REPORTS OF THE potato famine continue to come from Ireland.

The Germans claim to have discovered a process by which sugar is extracted from cotyledons.

A PHILADELPHIA broker, named Baker, has fled leaving debts to the amount of a million behind him, one of the fleeces ones is his father and grand mother.

The Farmer's Alliance man who was elected a judge at the recent election in Kansas will take a course in a law school to qualify him for the duties of the judgeship.

SILVER is no longer coined free, but hooped in bullion. The issue of money is not keeping pace with the increase of population. With such a state of affairs times cannot help growing harder.

BENJAMIN F. SHELLEBORN, known to reading people as Mrs. Partington died in Boston on the 25th of November aged 76 years. At the age of 17 years he became an apprentice in a New Hampshire printing office, and that was the stepping stone to his fame as a humorist.

Panics prevail in the South American States. Came to many promises to pay on paper. If they had their country full of silver dollars the stringency could be easily met. One of the best arguments in favor of the passage of a free coinage act by Congress, is the worthless paper money that has wrecked the finances of some of the South American States.

Dog Bone Grafting.

A surgical operation that has directed upon it the attention of the reading world was performed in the Charity Hospital on Blackwell's Island at New York, about ten days ago by Dr. A. M. Phelps, assisted by A. M. Newman. The operation was the insertion of two inches of the bone of a live dog into the shin bone of a fourteen year old John Getchens.

"It was the boy's right leg that was operated on," and it was also the dog's right foreleg that was used in the operation. A portion of the dog's leg bone was introduced into the boy's leg after the diseased bone had been severed, and the process of grafting is now going on, enough of the dog's leg being allowed to adhere to the portion of his bone inserted in the boy's leg to furnish the natural nourishment to keep it alive and facilitate the knitting.

"It may take three weeks or a month for this process to be completed, and then will come the secondary operation of separating the dog from the boy. Until then the dog will of course be kept in his present position. He sits at the boy's leg, facing him, and firmly encaused in a plaster jacket that binds him immovably to the boy's leg. They have become great friends, and the young patient constantly fondles the animal."

To Visit California and the Far West via Pennsylvania Railroad Company.

Possibly no new feature ever inaugurated by the Pennsylvania Railroad Company has attracted such universal comment and attention as the series of tours it has announced to be run early in 1891 to the far Pacific coast. Each tour will be limited to one hundred passengers, who will travel in a Pullman Vestibule train, furnished with the luxurious appointments of the richest home, with ladies maid, stenographer and typewriter, library, bath and barber, and smoking and library rooms, and an observation car—in truth an exact reproduction of the famous Pennsylvania Limited. The first tour leaves New York, February 7th, and proceeds directly to the scene of the famous Mardi Gras at New Orleans, and then on to Southern California, and directly north to San Francisco, where the unrestricted liberty of three whole weeks is allowed, after which they join the special train for their homeward bound trip via Salt Lake City, Colorado Springs, Denver, Omaha and Chicago.

In the selection of its Tourist Agents and Chaperons this company has chosen them with a special view to their fitness, and whatever tends to the tourist's comfort or interest is assured by their presence. No such opportunity has ever before been presented to the people of the East of thoroughly seeing the vast domain of the country they so valiantly boast of, and at such a beautiful season of the year. The rate for the round trip of this first tour is but \$275.00, which includes not only all the necessary traveling expenses to San Francisco and return, but side trips to the most attractive resorts in California, meals en route, and several carriage and stage rides of interest.

Names are now being registered for each of the tours, and applications for Pullman accommodations and itinerary, should be made to Mr. Geo. W. Boyd, Assistant General Passenger Agent, 233 South Fourth Street, Philadelphia.

Farmers' Alliance.

The State Farmers Alliance met in Harrisburg last week and adopted a series of resolutions as its platform.

1st. That the tax laws of the state should be revised by the next Legislature, so that every species of property be made to bear its due proportion of the public burden to relieve the owners of real estate from unjust taxation.

2nd. That there is not enough money to conduct the business of the country, and that Congress should pass an act for the free coinage of silver.

3rd. Opposition to all kinds of trusts and combines that increase the price of the necessities of life, fuel and clothing to the injury of the masses.

4th.—Opposition to the policy of allowing foreigners to own large bodies of land in this country.

5th. Favors a free and honest election, a secret ballot, and urges the Legislature to call a state convention to make the necessary preparation to secure a secret ballot.

6th. Favors the amendment to the United States Constitution so that the United States Senators shall be elected by a direct vote of the people.

7th.—Expresses sympathy with all of the industrial classes of our land, and asks for a co-operation of them all to secure reforms through the means of legislation.

The Teachers' Institute

The instructors from a distance who were present at the Teachers' Institute last week were Superintendent M. M. McNeil of Dauphin county; Professor D. A. Harman of Luzerne county; Professor Bibb, Centre county; Professor J. L. Barrett, Miss Anna Tuckbee, of Harrisburg.

