SENTINEL & REPUBLICAN

MIFFLINTOWN.

WEDNESDAY, NOV. 12, 1890.

B. F. SCHWEIER,

EDITOR AND PROPRIETOR.

In the Democratic hurricane that swept over the country, Pennsylvania Republicans lose 4 congressmen.

Ohio, lost 8 republican congressmen by the late election.

New York, lost 8 republican congressmen.

New Jersey lost 2 Republican congressmen.

Nebraska, lost 2 republican congressmen.

Rhode Island lost 1 Republican congressman.

Tennessee, lost 1 republican congressman.

Virginia, lost 4 Republican congressmen.

West Virginia, lost 2 republican congressmen.

Wisconsin, lost 5 Republican congressmen.

Missouri, lost 4 republican congressmen.

The democrats lost three of their five democratic congressmen in Minnesota.

Massachusetts lost 5 republican congressmen.

Maryland, lost three republican congressmen.

Alabama, lost 1 republican congressmen.

Louisiana lost the only republican congressman she had.

Kentucky, lost one of the two congressmen that she had.

Kansas, lost five republican congressmen.

Iowa, lost 4 republican congressmen.

Illinois, lost six republican congressmen.

Connecticut, lost 1 republican congressman.

Arkansas, lost 2 republican congressmen.

Idaho and Wyoming, will each send two republican United States sentors to Washington.

Ohio elected the republican state ticket.

In Nebraska the democrats elected a governor, but the balance of the state ticket is republican and the Farmers Alliance have the Legislature.

The prohibition amendent and the constitution in Nebraska was defeated.

The Connecticut Legislature is republican.

California elected a republican governor.

The Legislature in Colorado is republican.

The Illinois Legislature is democratic.

Pattison's majority for Governor is about 17,000.

Watres, Republican candidate for Governor is elected by 13,000.

The farmers alliance will have 38 members in the next Congress.

Governor Pattison's gain over the election of 1886 is about 60,000.

Reed's speakership will come to an end on the 4th of next March.

Stewart, Republican candidate for Secretary of Internal Affairs is elected by over 13,000.

Between one and two hundred republicans in Juniata county, did not vote at the late election.

Two Frenchmen propose to go to the North Pole in a balloon. They are saying nothing about getting back.

A Republican Congress passed the pension laws, and democratic pensioners voted against republican congressmen.

Secretary Noble has refused the request of the Mayor of New York City for a recount of the population of the city.

The Indians are settling to take government rations for the winter. Next spring they will be ready for the war-path.

The new delegation in Congress from Pennsylvania will stand 17 republican; 11 democrats. A Democratic gain of four.

Cleveland rejoices over Pattison's victory, but then he has raised up a rival for Presidential honors. They'll not be so thick 18 months hence.

Every administration for the past 50 years has lost its second congress. It therefore seems natural that the second Congress of President Harrison should be democratic.

Philadelphia democrats talk of expelling from the party such of their members as voted for the republican candidates. Give the leaders of the democracy rope.

Philadelphia democrats did not parade in honor of Pattison for fear of offending the mugwump element.

The Democrat and Register has read Hon. T. D. Garman and others out of the democratic party. Who the others are is not stated.

It was a contemptable slur that the Tribune attempted to put upon George Hower.

Most of the Methodists voted for Pattison.

Foreign importers, and jobbers, in England rejoice over the election of a democratic congress.

The entire republican ticket was elected in Philadelphia. It was the country districts that defeated Delamater.

The next session of Congress in all probability will pass the Federal Election Bill, and the Democratic Congress, that will take its seat next March will try and repeal it.

Samuel O. Trudell, has come to the front with a new book, entitled: "A Wonderful Discovery in the Book of Job," in which he declares, that the Behemoth and Leviathan of Job is the modern steam engine.

The Republicans in the incoming Congress next March, if the returns are all in will number 101. The democrats and alliance members, will number 231, which gives the democrats a majority of 130.

The simon pure leaders of the democratic party are and have ever been against the financial policy of the republican party. Lookout for a movement to uproot the National banks when the democratic congress begins work.

The late election proves how strong Congressman Atkinson is with the people of the 18th district. It seems almost like a miracle that he was not swept away by the democratic hurricane that stormed the country districts.

Aside from the election of Governor Pattison, and four congressmen, and a few members of the Legislature. The democratic victory in Pennsylvania is not so much of a deluge as was at first reported. This grand old Commonwealth is Republican in all of the State departments at Harrisburg, excepting in the executive chamber. The Senate and Assembly are republican, and that insures the return of a republican senator to the council of the nation.

The people throughout the country are discussing the causes that led to the defeat of the republican party at the late election and the reasons given are as varied as the different standpoints, from which men viewed the situation. One said it was to squelch bossism, another said it was a rebuke to the protective tariff policy, another said it was the grange and alliance people, another said it was the foreign free trade boodle, another said it was the pension laws, another said it was the impending force bill.

