

WEDNESDAY, JUNE 17, 1891.

B. F. SCHWEIER

EDITOR AND PROPRIETOR.

The Democratic ring have secured control of the great Brooklyn Bridge.

The Supreme Court has sustained the Treasurer appointed for Philadelphia by Governor Pattison.

As things go these days, the biggest man in Jersey, is the man that has 60,000 baskets of peaches to sell.

The investigation of the Philadelphia rotten Keystone Bank is going on. Post Master General Wannamaker was on the witness stand, but knew nothing about the Bank, except as a depositor.

Our revolutionary fathers repudiated England's religion and her politics. Now let the children of the fathers of 1776 repudiate the single money gold standard and reinstate silver as a free coin and better prices will soon prevail.

NEW ORLEANS HAS COME TO THE FRONT as a peculiar reform city. She fixed the men that were fixed by the jury fixer and now she prepares to fix the jury fixer. It is probable from present appearances he will be tried by regular process of law.

REAR-ENDS' eternal grow larger. The latest revelation is that he pocketed \$445,000 city school funds that were sent to him by the State Treasurer. The thief is not a Pennsylvania he is a foreigner from across the sea, having come to America when young.

The San Francisco Call says: "A billion dollar Congress will only be an effective issue when the Democrats show that the money was not wisely expended. What item shall be cut off—pension, ships for the navy, coast fortifications, rail payments or what?"

There was when gambling was a gentlemanly accomplishment, but in these times it is a stigma on a man to be a gambler in private houses or regular gambling places, and that is the reason the Prince of Wales, Queen Victoria's eldest son, is denounced by anti-gamblers, the world all over. He is fond of gambling in the private houses of friends.

DEMOCRATIC leaders are thundering at the tariff. They are slow to get away from the teachings of the old slave holder leaders who were all against a tariff. The present generation has been indoctrinated with the beliefs of the Southern Confederacy on the tariff question. The Southern Confederacy engrafted a clause in their constitution for hiding the protection of industrial establishments by a tariff or tax on articles imported from foreign countries.

The constitution of the late Southern Confederacy on the tariff question would suit the leaders of the Democracy to day better than the constitution of the United States.

THE people who have been coming upon the Republican party as an organization that has reached a state of perfection have been counting too much on human nature. But the Republican party has given a more complete system of government for the bettering of the general condition of the people than any other organization known among men, and to dismember it or to forsake it for the promises of some other organization is like a man stepping out of a well lighted comfortable place into the darkness to follow the dazzle and novelty of a "Jack and Lantern" gas light. Never give up a certain good for the promises of an untried upstart organizer grounded upon questionable principles.

THEY companies and corporations that loan money on security are requiring that the interest of their loans shall be paid in gold, and the principal shall be redeemed in gold. That is the very purpose of the demoralization of silver. The money lenders will bankrupt the country with such a money system. No man should be sent to the Legislature, elected to Congress or to the Presidency, who is a single coin—gold—man, and reader, whatever you do in the way of purchasing on time—mortgage, be certain that you do not sign a document that binds you to pay only in gold, for you may not be able to command the gold when wanted. Make your payments in gold or silver or lawful United States money.

RECAPITULATE—That's the word, the game that the Prince of Wales, was most fond of. The Prince is fond of gambling and that fact having been made clear to his people, he is most vigorously denounced by a large percentage of the nation who are not gamblers, and who in the bottom of their hearts despise the practise of gambling. A Prince with a proper regard for the wishes of his people, could with respect to himself give up the habit of gaming. That is what the Prince of Wales should do. He would then prove himself worthy to become the ruler of a great nation that the English are not gamblers, and who in the bottom of their hearts despise the practise of gambling. A Prince with a proper regard for the wishes of his people, could with respect to himself give up the habit of gaming. That is what the Prince of Wales should do. He would then prove himself worthy to become the ruler of a great nation that the English are not gamblers, and who in the bottom of their hearts despise the practise of gambling.

on public opinion. On that point they are in error, and when they come to enforce their views, they may find that popular opinion is not what kingdoms are founded on. In this case, however, the Prince would do himself justice and recognize the moral sense of his people by forever hereafter refraining from gambling. To use a Western expression, if he would drop to the situation, he would win back the good opinion of the English people to him and perhaps save the kingdom from a fight from which he can only save himself by the sword, and if he is not a natural soldier born to command he will lose both sword and crown.

Court Proceedings.

Reported by B. F. Buchfield, Esq. The Judges were all present at the opening of Court, June 9, and the accounts of Executors, Administrators and Guardians, numbering 18, advertised to this day, not being excepted to, were confirmed, and also the three assignees' accounts were confirmed.

B. F. Buchfield, Esq., was appointed an Auditor in the estate of George Hookenbrough, deceased.

An order was granted Ella B. Witt, Administratrix of Alvin H. Witt, to sell real estate for payment of debts.

It having been discovered after the filing of the Auditor's report in estate of Michael Beahler, deceased, that a certain asset included and distributed as part of the estate had been previously assigned by Wm. Beahler, the report was modified to that extent.

In estate of John B. VanOrmer, deceased, the heirs having refused to accept at the ratification of the inquest of partition an order was granted, directed to F. M. Ponsell, Esq., to sell said real estate.

An inquest of partition was granted upon estate of George W. Stevens, late of Port Royal, deceased.

William M. Allison, Esq., was appointed an Auditor in the estate of Isaac Hoffman, deceased.

Upon the conclusion of proceedings upon application for specific performance of contract, John H. Little, Executor of William Beale, deceased, was directed to make a deed to Nancy H. Rhine for the land, upon her paying the price set forth in the contract.