The telephone is one of the great factors among the inventions of modern civilization, and is used principally by the Christianized portion of the Caucasian race, almost throughout the width, breadth and expanse of the populated portions of three great continents, namely North America, Europe and the Republics of South America, and in time, untraced will spread itself over greater latitudes and longitudes according to the increase of strength of Christian civilization, and will continue with the telegraph to spread the civilization of the Christian people according to the purpose and decrees of God. It is used in the daily and weekly newspapers, printing establishments, also business firms of cities, which makes connection with less populous centers by means of it, and it is the only invention that can carry the human voice 12, 20 or more miles in the short time of a second or two. It is an important and useful invention of modern times. The Bible in a reference to electricity says: "His lightning enlightened the world, the earth saw and trembled."

The telephone aids the voice to distant points much more effectively than the railroad, camel or horse aid the traveler.

Let a man in New York, desiring to speak within a few seconds to a firm in Philadelphia by means of the voice, and presume that he applies orders and orders by means of the Philadelphia firm. Why? Because of application to a proper way for carrying the voice. Let the New Yorkers and others apply unto God in their faith through Christ and they will be heard by God on account of application to the proper way to come unto God.

Suppose a line of telephone wire. Let a man in Boston, desiring to speak to the proprietor of a New York House by means of voice, so that he will be heard in a few seconds, although an answer may be delayed, and presume that he applies to the telephone the only way that could make him heard so great a distance in so short a time. He would be heard quickly because of application to the only way for the speeded carrying of voice from one point to distant points. Also let the Bostonians and others desiring to be heard by God, be saved by him and brought into his favor, apply also in faith to Jesus, and they will thereby be heard by God and acquitted, because of their application to the proper way by which God has promised to hear, forgive, and save.

Suppose a line of wires. Let a man in Berlin, desiring to communicate with the head man of a Parisian business house, by means of voice in order that he be heard within a few seconds at the latter place without leaving Berlin. Suppose he would apply to electricity, the quickest and most powerful means of application to a proper way. Also let the people of Berlin, London, Paris, and of other cities and districts, desiring salvation through Christ besides whom there is none other to save, apply unto him, the only way of God, the proper, right, and good way, with all the faith they are gifted and endowed with, and they will be heard by him and answered and governed according to his will. Thousands are saved by applying to the Right Way. Christ says: "I am the Way," and further says, he is "The Truth, therefore he is the True Way, the One Way."

NEW DRUG STORE.

M. P. CRAWFORD, PHARMACEUTIST, has opened a new drug store in Middletown and has in stock a full line of all goods kept in a first class drug store. PRESCRIPTIONS ACCURATELY COMPOUNDED. Purity of ingredients guaranteed. The patronage of the public is respectfully solicited. Democrat and Register building, opposite Odd Fellows' Hall, Bridge street.

Ask Your Friends About It.

Your distressing cough can be cured. We know it because Kemp's Balsam, which is the most powerful cough cure in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective.

Large bottles 50c and \$1 at all drug stores.

According to a French savant a journey around the world could be made: By a man walking day and night, in 428 days; a railway train 40 days; sound, at a medium temperature 327 hours; as cannon ball 214 hours; light, a trifle over one-tenth of a second.

"Who carried off the gates of Gaza," asked the Sunday-school superintendent.

It was the second morning after Halloween, and twenty-seven boys rose up at once and said they had had anything at all to do with it.—Chicago Tribune.

The British are talking about a plan to stop the use of American beef. They propose to ship by steamer in refrigerators all the meat they need from Australia.

TO CONSUMPTIVES

The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, and that dread disease, Consumption, is anxious to make known to his fellow sufferers the means of cure. To those who desire it, he will cheerfully send (free of charge) a copy of the prescription used, which they will find a sure cure for Consumption, Asthma, Catarrh, Bronchitis and all throat and lung affections. He hopes all sufferers will try his remedy as it is invaluable. Those desiring the prescription, which will cost them nothing, and may prove a blessing, will please address Rev. Edward A. Wilson, Williamsburg, Kings County, New York.

Hold It to the Light.

The man who tells you confidentially that what will cure your cold, is prescribing Kemp's Balsam this year. In the preparation of this remarkable medicine for coughs and colds no expense is spared to combine only the best and purest ingredients. Hold a bottle of Kemp's Balsam to the light and look through it;

PURIFY THE BLOOD WITH Brown's Sarsaparilla. The mortality in large cities is due to the fact that bad food, bad air, and bad habits have made bad blood. From the lungs, down to the smallest hair, the whole body is fed, supplied with new materials, kept alive and healthy by the flow of blood. In fact it is the most important part of the system. Indeed, it is claimed there can be no disease save an occasional cold, when the blood is pure and flowing well. Brown's Sarsaparilla purifies and restores the blood, and in vigorous use the entire system. It is a blood purifier, and a blood tonic. It is a blood purifier, and a blood tonic. It is a blood purifier, and a blood tonic.
