

The gold bugs say, if you pass a free silver coinage act the currency will be inflated. In the next sentence they say, if you pass the free silver coinage act the currency will be contracted. Their contradictory statement cannot be correct both ways.

The Chicago platform upon which General Harrison was elected President declared in favor of a double standard of money, gold and silver. Now however the country is told, not by the President himself but by others, that if Congress does pass a free silver coin bill, which would be only giving vitality to the promise of the Chicago Republican platform that President Harrison will veto the bill. How do the say-ers know that the President will vote such a bill?

In acknowledging the receipt of a copy of the annual report of Postmaster General Wanamaker, we regret that space prevents a review of the able document. Secretary Wanamaker, emphasizes it, that the quickest service has not yet been attained and says, the conviction steadily grows upon him that the people have a right to postal telegraph service. Another interesting feature of his report is that it would be wise provision for government to make the post office places of deposits for the saving of small sums by the people. He says it would be a great comfort for the people to have these banks that could not be affected in times of financial panic.

SEVENTH SENATOR WOODS of this Senatorial district has a bill before the Legislature that proposes that the state shall pay to the counties the cost of the county bridges, that were swept away by the devastating flood of June 1889, when the county commissioners shall certify to the cost of the replacing of the bridges. The people of the flood swept district join Senator Woods in asking the Commonwealth for relief in this time of flood imposed burden. The highest duty of a state is to give relief and protection to its people, when great burdens are imposed by events and circumstances, and Providential dispensations, which the citizens could in no way foresee, prevent, control or avoid.

The men who control the bonded indebtedness of the world are at the head of the movement to prevent the free coinage of silver. If there could be a forced payment of the bonded indebtedness of the world in gold what a sacrifice of property. Everything would be shivered up to gold standard prices. The bond holders would get everything with the debt almost entirely unpaid. There is over three thousand million of gold in the world among the civilized nations. That amount of gold if it could all be brought into the United States—which is impossible—would not pay the railroad bonded indebtedness, which is about five thousand million dollars. If there is not gold enough in the world to pay all the more than 5000s on the dollar of the bonded indebtedness of the railroads of the United States, what would the shrinkage amount to in the payment of the other bonded indebtedness of the country?

The British have attempted to refer to the Behring Sea case to the United States Supreme Court for decision, thereby trying to get rid of the interference of the other departments of the United States government. Such a decision would be to the Irishman, said: "Like the handle of a jug, one side, for if the decision should not suit the British they would not be bound by it. Secretary of State Blaine claims that the Sea belongs to the United States. The British claim that the Sea belongs to all nations. Certain British ships, fishing for seals in Behring's Sea, have been captured by United States ships, and their capture has led to the British disputing the right of this government to the private ownership of the Sea, and now the English government in the case of the captured ship Sayward, wants to have the Supreme Court to determine, whether the Sayward when sea fishing in Behring's Sea, 62 miles from land was trespassing on United States waters.

Five Husbands.

PITTSBURGH, Pa., Jan. 15.—Miss Mary Lorenz, of Elmira, Ct., according to the last of the five husbands, which she has already enjoyed or endured, Mrs. Mary Mason, now 25 years of age was at the Union Station in this city last night en route to Philadelphia, where she is to wed the fifth husband who has wooed and won her since she was sweet sixteen. She is a comely German girl with fair locks and quite good looking. When she was sixteen years old she married her first husband, J. W. Coleman, a Tinian Islander. They had one child and were getting a long nicely. Her husband floated his boards and other material to this city, but one day about a year after they were married a fire fell on him in the forest and killed him. Some time after he was married Samuel Book a butcher in Binghamton, N. Y. His purchaser and general appearance gave promise of a long life, but a small fox-george struck the town, and the butcher was one

Bloomfield advocate:—J. J. Rice has sold his farm that he recently bought from W. M. Hench to A. L. Holschuler for the sum of \$3,400. * * * Mr. Samuel Slope, of Cisman's Run, a few days ago killed a calf 10 months old which when cleaned weighed 328 pounds; the hide weighed 64 pounds. Who can beat it? * * * On Tuesday of last week, Harry, a seven-year old son of Mr. John Dunkelberger, Sr., living near Bridgeport, Spring township, was letting out of the stable some horned cattle, when a two-year old bull gored him badly in the side of the nose, necessitating surgical attention.

One night last week, while several married ladies were enjoying themselves riding down Seventh Hill, their sleds came in contact with some ashes that had been scattered along the track. The ladies were riding down head foremost, and when they came in contact with the ashes, their sleds stopped suddenly, landing the occupants several feet in advance. They did not only receive a shaking up, but had reason to hunt up the sleds of plaster, and apply several inches of it to the bridge of the nose and a small piece to the chin. The joke was perpetrated by the husband of one of the coasters.—Huntingdon Journal.

