Pattison is coming up as the probable candidate of the Democracy for the Presidency. Bedford is expecting 800 teachers, when the state teachers' association meets in that town. The Democratic McKinley bill opponents are silenced by the decline in the price of sugar. Park Leach bought the Cibulka lot from Ferd Meyers for one hundred and fifty dollars. Russell Everett, a prominent politician of Allegheny county, died on the 7th inst., aged 74. Old Fellows contemplate celebrating the 72nd birth day of their order, which will be April 26. Carl Epsenhohde and James North drove to Bellefonte last week. The distance is 42 miles. 1906 Indians have attended the Indian school at Carlisle since its establishment 22 years ago. The new railroad enterprise in Tuscarora valley is exciting a large share of the people's attention. T. D. Garman, Esq., of Nanticoke visited Mifflintown on the day of the Silver anniversary of the G. A. R. The annual festival of the Hook and Ladder Company will be held on the evenings of May 14, 15, 16. The democrats in the State Senate have taken a stand against the bill to repay ex-Governor Beaver for money expended at the time of the Johnstown flood. Harry Shellenberger of Fayette, is about to engage in the stove making business. The machinery for the stove mill was hauled from this town last Thursday. Lewistown people promenaded on their new board walk to the station, but the Mifflintown people promenaded over the river bridge while after it was made free. J. Frank Stoner after a sojourn of some days with his parents to restore his health, left for Washington to resume the duties of his office in the census department. The only piece of the Juniata canal that is left is between Duncan's Island and Millertown dam. The water has been let into it and boats navigate its still waters. The chap who was bent on a providential expedition in the lot in the rear of the Post office backed out when he struck soft ground. He was afraid of his own tracks.

Dr. Ed. Strayer, has been tendered and accepted the position of resident physician to the Hospital of the University of Pennsylvania, Philadelphia. Henry Goshen has returned from Altoona, to which place he moved last fall. The climate of the Mountain City agrees with him but he likes Mifflintown better. The editors of Huntingdon and Blair counties, mourn over the loss of a valuable correspondent, John Calvin Clarkson—Janison—who died in Tyrone some days ago. The Democracy seem to be giving a great deal of attention to what they call the disagreement of President Harrison and Secretary Blaine, on the subject of reciprocity treaties. The contention over the admission of the American flag into Germany, which raged during the Cleveland administration has been settled. Germany agrees to admit American pork. Newport News: Frank Bar of Oliver township has a white Pekin duck, that laid 42 eggs from February 20 to April 4.—one each day for forty days and missed laying but 2 days. Rich on human and horses and ailments cured in 30 minutes by Woolf's Sanitary Lotion. This never fails. Sold by L. Banks & Co., Druggists, Mifflintown, Nov. 13, 1890, 1y. On Friday evening between 8 and 9 o'clock a flock of wild geese in their flight north became confused at the lights from this place and circled around the town 15 or 20 minutes. After a horse is nine years old, a wrinkle comes in the eyelid, at the upper corner of the lower lid, and every year thereafter he has one well defined wrinkle for each year of his age over nine. A E. Brady, clerk of the Directors of the Poor of Dauphin county came to Juniata county a few days ago, and removed a poor family from near Dimmsville to Dauphin county, where they belonged. The State Department has granted a charter to the Tuscarora Valley railroad company; capital stock \$150,000. The line is to extend from a point in Milford township to a point in Lack township. The toughs of Altoona have recently been stoning the police when they arrest a tough. It is only a question of time till the toughs who do such things will find themselves in the clutches of the law. Logan Iron and Steel Company at Logan, Mifflin county, shut down to prevent the Amalgamated Association from exerting control of their workmen. How long the works are to be closed does not appear. Mrs. Dotts—How is your new girl? Mrs. Potts—Oh, she is a perfect beauty. I left her to straighten things up, before the minister called, and she never even dusted off the Bible.—Indianapolis Journal. Hon. Thomas J. Stewart, Secretary of Internal Affairs has our thanks for the annual report of his department for government for the year ending, June 30, 1890, and a map of railroads in Pennsylvania. He did without sleep 159 hours. Miss Tillie M. London has returned from Eastern Cities with the largest stock of millinery and fancy goods ever had in this town. Come and be convinced that the most fashionable hats are at London's Millinery store in Mifflintown. If it had not been for the democratic party taking a decided stand against enlarging the navy, and against harbor defense, the world would not be now talking about the defenseless condition of cities along the coast in the United States. When water from Macedonia has been introduced the purchase of pills to a great degree will decrease for Macedonia water is said to be a cure for biliousness. If the watermen can't raise the wind, the people might go to the mountain and drink and cure biliousness in that way. Two weeks ago William Bates murdered Policeman Harper of Kenton, Ohio. Last Friday morning at 2 o'clock 50 men broke in the doors of the jail captured the sheriff, took the keys of the cell in which the murderer was confined, unlocked the door took out Bates and hung him. A number of coke working strikers in Westmoreland county one night not long since attacked property that belonged to the company that they refused to work for. The property was under guard of Deputy Sheriffs. The strikers were fired upon and a number killed, and now the strikers have brought a snit for murder against the Deputy Sheriffs. Rheumatism Cured in a Day.—"Mystic Cure" for Rheumatism and Neuralgia, radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause, and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by L. Banks & Co., Druggists, Mifflintown. Feb. 18, 91, Am.

