

FARM NOTES.

PARSONS HERRING.—In places where herrings are grown largely for market, we have deep gravel soil, free from stone or clay—a good sandy loam. The custom is to raise the crop on the same land year after year, as the soil does not easily part of the rootlets that break off and remain, sprouting in spring sometimes from the bottom of the furrows where the crop has been raised.

HOUSEHOLD.

PLUM CATCHUP.—Allow one-half pound of sugar to each pound of plums. Put plums in water until tender, then put through sieve; add the sugar to the pulp and boil until quite thick; season to taste with ground cloves and cinnamon. Bottle while hot.

HISTORICAL HOBIERY.

The reign of the Edward III, which gave birth to the famous consent of the Order of the Garter, has naturally set the authorities to work on the matter of the appendages with which garters are worn. Put all into an earthen vessel, as Sir Elias Ashmole, Sir Walter Scott and Sir Samuel Mayrick attach not the slightest importance to the story of the clothes of Salisbury and the king's ap remark, "Holt soil qui mal y pnt," as he picked the garter up. It is to be remembered, too, that in this reign and long centuries afterwards, horse, and possibly garters, were worn by the stiver sax. Camden, the historian, says that Edward III gave the order of the Garter to the knights of the battle of Cressy. But no indication of such an article occurs upon any monument or illumination of the period.

THE DEAD AT PROSPECT HILL.

Mr. D. Skutsch Delivers an Oration in German. The veterans of the Eighth Battalion, District of Columbia volunteers, decorated the graves of their fallen comrades on Prospect Hill, Washington, D. C., on the 10th inst. They marched from Loch-becher's Park in a body, and Dr. Skutsch, of the Journal, delivered the address. It was a stirring and patriotic oration, as follows: "Now that all nature is again in verdure clad; that fields and forests, gardens and groves, appear again rejuvenated in their lovely spring; now that new life has sprung forth where the icy breath of winter had held all animation suspended, we find our hearts, and possibly garters, were worn by the stiver sax. Camden, the historian, says that Edward III gave the order of the Garter to the knights of the battle of Cressy. But no indication of such an article occurs upon any monument or illumination of the period.

THE DEED AT PROSPECT HILL.

Every nation upon the earth at this worthy of a place in the world's history has produced men worthy of the admiration of their time and of posterity for all time to come. It is worth while to remember that the language they employed in their intercourse with others of their peoples served but as a tool to these great minds. It can furnish no principles and no ideas, such as those laid down in the American Declaration of Independence, loss nothing of the beauty and grandeur of the German language. In the endless realm of thought and mind there are no national barriers, and we unto the people who would have their own language be the highest, their spiritual interest! But we are assembled to-day only to show our lasting respect and devotion for the men who were the origin of the Union. More than they did not patriot of any country could ever understand the country in which we live, or the common welfare, is pictured to us in poetry and history, in fairy tale and in legend, in the legends of our own people, in the realization of ideal usefulness and mental greatness. Popular life among all nations upholds such ideal in its own way, and the German origin of our people is a source of pride and honor to us.

To measure water roughly in an open stream, take from four to twelve different points in a straight line across the stream, and measure the depth at each of these points, and add the results together, divide by the number of measurement taken. This quotient will give you the average depth, which should be measured in feet. Multiply this average depth in feet by the width in feet, and this will give you the square feet of cross section of the stream. Multiply this by the velocity of the stream in feet per minute, and you will have the cubic feet per minute of the stream. The velocity of the stream can be found by laying off 100 feet on the bank and then throwing a board into the stream at the middle, note the time passing over the 100 feet and dividing the 100 feet by the time and multiply by 60 gives the velocity in feet per minute at the surface. The velocity at the centre is only 83 per cent of that at the surface; and so only 83 per cent should be calculated. For example, suppose the float passes 100 feet in 10 seconds, that divided by 60 and multiplied by 60 (seconds in the minute) gives 600 feet per minute as the velocity, and 83 per cent of this gives 498 feet per minute as the velocity of the stream at the centre, and the area of the cross section multiplied by this will give you number of cubic feet per minute in the stream. This, of course, is only a rough way of calculating, but it is often used, and is a good and simple way to obtain data to select a wheel by.