The people of the United States have elected a democratic congress by a large majority. From a business standpoint that is a great mistake, which will be realized by the people at large within the coming 2 years, for the reason that it unsettles the business of the country. If a republican congress had been returned the McKinley tariff bill would have settled the tariff question for years to come, and manufacturing establishments would have sprung up in almost every nook and corner of the land that would have given employment to millions of people to the general benefit of all the people. As the case now stands, manufacturing enterprises will not be ventured upon, because it is well known that the policy of the democratic party is against a protective tariff, and as soon as the new Congress is seated it will uproot the protective measures to such a degree that manufacturing interests will languish, and no new enterprises be engaged in. But the people have done it under misleading advice, and when they pay the penalty of a greater depression of business they should not complain.

A person born in a hot weather stands the heat a great deal better than one born in the cold months of winter; of course that rule works vice versa. Those born in the spring are usually of a more robust constitution.

A Cure for Constipation and Sick Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family medicine. It will cure sick headache in one night. For the blood, liver and kidneys, and for the clearing up of the complexion it does wonders. Druggists sell it at 50cts a package. tf

Ask Your Friends About It.

Your distressing cough can be cured. We know it because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c and $1 at all druggists. tf.

NEW DRUG STORE.

M. P. Crawford, Pharmacist, has opened a new drug store in Mifflintown and has in stock a full line of all goods kept in a first class drug store. Prescriptions accurately compounded. Purity of ingredients guaranteed. The patronage of the public is respectfully solicited.

Mammoth Furnishing Department.

We have devoted one entire side of the store for furnishing goods as our trade in this department has doubled. Why? you will ask. Simply because we have the largest stock and positively the lowest prices ever granted for same goods in Juniata county. If you are in need of gloves, neckwear, hosiery, umbrellas, white shirts, cardigan jackets, underwear, hats, caps, etc., you will find you can save money by dealing with us and at the same time get reliable goods.

Fred Meyers,
The Leading Clothier,
Mifflintown, Pa.

Telegraphing is one of the greatest inventions of modern times. Histories of past ages in the present times show no records of anything like it, except references to electricity in the Book of God. For instance the 4th verse of 27th chapter of Job reads: "He directeth it under the whole heaven and his lightning unto the ends of the earth." The east and west, north and south of America are connected together by wires somewhat like various separate parts of a machine are connected by belts. The nations of Europe are wired in the same way, while Europe and America are connected together by cables or telegraph wires running along the bottom of the sea from America's shores to Europe's shores or from Europe to America, and by telegraph from the shores throughout the respective nations and states of these geographical and great divisions of the world. Accounts of state transactions, changes in government, social doings, and the doings, affairs and actions that are brought before the public pass over the cable wires between the two great divisions in question. These and many other benefits come from telegraph wires and cables. And yet man is weak or unequal without his known ways of lightning speed of communicating from city to city and above all weak or unequal without his known ways of passing marriages, deaths, sermons, and other despatches along the wires in the bottom of the great sea. For instance let us illustrate the unequalness and weakness of men, both "small and great," thus: Let any of the prominent of America, and any of the citizens and people; and let any of the rulers of Europe and any of the citizens and people, desiring to send a message as quick as telegraph or cable would carry it. And only presume or suppose they would ignore the telegraph and cable, they would thereby reject these known ways of electrical speed, the quickest speed and would fail to have their work done like the cable and telegraph do it. Such ignoring of electrical ways at this period of the 19th century would not be profitable or successful any more than at any time the ignoring of Christ, the successful known way of passing through the depths of unfathomless and a great part unmeasurd space to the throne of God would bring success to the petitioner. No success to him because of Christ the only way not used or responsive. Unequal to the occasion like the heathen that ignores the true God is unequal to petitioning God through idols. But those apostate people use the cable wires and Americans hear from them promptly, in a short passage of time, when once the European applies to the wires. A success.

Also American people use the wires and Europeans readily hear, when once the American applies to the wires.—A success. Equal to the occasion like perfect Christians by their application to Christ are equal to petitioning God through him the "narrow way," the only proper way. Let people apply to Christ and use him and they will find the only successful way of becoming acceptable unto God in salvation by the blood of this way, whether their coming to God is slow and after long seeking prayer and contraction or quick like the sudden change that came to Paul on his way to Damascus. Have your message touched to the telegraph wire and it will be carried where you desire along telegraph lines, perhaps for miles and miles, because of seeking by a proper way. On the other hand let a man touch the power of Christ or "come unto God through him," and pardon and salvation will encompass him along the line of God's will, because of his seeking by the only proper way of God, viz: Christ. Ignoring the known way that has the power for cabling and telegraphing is not to succeed in sure and the quickest ways of sending news. Again to ignore Christ, the only Savior, the only way of salvation, who said "all power is given unto me in Heaven and earth," and "the Son of man hath power on earth to forgive sins," is to ignore the power of God to forgive sins and is ignoring his power to save. The telegraph is before you. You are privileged to accept or reject it. Christ says: "Behold I stand at the door and knock, if any man hear my voice and open the door I will come in to him and sup with him and he with me." Christ also is before you. It shall fall to your lot to accept or reject him. Open to him and use his power. Accept him the only way of God. In Christian lands people are privileged to accept the known way of God, besides the ways of man—the inventions that have promoted civilization.