It is said office holders seldom die, and never resign, but here is an example.—Senator Edmunds of Vermont, after twenty-five years service, has sent to the Governor of Vermont his resignation, to take effect November 1, 1891. He states that his reason is entirely personal, and that step has been in contemplation for some time. Henry Croep of Middletown, Dauphin county, in 1790 raised on two acres of ground: 150 bushels of potatoes, 150 bushels tomatoes, 2000 head of cabbage, 1000 pickles, 25 bushels of beans, 205 bushels of turnips, 90 bushels of horse-radish, 500 stalks of celery, 20 bushels of red beets, 80 bushels of muscups, 15 bushels of peppers, 8 bushels of onions and three bushels of onion sets. English Spavin Liniment removes all Hard, Soft or Calloused Lumps and Blemishes from Horses, Blood Spavin, Curbs, Splints, Sweeney, Ringbone, Stiles, Sprains and Swollen Throats, Coughs, &c. Save \$50 by use of one bottle. Warranted the most wonderful Blemish Cure ever known. Sold by L. Banks & Co., Druggists, Mifflintown, Nov. 13, 1890-1y. On account of the multiplication of business interests that make imperative demands on his time and attention, Brainard H. Warner has resigned the Presidency of the Columbia National Bank, at Washington, D. C., and is succeeded by E. S. Parker. Juniata county people all know Mr. Parker, and his acceptance of the trust increases their confidence in the Columbia National Bank. Hollidaysburg Register: We note from the Johnstown Tribune the fact that eighty-eight persons were received into the membership of the English Lutheran church there, by Rev. William A. Shipman, formerly of this place, pastor, on Easter morning. During the zealous ministrations of Mr. Shipman, extending only over a ten months' pastorate, 159 new members have been admitted to that church. Engineer Frank Patterson, and John Patterson, Jr., have the past number of days been busy taking the lengths and grades and heights of the different streets of the town so as to learn how many feet of pipe will be necessary for a company to use in providing the town with water from Macedonia Gap in Shade Mountain. If the water is brought from there, the town would be supplied with soft, pure, clear, wholesome water. HENNINGTON, Pa., April 12.—Henry Adamson, a Welsh miner in Dudley, this county has arranged to sell his wife to John Whitmore, a brother miner, a recent arrival and a boarder with the Adamson, for \$220. Papers have been drawn and the transfer is to be made to-morrow. The purchaser must also receive and maintain Bertha, a 10-year old daughter of the parting couple. Mrs. Adamson loves Whitmore best and Adamson is content and will give a feast. About two weeks ago an Indian commonly known as "Glasseyed Bill," shot and instantly killed his boss at his place on the Big Sandy for no other reason than that the child was sick and he had been crying and wailing the day and night before. The inhuman brute took the little one, and despite its pitiful pleading for mercy placed it on a sand dune and deliberately shot it. About two years ago this same brute shot and killed his squaw in like manner. The squaws told the story of the killing to the white folks on the Sandy, but we suppose no action will be taken for the punishment of this monster in human guise.—Mojevo, Cal. Miner. Lewisstown Free Press: On last Sunday afternoon while some boys were strolling along the creek, just below Greybill's Mill, they came across a pile of brush, which they piled a match to, consuming it, after which they commenced to separate the brush with sticks, and in doing so exposed the dead body of a small baby, possibly but a few days old, which killed or placed where John L. Currier Marks was notified and held an inquest, and will exert every effort to find the guilty party. Some are of the opinion that it may have come down the creek during the late freshet and lodged where found, but in our opinion this is not likely, yet such might be the case. The head of the child indicated foul play. The Lewisstown Gazette says:—About two-thirds of persons old and young, who enter gates at house-yards, leave them open either coming in or going out. It is carelessness for which there is no excuse, unless stupidity or laziness be one. * * * During the past winter Moses and Harry Harshberger, of Dratton Twp., done some trapping and