

SCIENCE.

NUTRITION IN EGGS.

Prof. Friesleben, of Wiesbaden, after a long series of chemical analyses, declared that an egg contains as much...

AN EXPERIMENT ON EFFLUENT.

M. De Fonville has made very curious experiments at the summit of the Eiffel tower. Some, it is considered, will lead to important considerations of a scientific character.

REMOVAL OF TATTOO MARKS.

The following method is recommended by M. Variot in the Revue Scientifique. The skin is first covered with a concentrated solution of tannin...

SOAPSTONE AND ITS USES.

A writer in a London journal calls attention to the unappreciated uses and preservative qualities of soapstone...

THOUGHTS OF THE DYING.

In the Societe de Biologie, Fere affirmed that a dying person in his last moments thinks of the chief events of his life...

CONSUMPTION OF TIES.

Assuming the entire railroad system of the United States to be 100,000 miles, as appears from "Poor's Manual," with the addition of the lines in construction during the current year...

THE ELECTRICAL GUN MACHINES.

This system of machines, may be described as follows: The census collector will call with his printed blank, and answers to questions will be written in the usual way.

THE ELECTRICAL GUN MACHINES.

These cards when punched arranged one at a time in a sort of press, and a lever operated by one hand is brought down, when a series of pins are brought against the card.

THEIR PARTICULAR BUSINESS OR PROFESSION.

The card, as they leave the press, are all sorted by means of an electrical sorting device, whereby they may be separated into groups or states of the Union.

NOTES.

In Germany wash consisting of paraffine wax dissolved in heavy coal tar oil has been found very efficacious.

They are introducing electric lights into the Montana mines and show that they are safer, better and cheaper than candles.

AMMONIA gas is said to be more largely used for the making of artificial leather than for all other purposes combined.

Prof. KULESCOFF, after long investigation, concludes that the factors of the European cattle maul are looked for in Europe.

The treatment of phlebitis with tannin is reported to have excellent results in Belgium. It gives excellent results in all stages of the disease.

Lake Sturgeon, beginning September 10, 1889, with the object of promoting the progress of physiology by affording an opportunity of personal intercourse and the friendly interchange of ideas between physiologists of all Nations.

A CHEAP and sufficient substitute for the hand grenades sold for putting out fire can be made by filling ordinary quart bottles with a saturated solution of common salt. The salt forms a coating on everything the water touches, and makes it nearly incombustible.

It is proposed to apply telephones to the infectious wards of the French hospitals, so as to enable the sick people to have the comfort of hearing their relatives' voices without any risk of conveying infection by an interview.

SOME important inscribed marble busts found at Ostia prove beyond doubt that the building now being excavated was a station of the Roman vigiles. The last record of vigiles in England was found at Chester a short time ago.

A NUMBER of the chief experts in pictures held a meeting in Paris recently, and formed an organization to prevent the sale of fraudulent works. They decided to attempt to secure the passage of a law providing severe penalties for all persons knowingly selling imitations of works of art or fraudulent pictures.

WAGES IN THE UNITED STATES IN 1900.

The condition of the American wages class nearly a century ago is full of instruction. In the large cities, the average workman was paid by the day, bought their own food, and found their own lodgings.

Chief Justice Fuller's House Rent.

The rumor which has been current for some weeks that Chief Justice Fuller had purchased the old-fashioned house and beautiful garden at the junction of M Street, Vermont avenue and Fourteenth street, Washington, has caused considerable comment on the insufficient salary of the Chief Justice of the United States.

Botanist—This, Miss Marlowe, is the tobacco plant.

Miss Harlow—How interesting! And when does it begin to bear cigarettes?—From Time.

WINGED MISSILES.

The wings of English iron workers are marvelous.

Uncle Sam wants to build eighteen new war vessels.

Manufacturing corporations are springing up in Illinois.

Golly, what a Paper is the name of a new London newspaper.

By paying \$2 in spot cash, you can get a divorce in four hours in Japan.

American cattle are glutting English markets, and prices are away down.

A brother of James G. Blaine is teaching in the Indian school at Chemsawa, Ora.

Boston enjoys the honor of having introduced the Turkish bath in America.

The German Reichstag has voted to exempt students of theology from military service.

The bridge builders cannot put up bridges as fast as they are promised, for want of iron and steel.

A Williamsport Pa. child swallowed a toy whistle and has not been able to take any solid food since.

There is a story abroad that Queen Christina of Spain is thinking of contracting a second marriage.

The electricians are booming things and a hundred towns and cities over the country have electric roads.

A Bessemer steel casting works is likely to be built at Pittsburgh, which will make single castings weighing 3 tons.

Barbed wire fences in England are making in all stages of the disease.

There is a story about that Queen Christina of Spain is thinking of contracting a second marriage.

The pension department has upon its list the names of twenty-seven widows of revolutionary soldiers who have been regularly paid pensions up to the present time.

Three of them are ninety-seven years of age and two ninety-six. The youngest is a seventy-year-old.

Lepers are still numerous in Norway. The number is upward of one thousand, most of whom are found in the southeast province.

Leopros, once common in Europe, has maintained its hold in Norway longer than in other countries, and is gradually being exterminated there.

A horse employed in a lumber mill at Suerrville, Cal., for the last twelve years to haul away the sawdust, has become so well acquainted with his work that he goes and hops to another mill through the intricate passageways without a driver, and never strikes a post.

The electric light is making its way in London, the wires being laid under ground, and the streets all over the city will soon be illuminated by it.

Mrs. Emma Forsyth, daughter of the former consul at Lima, is said to own a plantation of 150,000 acres, on which she employs 100,000 people.

