumption, is anxious to make known to his fellow sufferers the means of cure. To those who desire it, he will cheerfully send (free of charge) a copy of the prescription which he used, and which he has used for Consumption, Catarrh, Croup, Bronchitis, and all throat and lung troubles. He hopes all sufferers will try his remedy as it is invaluable. Those desiring the prescription, which will cost them nothing, and have proof a blessing, will please address Dr. Edward J. Wilson, Williamsburg, Kings County, New York.

GENERAL NEWS ITEMS. The largest sheep ranch in the world is in the counties of Webb and Diamond in Texas. It contains as many as 400,000 acres and generally pastures 800,000 sheep. The largest fortune ever accumulated in one of the learned professions is said to be that of Sir William Gull, the noted English physician who died recently. Sir William left behind him nearly two millions of dollars, and the entire sum was earned in the active practice of medicine.

INDIANS TO DAY. June 27.—The Low Indians to day formally accepted the offer of the government, made through the Cherokee Commission, for all their lands to the United States for \$1.25 per acre, they having received in severally eighty acres per capita. The final contract to sell began this afternoon and was finished by eight o'clock this evening. The Iowa reservation is composed of 228,418 acres of land. Of the Indians have been allotted their land in severalty there will remain 221,618 acres to become a public domain.

I took Cold, I took Sick, I took SCOTT'S EMULSION. I take My Meals, I take My Rest, AND I AM VIGOROUS ENOUGH TO TAKE CARE OF MY BUSINESS. I TAKE IT AS EASILY AS I DO MILK. SCOTT'S EMULSION IS NOTHING NEW, BUT IT IS DOING WONDERFUL THINGS. TAKE NO OTHER. Tresspass Notice. All persons are hereby cautioned not to trespass on the farm land and woodland of the undersigned in Mifflintown, Pa., for the purpose of hunting, trapping, fishing, picking berries, throwing down fences, cutting timber, &c. The law against trespassing will be enforced. DANIEL FISHER, November 27, 1890.

PIANOS ORGANS. The improved method of fastening strings of Pianos, invented by us, is one of the most important improvements ever made, making the instruments more richly musical in every tone, more durable, and less liable to get out of tune. Both the Mason & Hamlin Organs and Pianos excel chiefly in that which is the chief excellence in any musical instrument, quality of tone. Other things, though important, are much less so than this. An instrument with an musical tone cannot be good. Illustrated catalogues of new styles, introduced this season, sent free.