According to a Berlin correspondent of London newspapers, the German medical weekly papers publish statistics showing an alarming increase of consumption among the native residents of San Remo and Mentone, where so many consumptive invalids from other countries spend the winter. The number of resident consumptives is increasing from year to year, and it is feared that tuberculosis microbes, imported by foreign health seekers, have poisoned the air, gradually making the Riviera a plague spot. Twenty of the best medical authorities of the district recently held a meeting in San Remo to consider measures by which the spread of consumption can be prevented. Dr. Riccardi, a leading physician in San Remo, presided, and reported on the high death rate among the natives. The meeting at first proposed a resolution warning consumptives against visiting San Remo and Mentone, as the air was filled with microbes liable to hasten disease. The Mayor of San Remo, however, proposed the passage of a resolution, inasmuch as such a warning would ruin the business of the two places as health resorts. He proposed to arrange a general disinfection of the Riviera, and that Mentone took similar precautions, particularly in all hotels and villas where consumptives have been, or are, in residence.

Hood's Sarsaparilla. Prepared from Sarsaparilla, Dandelion, Man-drake, Dock, Juniper Berries, and other well-known vegetable remedies, in such a peculiar manner as to derive the full medicinal value of each. It will cure, when in the power of medicine, Scrofula, Salt Rheum, Sores, Bolls, Pimples, all Humors, Dropsy, Biliousness, Sick Headache, Indigestion, General Debility, Catarrh, Rheumatism, Kidney and Liver Complaints, It cures a host of other troubles caused by an impure of climate, season, or life.

R. R. R. RADWAY'S READY RELIEF. THE GREAT CONQUEROR OF PAIN. Instantly relieves and cures Colds, Sore Throat, Bronchitis, Pleurisy, Stiff Neck, all congestions and inflammations, whether of the Lungs, Kidneys, Head, or Stomach. RHEUMATISM, NEURALGIA, Headache, Toothache, Wounds or Pain in the Back, Chest or Limbs, by one application. Internally in water for all internal pains, Stomach, Heartburn, Sick Headache, Nerve-pain, Rheumatism, Biliousness, Catarrh, Chills and Fever and Malaria. 50c a bottle. All Druggists.

RADWAY'S PILLS. An excellent and mild Cathartic. Purely Vegetable. The Safest and Best Medicine in the world for the Cure of all Disorders of the LIVER, STOMACH OR BOWELS. Taken according to directions they will restore health and renew vitality. Price 25 cts. a Box. Sold by all Druggists. DR. RADWAY & CO., NEW YORK.

Spool Holder. SPAN FARMER saves his Spool Holder. It is a simple and useful device for holding spools. It is made of wood and is very durable. It is sold by all druggists.

FITS STOPPED FREE. FRAZER AXLE GREASE. BEST IN THE WORLD. The Frazer Axle Grease is the best and most reliable grease for all axle work. It is made of the finest materials and is very durable. It is sold by all druggists.

SALT LAKE CITY. JONES OF BINGHAMTON. The Salt Lake City Soap is the best and most reliable soap for all household use. It is made of the finest materials and is very durable. It is sold by all druggists.

BOOK WITH EVERY BAR OF SOAP. CHICHESTER'S ENGLISH PENNYROYAL PILLS. The Chichester's English Pennyroyal Pills are the best and most reliable pills for all ailments. They are made of the finest materials and are very durable. They are sold by all druggists.

PENSIONS. HOME STUDY. The Home Study Pension is the best and most reliable pension for all household use. It is made of the finest materials and is very durable. It is sold by all druggists.

THE OLD RUT. They like Sapollo. They waste themselves to make the world brighter. SAPOLIO is the electric light of house-cleaning. The Old Rut is the best and most reliable method of house-cleaning. It is made of the finest materials and is very durable. It is sold by all druggists.

EVERY WATERPROOF COLLAR OR CUFF THAT CAN BE RELIED ON. BE UP TO THE MARK. Not to Discolor! BEARS THIS MARK. The Waterproof Collar or Cuff is the best and most reliable method of house-cleaning. It is made of the finest materials and is very durable. It is sold by all druggists.