Franklin B. Gowen had a marvelous memory. After reading a long poem through twice he could repeat it without the text, word for word.

An article which is said to be 50 to 100 per ton lower in interior New England ports, since shipments over the new Poughkeepsie bridge were commenced.

Coal miners are poorly paid in nearly all the mining countries.

Strikes and labor organization they do not seem to improve their condition.

Criticism of a New York school girl—'I don't like Shakespeare but better have kept himself to his own poetry. When he writes poetry, he gets himself all mixed up.'

One of the items in a bill received by the selection of Eastport, Me., for the main-tenance of a harbor.

Another town was \$10 for popcorn cases.

Can the woman who recently had her nose picked out by physicians, who replaced the missing part with a piece of chicken bone, be accused for passing a counterfeit bill?

A Montreal police sergeant says there are many hundreds of men, women and children in that city who are so poor that they are almost destitute of both fire and food.

Illinois has a new law under which criminals are sent to the State Prison for a term of three to five years.

The description of a missing man which was sent to the Col. (Ohio) police headquarters contained the statement that he was sixty-five years old and small for his age.

A perfumed moccasin was unearthed at Pendleton, Oregon by some laborers who were digging for the foundation of a bank building. It will be sent to the Smithsonian Institution.

A man named Barcott, who sang in the Campani troupe, upon hearing that he had lost his entire fortune through the failure of a bank, lost his voice also, and is now under treatment.

Recently married Belfast, Me. couple cannot be accused of nasty action. They were published and the certificate was issued a year ago, but the knot was not tied until last Friday.

A petried apple was discovered at Harrington, Me. by some boys. It had changed to the color of marble. The stem and blossom were apparently as perfect as when the fruit fell from the tree.

Russian officials have decided that the telephone is "dangerous to the state."

In Warsaw orders have been given that telephones be taken down from all restaurants, coffee houses and liquor saloons.

A thief stole a locomotive from a railroad yard in Tuscaloosa, Ala., and got miles away with it before overhauled by pursuers.

There were altogether about three hundred distinct epidemics of influenza in Europe between 1850, when the disease was first noted in England, and 1893, the whole of Europe suffered severely.

Prof. Westphal, of Berlin, the distinguished authority on mental diseases, has announced that the use of the brain is not as successful in treating it as others. His case is reported to be hopeless.

At a recent wedding in Philadelphia the bride, in honor of the patriotism of her bride, who had declined many European offers and decided to give her hand to an American.

The largest gun in the world weighs 139 tons. A man could stand in its bore, with a plug in his head, providing the gun were being fired at the time! The shot weighs 200 pounds, and will go through 15 inches of armor.

The Failure

of the kidneys and liver to properly remove the waste of urea from the system, results in this acid accumulation in the tissues, thus causing rheumatism, neuralgia, and other ailments.

Hood's Sarsaparilla

Sold by all druggists. \$1.50 for 32. Prepared by C. H. HOOD, Lowell, Mass.

100 Dollars One Dollar

Somebody has invented a soap-bubble machine. It is put up in a neat box and in twelve peculiar kind of pipe, made especially to blow bubbles, a special brand of soap, warranted to beat the world for tenacity of film.

A new departure in the building business has been successfully tried in Germany. This is the wholesale manufacture of mortar, to be sold to small builders and private individuals.

In 1842 what is now known as "influenza" was known then as "Tyler's grip." Tyler was president of the United States, and the epidemic swept over the country and was called "Tyler's grip."

The pension department has upon its list the names of twenty-seven widows of revolutionary soldiers who have been regularly paid pensions up to the present time.

Three of them are ninety-seven years of age and two ninety-six. The youngest is a seventy-year-old.

HUMOROUS.

THOSE TERRIBLE RUSSIAN WORDS. Bronson—"Did you hear of the sad fate of poor Ollafsdick, the Russian?" Johnson—"No; what was it?"

A RABBIT SOCIALIST.—Mr. Goodfellow (waiting for Miss Nico to appear) "Wasn't Mr. Van Nico here last evening?" "Miss Nico's little brother—" "Yes." "Do you know he's a rabbit socialist?" "Yes. You jest or to see how social he is with sister when he gets her alone."

AFRICAN COUTESY.—"My dear sir, you have traveled in Africa! Do the African ladies suffer as much as we from the tyranny of man?" "Oh, no, the ladies there have special privileges." "How I long to be there!" "As I was going to say, at all the banquets the lady captives are always first eaten."

TWICE HE WENT.—"Wife—Oh George! Willie got his little hand caught in the hot iron door today, and crushed his little fingers horribly. He cried and cried until I was really frightened." "George—Poor little chap! I hear him crying yet; where is he?" "Wife—"Oh, he's crying now because I won't let him do it again."

"I am going to be indiscreet, Miss Chicago." "Oh, you can't be with me, Mr. Boston."—"No? Well, I was just going to say how elegantly that big diamond ring does harmonize with your hands."

Mrs. Bingo—"Clara has been shopping all day. Oh, here is the delivery wagon with some of the things she has ordered." "Bingo—"But where is Clara?" Mrs. Bingo—"She is probably waiting for the change."

His fiancée—"Are you sure you would love me just as tenderly if our conditions were reversed—if you were rich and I were poor?" "He—"Reverse our conditions and try me!"

Jack—"Why are you looking so sad?" Tom—"I saw Maud throwing sly glances at Harry to-night."

Jack—"Cheer up, I've no doubts for you she meant them, though Harry got them. Women can never throw straight you know."