The Electric Light is a great improvement for lighting public squares, avenues and houses of cities and large towns, and is lit by electricity coming over wires that run along the avenues somewhat after the manner of the telephone. The unseen electricity flashes a light into the electric lamp without the application of a match. On the other hand the unseen and yet often felt grace of God comes from him without invented methods to enlighten the hearts of sinners, and comes more unperceived than electricity that passes over wires and lights electric lamps. The Bible compares the already enlightened and redeemed, or those "born of the spirit," like unto the wind or breeze "thou hearest the sound thereof but canst not tell whence it cometh or whither it goeth so is every one that is born of the spirit. Whosoever obtains light from God given through Christ comes to a knowledge of his spiritual standing, and position before God, and perceives he cannot save himself. Yet through the spirit, a light to the eyes of the soul, he perceives Jesus Christ the only Saviour, whose light on Salvation and immortality is greater than all other lights, and who said keep your lamps trimmed and burning; "Let your lights so shine," and evidently had reference to the light received on redemption and the resurrection, and has given more light on the plan of salvation and on immortality than the planetary, steller and invented lights. This can be proven by comparing the light of the sun to the lights given by Divine revelation. For instance the light of the sun without the Bible has left nations in idolatry and hence in darkness concerning the one God, while Christ and the Bible is the light that has revealed God to the world. "Christ said: I am the Light of the world."

The Phonograph is one of the inventions brought to light at the close of this the 19th century. When it is open to receive voice and sound that a person or persons say in its vicinity, or in a room where it is located are recorded and retained by it until a bend is turned when it repeats in the sound of the human voice all said good or bad, even if it be a year after recorded. God alone excels it in recording. He records in books words and deeds good and bad. The unrepented trespasses of a year ago, yea of thirty years and the unrepented trespasses of yesterday and to-day are recorded and noted by Him. Therefore in the judgment, the wicked will be condemned and cast away into "outer darkness" by their own words and deeds as recorded in God's books, while the righteous by belief on Christ being cleansed of unrighteousness, will have no records against them by God's books, that are more than equal to phonographs, and may be called phonographs of the doings, words and deeds of men that will be opened in judgment. Part of verses read: "For we all must appear before the judgment seat of Christ;" "and I saw the dead both small and great stand before God, and the books were opened, and another book was opened which is the book of life and the dead were judged out of those things written in the books according to their works. "Whosoever was not found written in the book of life was cast into the lake of fire." The recorded doings words and deeds of those that die unrepentant will be judgment against them in the day of judgment — a greater accuser against them, a more accurate accuser against their ungodliness than the phonograph accurately will repeat and prove to person all the evil said in its presence in the past. The righteous will not thus be judged, but will be acquitted to forever enjoy God. "Then they that feared the Lord spake often to one another; and the Lord hearkened and heard it and a book of remembrance was written before him for them that feared the Lord. Malachi, IIIc, 16th v. In this book is more securly recorded the records of the just, than the phonograph can hold prayer and sacred song within its plates. Again the phonograph in open to receive sounds only when opened or set to receive them, and receiving them understanes them not, but is a machine that unconsciously reveals to understanding man past voice and sound, while on the other hand God receives knowledge of men's errors at all times, understands the nature of the errors against his laws, and does retain the sins in his knowledge even to judgment if they are not blotted out. "I have blotted out as a thick cloud thy transgressions and as a cloud thy sins." Isaiah XLIV ch. Accordingly God retains the knowledge of men's sins or blotts them out as they repent and believe or do not repent and do not believe. People are wisely careful to talk and say their best, play their best music, and sing their best in the presence of the phonograph, since it repeats before audiences, wherever exhibited and the best music and speech that it gives are most appreciated. The justified in the judgment audience will give in the most pleasnat record, some 30 fold, some 60 fold, some 4 talents, some ten. Their record is written in the book of life, which is different from the books that receive the words, suddeeds &c., that will condemn the wicked.

NO MORE OF THIS!

Rubber Shoes unless worn uncomfortably tight, will often slip off the foot. To remedy this evil the

"COLCHESTER" RUBBER CO.

offer a shoe with the inside of the heel lined with rubber. This clings to the shoe and prevents the rubber from slipping off.

Call for the "Colchester"

"ADHESIVE COUNTERS"

and you can walk, run or jump in them.

Consumption Surely Cured.

To The Editor:—Please inform your readers that I have a positive remedy for the above-named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their Express and P. O. address. Respectfully, T. A. SLOCUM, M.