shipped east, eight foxes, fifteen coon, twenty-four skunks and ninety nine muskrat skins. * * * Wednesday afternoon while John Spree was working in his lot on Chestnut street he began to feel bad and going into the house he told his wife he believed he would go up stairs and lay down, but shortly after reaching his room he died from an attack of heart disease. Altoona Tribune: The home is largely responsible for the man. The boy who is taught the meaning of obedience to those in authority over him, and who understands that his own welfare as well as the happiness of others depends very often on the disappointments of his own desires, will most likely become a law-abiding man, one who will respect rightful authority, wield an influence in behalf of every worthy cause and achieve signal success. There are men among our readers who thank God every day of their lives for parents who mingled firmness with kindness, who brought their children up by rule, teaching them that hard lesson, that one who would rule among men must first learn to rule his own spirit. Coming out of such homes the habit of subjection to law was a part of their nature. It was clung to them, shaping their lives and leading them into success. There were others who were not so fortunate in their home training and the lack of discipline has made them lawless, defiant, enemies of social order and their own worst foes.

W. U. Flagg aged 21 years, of Huntingdon with other young men of the same town came to Lewistown last Thursday and at night boarded a freight train and for freight he jumped off the train he jumped in the way of Eastern Express. His body was knocked over a box car that stood on a siding into the canal below a distance of 40 feet. He was killed instantly. It is reported that a Chilean is living in Tacoma, Peru, who is 151 years old according to his own statement and a document is in existence which he signed 142 years ago. He still works in his garden and is in good health. He attributes his long life to his simple and frugal habits. He eats only plain, nourishing food and eats it cold. He rises early, takes his bath regularly, never indulges in intoxicating liquors and does not smoke. The Franklin Repository of April 8th says:—A new scheme to get promissory notes out of farmers has just come to light and appears to have been extensively worked. The farmers are approached with a proposition to take shares in a co-operative company for the purchase of a station of good-edged plow, the object being to improve the horse-stalk of the neighborhood. The animal was usually represented to be worth \$2,600 or \$2,000. Each farmer was to chip in \$100 and sign an agreement, and after the full number of names had been secured the horse was to be secured and all notes taken for the purchase of money. A number of these partnerships have been formed in Berks county, and quite a lot of notes harvested. These notes as usual have found their way into the hands of third parties or "innocent holders." The makers of the notes now allege that they have been taken in, that the horses are very ordinary stock, and the whole scheme is impracticable. A number of lawyers have been retained, with the view of resisting payments of the notes. Hollidaysburg Register: Recently a young man answered an advertisement for a horse, and the horse was inserted in the newspapers by a lady residing on Thirteenth Avenue, Altoona. The room was declared to be suitable by the applicant and was rented. She accordingly brought her truck to the residence and took possession. It was not long, however, until the landlady began to suspect something was wrong and on Monday made complaint to Officer France. Wednesday, the officer with constable McFwey visited the house and was allowed to enter into the room which had been rented by the young woman. It needed but a glance to reveal that all was not right and an investigation was accordingly set on foot. The search went on until in the tray of the trunk was found the dead body of a seven-month infant. Coroner Pock was notified and immediately a jury, which, after viewing the body of the infant returned a verdict that it came to its death through criminal negligence on the part of the mother. It was the opinion of Dr. Weaver, who had been called in by the coroner, that had been born some thirty hours before its discovery.