The quinine habit is astonishingly on the increase. The New York maiden who scorns cigarettes and who knows not morphine, is becoming a willing slave to the insignificant-looking little quinine pill which she swallows at all times and under all circumstances. She carries a dainty vial with her and, upon the most trivial excuse, out comes the stopper and down goes the quinine—two, four, six, grains, as the case may be. Colds, indigestion, headache, ennuis, all have their panacea in this dose. The saddest part of it is that the girls will not indulge quietly and unostentatiously. They swallow the pills openly, they discuss the matter, they go to and do likewise. Naturally their heads buzz like a saw mill, but such trifles have no effect upon them.

There is one thing which should be brought to their attention, however, and that is according to the best physicians, quinine, taken in large quantities, produces deafness.—New York World.

A fatal shooting affair, occurred at Shamokin dam, Snyder Co., on last Thursday night, January 15, in which a young man named John Snyder was shot, by a lumberman, named Adam Comfort. The affair happened at a church festival. Comfort was slightly under the influence of liquor, and when he became a general nuisance, Snyder and two others put him out. As the festival was about to close, Comfort returned and, flourishing a revolver, made himself very obnoxious. Again Snyder and his comrades put him out and when on the street asked him to put up his revolver and go home. Comfort, instead of heading Snyder's advice took aim at him and fired one shot. An examination was hastily made and it was discovered that the ball had struck Snyder in the abdomen on the left side. The most remarkable thing about the matter is that Snyder walked home with his friends, and was in good spirits treating the matter as a joke, and had walked around at least two hours without suffering any pain.

Shortly after reaching home he began to suffer great pain, and a physician made an examination of the wound and found that the bullet had lodged in the pit of the stomach and that the injuries were fatal. Snyder bled to fast and shortly after sunrise became unconscious, in which state he remained until he died. Comfort, the murderer was arrested and taken to the jail at Middletown, to await the action of the court.—Ex.

Victory Won for Women.

Returns from 388 districts in the Methodist Episcopal church of the vote on the question of so changing the constitution as to permit women to sit as delegates in the general conference show a total vote of 314,602 of which 196,928 were cast in favor and 117,674 against, showing a majority up to date of 78,254. The states from the church will probably show a vote of over 400,000, and a majority for the women approach 100,000. It was a great victory.

Oriental.

Henry Zeiter, the oldest citizen of Susquehanna, died, at the house of John Kopp, near Oriental, December 20, 1890, at the age of 87 years, 7 months and 8 days. His positivity, living and dead, numbered 8 children, 60 grand-children, 70 great grand children and 1 great-grand-grand child.

Another unusual case of awakened conscience came under our observation lately; we give the facts, without mentioning names. Two men had been dealing. One of the parties felt that he had cheated the other to the amount of \$1. The defrauded party died thirty-seven years ago; his widow remained and is now a widow the second time. A few weeks ago the party who took the advantage sent the unjust dollar to the widow, saying he had no rest either day or night until that unjust dollar was at its place. Such honesty is certainly commendable.

Ask Your Friends About It.

Your distressing cough can be cured. We know it because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its hold on the expectorant. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c and \$1 at all druggists.

Again Snyder and his comrades put him out and when on the street asked him to put up his revolver and go home. Comfort, instead of heading Snyder's advice took aim at him and fired one shot. An examination was hastily made and it was discovered that the ball had struck Snyder in the abdomen on the left side. The most remarkable thing about the matter is that Snyder walked home with his friends, and was in good spirits treating the matter as a joke, and had walked around at least two hours without suffering any pain.

Shortly after reaching home he began to suffer great pain, and a physician made an examination of the wound and found that the bullet had lodged in the pit of the stomach and that the injuries were fatal. Snyder bled to fast and shortly after sunrise became unconscious, in which state he remained until he died. Comfort, the murderer was arrested and taken to the jail at Middletown, to await the action of the court.—Ex.

Victory Won for Women.

Returns from 388 districts in the Methodist Episcopal church of the vote on the question of so changing the constitution as to permit women to sit as delegates in the general conference show a total vote of 314,602 of which 196,928 were cast in favor and 117,674 against, showing a majority up to date of 78,254. The states from the church will probably show a vote of over 400,000, and a majority for the women approach 100,000. It was a great victory.

Oriental.

Henry Zeiter, the oldest citizen of Susquehanna, died, at the house of John Kopp, near Oriental, December 20, 1890, at the age of 87 years, 7 months and 8 days. His positivity, living and dead, numbered 8 children, 60 grand-children, 70 great grand children and 1 great-grand-grand child.

Another unusual case of awakened conscience came under our observation lately; we give the facts, without mentioning names. Two men had been dealing. One of the parties felt that he had cheated the other to the amount of \$1. The defrauded party died thirty-seven years ago; his widow remained and is now a widow the second time. A few weeks ago the party who took the advantage sent the unjust dollar to the widow, saying he had no rest either day or night until that unjust dollar was at its place. Such honesty is certainly commendable.

Ask Your Friends About It.

Your distressing cough can be cured. We know it because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its hold on the expectorant. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c and \$1 at all druggists.
