FOR THE HOUSEWIFE.

Families about to return to an unneed house should have some one open whisk and pan; your bottle of sweet all the doors and windows, and oil and spirits of turpentine and piece thoroughly air the house for several of flannel to preserve the polish, or days before their return, and also with restore the gloss where dark wood buckets or hose to flush out the entire grows dim or gets spotted. Find out, plumbing system of the house, thus by following your surely growing nental ability to which the race may filling all traps and cutting off com- sense of thoroughness and niceness, and heing but one of many munication with the sewer. Let no the best and readiest ways of keeping one neglect these simple precautions; all fresh about you. Invent you they may possibly prevent the siekness or death of some member of your you. When you make yourself family. Wholly mistress of what you wholly mistress of what you one neglect these simple precautions; all fresh about you. Invent your

can learn and do in your own apart-I wonder if every living housekeeper ments, so that it is easier and more knows that apple jelly and vinegar can be natural for you to do it than to let it reflective, studious turn of mind, has made from apple parings? Save the alone, then you have learned to keep a for many years past given his leisure parings in the ice chest till a sufficient whole house so far as its cleanly orderquantity accumulates, wash, cover ing is concerned.

with water, and boil quickly for an hour. Strain through a jelly-bag, add half the quantity of white sugar, and boil gently two hours. Flavor with vanilla, and pour into heated glasses. For the vinegar, the parings are put well, wash easily and require no iron-into a jug, a little water is added, and ing. they are allowed to ferment in a warm

place behind the stove.

Does any housewife throw away crusts and odd pieces of bread, or does she only slip them into the catch-all, when no one is looking? All ye that are tempted in this way know that crusts carefully saved can be made in- long again. to griddle cakes, puddings, meat dressings, fish cakes; and when dried in the oven and ground up with the rollingpin they can be used for thickening soups and gravies, or for any purpose for which rolled crackers are used. The pan of crusts carefully kept will then sweeping it all off again. save the measure of meal or crackers. and leave another little coin in the purse to be generous with, or to wear is to pour a strong solution of concenaway the barriers of narrow means.

Warmth is very important for the and most aged; exposure to the chills should be the pipes. scrupulously avoided. Bronchitis is Use honeycomb or crochet bedspreads the malady most to be feared, and its, for all common use. They can now attacks are very easily provoked. As a be obtained of fair quality as low as general rule, for persons sixty-five 75 cents and an excellent one for \$1.25. ature of the bed-room should not be better when not ironed, but pulled out below 60 degrees, and when there are straight to dry. symptons of bronchitis it should be raised 5 degrees to 10 degrees higher. Attention to cleanliness is decidedly conducive to longevity, and we may congratulate ourselves on the general improvement in our habits in this respect. Frequent washing with warm water is very advantageous for old people, in whom the skin is only too apt to become hard and dry; and the day, though it necessitates rigid econo nefit will be increased if the ablu- my in washing and ironing in some tions be succeeded by friction with other department of the house. Nothcoarse flannel or linen gloves, or with ing more surely shows good breeding a flesh-brush.

You have heard of the lady whose habitually eating off an oilcloth spread ake disappointed her in the very face or a slovenly linen one. of company coming to tea.
