

Republican State Ticket.

GOVERNOR, GEORGE W. DELAMATER, Crawford County.

LIEUTENANT-GOVERNOR, LOUIS A. WATRES, Lackawanna County.

RAISIN FOR FACE, the Sioux chief, who killed General Custer by shooting him with a rifle, was stabbed in the heart and killed by his wife, on account of jealousy.

The Republican ticket nominated at Harrisburg on the 25th of June will be elected by a large majority. The men are capable and they were nominated as fairly as men can be nominated under the delegate system.

The multitude of men who visited Harrisburg at the time of the Republican State Convention is an evidence of the great interest taken in the nomination of a governor.

At Scranton on the 2nd day of July, the Democrats nominated for Governor, Robert E. Pattison, on 1st ballot. Chauncey F. Black was nominated for Lieutenant Governor.

about losses, for he might have heard the fact, that Cleveland's chief henchman, William Scott of Erie, Democratic boss, had his men Allen quietly scrutinize Scranon on the evening previous to the day on which the convention was held, and well the next day like sheep in the shambles the delegates turned in for Wallace.

He conjured up the three million surplus in the State Treasury, that he said the Republicans had on deposit among pet banks in the State, and declared that Pattison had been ignorant in putting the fund to rest it brings interest to the Commonwealth, but he entirely ignored the many hundreds times greater fact, that by successive Republican rule in the State the forty million dollar debt that the Democrats left behind them when they were voted out of office has been reduced by Republican rule, and that is the reason it is now possible to have three millions surplus in the State Treasury.

He said Pattison is in favor of an equalization of taxation, but he forgot to mention that a Governor does not enact laws, that it is the Legislature that enacts laws, and while on that point he might have, but he did not, told that it was suggested to Republican Governor Hoyt to call an extra session of the Legislature for reform purposes. Hoyt said, "no." "If I call you in extra session, you'll stay here a year," but Pattison called the Legislature and he could not get it to work as he wanted it to work, and he could not get it to go home. That's how Pattison runs the Legislature. Possibly the Legislature was afraid of Pattison as a boss. From Garman's speech we infer that, Pattison is to be both Governor and Legislature, which inference jingles like a boss ridden.

He paid a number of left handed compliments to Delaware and according to his version he is dreadfully boss ridden. He did not have copies of the state constitution of 1872 to hand around the speaker audience that was listening to him, but according to his statement no laws have been passed by the Legislature to vitalize that document, and he entirely failed to tell why he did not offer a bill when he was in the Legislature to vitalize the constitution. After he closed the talk on the constitution he again glorified Pattison and begged for his election and a co-operative Legislature, which in his estimation, as the showman says, would prove to be the greatest state government on the earth, but he forgot to follow Mr. North and Mr. Garman, who got to say a word about the honor of the State, which seemingly studied neglect was "like playing Hamlet with Hamlet left out," for in fact that Mr. Black had more votes polled for him than Mr. Pattison, when Pattison was elected Governor. What is the matter with Black or what was the matter with North and Garman at the ratification meeting.

The next speaker was honorable Wellington Smith, ex county superintendent. Mr. Smith must have felt a good deal like oil and water mixed, when in company with such a high caliber as Garman, but he waltzed in and declared that he was in favor of a farmer whose business is seriously depressed and needs relief through legislation. He didn't say but it seemed clear to him from his speech, that Pattison is the Moses to lead the farmers out of the wilderness of depression. He missed the focal point that the great depression and depreciation in prices of farms and farm products in Pennsylvania is owing in a great measure to the fact, that grain, hogs, sheep, cattle, etc., raised on the cheap lands of the west are being dumped into the markets of the Atlantic States at freight rates not higher than the rate on Pennsylvania products, and are charged for sending their products to the same markets. Having missed the focal point of that part of his speech, which is the milk in the cocoanut or the fern de jession, of course he must needs make the other great fact that Governor Pattison cannot if elected have a thing to do with changing or controlling freight rates from the Western country to Atlantic coast markets.

It was a matter of deep concern to him that there are getting to be too many millionaires in this country. He had not all the returns at hand from Scranton, he did not know that millionaire, and Cleveland boss Scott, and henchman Allen had quietly by some potential influence within twelve hours of the meeting of the convention, turned it completely over to the millionaires and their agents, when an eloquent townsman George Jacobs seconded the nomination of Wallace the Scott henchman, he would have been declared that Wallace could poll a larger vote in the state than any nominee that the convention could put in the field. According to his view the millionaires will destroy the country and to illustrate their destructive qualities he introduced Roman history. He said Rome had three classes, the Patrician, the Plebeian and the Slave. The Patricians got all the honors and the Plebeians lost their liberties. But Mr. Smith did not tell that he had not yet read enough into history to induce him to tell the fact that it was not the employed men of Rome that destroyed her liberties, but that it was the military men. Why did not Mr. Smith tell his hearers that it was the warrior that destroyed the liberties of both Patrician and Plebeian.

He talked of unequal taxation: He said the real estate valuation and corporation valuation in the Commonwealth are about equal, but by unequal taxation real estate payers pay on their taxes ten million tax.

He denounced Delameter for having promised someone, he didn't say who to support certain bills in the Legislature, but after the promise was given against the bills, but he forgot to enlighten his hearers as to the particular character of the bills, and everybody went away in blissful ignorance of the provisions of the bills that Mr. Smith talked about. Perhaps if they would call another ratification meeting Mr. Smith might be induced to speak more particularly to the point.

He declared Pattison to be a man of good prospects. were cast for Pattison. Berry was as quiet as a mouse on that important fact. He followed North, Garman and Smith in saying nothing about Black.

When Mr. Berry closed his speech, G. W. Burchfield proposed three cheers for the ticket and closed the meeting. It was the smallest outdoor Democratic meeting ever held in the Court House yard that the writer has knowledge of. Such oratorical leaders as A. J. Patterson, Howard Nesby, and George Jacobs were not present, which is not to be wondered at after the treatment Jacobs received at the hands of the Pattison people at Scranton.

Mrs. Howard J. Roberts. Found The Johnstown Tribune of June 26, 1890, says: "While prowling with a stick in the mud along the Stony creek river at the foot of Main street to-day a man discovered a human body. The search force was notified and the body was taken out of the ground and removed to the morgue. There samples of the clothing were washed and as close an examination as possible made of the remains. Several persons called at the morgue while the body was there in the hope of identifying it. Among the visitors was Mr. Dwight Roberts, cashier of the Citizens National Bank. He was at once convinced that the remains were those of his mother and was subsequently confirmed in his opinion by Mr. Leuchter, the jeweler, who recognized the gold spectacles found with the body as a pair purchased by Mrs. Roberts at his father's store before the flood. The clothing was also positively identified by Mrs. Emma Lee. Mrs. Roberts will be laid to rest beside her husband and son Otis in Grand View, the former's body having been found soon after the flood, and that of the latter a month ago.

PIANOS ORGANS.

The improved method of fastening strings of Pianos, invented by us, is one of the most important improvements ever made. The new method is more durable, and less liable to get out of tune.

Both the Mason & Hamlin Organs and Pianos excel chiefly in that which is the chief excellence in any musical instrument, the quality of tone. Other things, though important are much less so than this. An instrument with unusual tones cannot be good. Illustrated catalogues of new styles, introduced this season, sent free.
