speed over a country unknown to their | It seems to me, now that I look back to fathers; the student burns freely the "midnight oil," while the housewife, in her efforts to keep pace with the requirements of modern society, calls into active play every fibre of the nerve system. What is the result? All over the land medical men are battling with nervous dyspepsia, nervous headache, nervous weakness and in many cases with general nervous prostration, oftentimes de veloping into paralysis.

To regain health you must correct all that is wrong in the nerve centres, and then all the various troubles arising from their diseased condition will disappear. In Brown's Sarsaparilla you have a nerve tonic and nerve food which sup-

hunted animal might live. I mistrusted every one and was possessed of a constant and nameless fear. Physicians told me the nerve centre was affected and when my food would not digest; when it soured on my stomach; when said I had nervous dyspepsia. I tried several physicians and adopted every thing suggested by friends, yet my nights were wakeful ones, and my days those of torture. One day Brown's Sarsap rilla fell under my notice; I began th use of it, and as a result the nerves were returned to their normal condition, a were also the digestive organs, and a per plies the waste tissues. Remember that | feet and permanent cure was the result.