WANTED A CANNASER FOR THIS TOWN. The Cannaser is the best and most reliable method of house-cleaning. It is made of the finest materials and is very durable. It is sold by all druggists.

A MYSTERIOUS OLIVE DISEASE.—A strange disease has broken out in some of the olive orchards in the Pomona valley, and in many respects recalls to mind the mysterious vine disease. It was first noticed about a year and a half years ago, and has been making headway ever since. So far no one has discovered its cause, whether it is bacteria in the soil, or a fungus of the wood. Its attack is indeed singular. The tips of the branches and smaller limbs begin to dry up and the wood turns a light brown, the leaves in a whole limb. Many branches will show an apparently healthy twig on one side while on the other side a dead and withered growth is seen to be present. One tree may be apparently healthy with the exception of a single branch or shoot, while other trees are nearly from one quarter to one-half dead. The affected portions convey the idea of having been scorched by a severe fire. The malady is reported quite universal throughout the valley, and is causing no little anxiety among the olive-growers. Specimens have been sent to Secretary Long of the State Board, but so far no reliable information touching its cause and its remedy has been received from any source. Prof. Coupland has sent specimens of the leaves and wood to the department at Washington, and it is to be hoped that the mystery will be cleared up and a remedy found before its spread becomes serious. A "mysterious vine disease" is quite enough for Southern California, without the addition of a "mysterious olive disease."

JELLY CAKE.—Two eggs, one cup of sugar, two tablespoonsful of butter, one-half cup of sweet milk, one-half teaspoonful of cream tartar, a box of baking powder, one cup of flour, beat eggs and sugar to a cream, then add the butter and milk; put the cream of tartar and soda in the flour, and mix in the cake last. Bake in layers in a quick oven, and spread with jelly.

THE DEED AT PROSPECT HILL. Mr. D. Skutsch Delivers an Oration in German. The veterans of the Eighth Battalion, District of Columbia volunteers, decorated the graves of their fallen comrades on Prospect Hill, Washington, D. C., on the 10th inst. They marched from Loch-becher's Park in a body, and Dr. Skutsch, of the Journal, delivered the address. It was a stirring and patriotic oration, as follows: "Now that all nature is again in verdure clad; that fields and forests, gardens and groves, appear again rejuvenated in their lovely spring; now that new life has sprung forth where the icy breath of winter had held all animation suspended, we find our hearts, and possibly garters, were worn by the stiver sax. Camden, the historian, says that Edward III gave the order of the Garter to the knights of the battle of Cressy. But no indication of such an article occurs upon any monument or illumination of the period.

ANIMAL INOCULATION.—This is a matter of interest to stockmen. It is said that Pasteur's idea that infectious diseases in animals can be prevented by inoculation, and the same principle prevents small-pox in man, has been carried out to some extent by the Saxony Agricultural Society with the approval of the German Government. Sixteen head of calves were inoculated with the virus of small-pox, and subsequently placed among a herd highly infected with that disease. Fifteen of the number remained entirely free from the disease, the other three had the disease in a mild form. While the experiment has not been tried to a sufficient extent to demonstrate beyond a doubt that the principle is correct, the results are regarded as promising.

THE DEED AT PROSPECT HILL. Mr. D. Skutsch Delivers an Oration in German. The veterans of the Eighth Battalion, District of Columbia volunteers, decorated the graves of their fallen comrades on Prospect Hill, Washington, D. C., on the 10th inst. They marched from Loch-becher's Park in a body, and Dr. Skutsch, of the Journal, delivered the address. It was a stirring and patriotic oration, as follows: "Now that all nature is again in verdure clad; that fields and forests, gardens and groves, appear again rejuvenated in their lovely spring; now that new life has sprung forth where the icy breath of winter had held all animation suspended, we find our hearts, and possibly garters, were worn by the stiver sax. Camden, the historian, says that Edward III gave the order of the Garter to the knights of the battle of Cressy. But no indication of such an article occurs upon any monument or illumination of the period.