In the estate of Alexander Woodward, deceased, the administrators were allowed to pay money into court due on a dower mortgage, the whereabouts of mortgages, heirs of Eli Keely, deceased, being unknown and the lien of mortgage to be discharged.

Estate of Wm. Frederick Wallenstein. The real estate being re-assigned the inquest was confirmed and rule granted on heirs.

A divorce was granted Sarah M. Roe from Robert Roe.

Jeremiah Lyons, Esq., assignee of David E. Robinson, was granted leave to sell real estate of the assignor for payment of debts.

An order of sale was granted Wm. Ham A. Kurtz, assignee of Henry S. Meist.

An order of sale was granted John P. McWilliams, assignee of Wm. Henry.

J. N. Keller, Esq., was appointed an Auditor in assignee estate of Samuel Pullman.

B. F. Buchfield, Esq., was appointed an Auditor in assignee estate of Isaac Paffenberger.

Sale of assigned property of Phil H. A. Smith, one lot to H. O. Sieber for \$1080, and another to E. A. Smith for \$250. Confirmed by the court.

A rule was granted on Mary Ford to show cause why she should not pay costs of inquisition in lunacy.

Commonwealth against Charles Casner. Motion for a new trial. Argued and held for consideration.

Louis Atkinson vs. D. Omer Dresler, et al. Motion for a new trial. Argued and held for consideration.

Catherine Cox vs. Administrator of Paul Cox, deceased. Motion for a new trial. Argued and held for consideration.

Ask Your Friends About It.

Your distressing cough can be cured. We know it because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c and \$1 at all druggists.

World's Fair Notes.

Under the third call for payments on Exposition stock Treasurer Seeberger is taking in from \$40,000 to \$80,000 a day. On June 4th there was \$82,000 paid in. Subscribers are paying up more promptly and cheerfully than they did on the first and second calls, they being evidently much pleased over the very visible and rapid progress which has been in Exposition work of late.

The National Lithographers' Association has talked of making an extensive exhibit of lithography at the Exposition.

Dr. James A. Henshall, of the Ohio fish commission, will have charge of that part of the World's Fair fish and fisheries exhibit which relates to fishing tackle. Dr. Henshall is a famous fisherman and promises that visitors will see finest display of angling appliances ever collected.

An international Exposition relative to fishing is one of the attractions of the World's Fair. It is believed that the great ornamen of the world can easily be induced to participate in such an event, and negotiations to that end have already been begun by interested parties.

Phillippeaux, the celebrated panorama artist who painted the "Battle of Gettysburg" and other great scenes of the kind, went to Paris for the Exposition a large number of artists shall illustrate the life of Columbus from his birth to his death.

Colonel Musgrave, who was in charge of the exhibit made by the island of St. Vincent at the Jamaica exposition, will bring to Chicago a group of Carib Indians, who are descendants of the natives discovered by Columbus. These Indians will live on the grounds and pursue their industries, the chief of which is basket-making.

Fisheries will receive more consideration at the World's Columbian Exposition than has ever been accorded them elsewhere under similar circumstances. Hereafter there has never been an adequate and suitable provision made at any exposition in this country a fishing exhibit.

Chief Collins heartily approves the plan that has been made and says the United States commands the fish which inhabit the coast region of northern Peru before the conquest. The collection embraces specimens of pottery, copper instruments and various objects of ethnological interest.

One of the interesting features of the exhibit which will be made by the Interior Department of the Government will be that relating to the American Indians. One of the officials of that Department, is speaking of the matter, said: "We will have Sioux and Pueblos on the ground in their peculiar wigwags, making all the noise of their language that they can make. The Zulus, who are classed with the Pueblos, will make blankets, stone bottles and a peculiar kind of pottery, while the Navajos will weave blankets so firm that they will hold water. The peculiar huts of the Pueblos, which are entered from the roof, will also be shown."

Contracts for the erection of the World's Fair buildings are now being let at the rate of about one a week. Chief of Construction Brunas says that there is no good reason why the buildings should not all be completed by July 1, 1892. Contractors are put under heavy bonds to finish their work within specified time. The first building contracted for must be completed by December 1st, and the rate of about one a week. The original and only genuine Compound Oxygen Treatment of Dr. Starkey & Phalen, is a scientific adjustment of the elements of oxygen and hydrogen, and the compound is so condensed and made portable that it is sent all the world. It has been in use for more than twenty years, and has cured thousands of cases of chronic catarrh, bronchitis, asthma, and consumption. It is a very significant fact.

These statements are confirmed by numerous testimonials, published in our book of 200 pages, published by Dr. Starkey & Phalen, which gives to all inquirers full information as to this remarkable curative agent, and a record of surprising cures in a wide range of chronic cases—many of them after being abandoned to die by other physicians.

Philadelphia Record:—A specimen of the "bura" or a humanity walked up to a Ninth street bar yesterday, and, after he had taken a large drink from the whistle bottle which had been placed in front of him, explained that he was with out the means of settling his bill. The infuriated attendant jumped over the counter and kicked Mr. Bura into the street. As the mixer of mint juleps and "sich" was returning to his place behind the bar the recently ejected stranger poked his head between the doors and exclaimed: "Say, Mister, I'll take another drink at the same price."

A Beau in a Closet.

The New York Press of June 8th, says: A commotion was caused in the house of Augustus Hurlman, 218 Penn. street, at one o'clock this morning by the ringing of a burglar alarm. The family had retired but the alarm awakened them. It is so happened that the kitchen maid, Annie Miller, was entertaining her sweetheart in the kitchen when the alarm went off. The sweetheart's name is John Koch. He lives at 556 Marcy avenue. The two young people were much perturbed when they heard the alarm and they lost their heads when they heard Mr. Hurlman coming down stairs.

Annie unlocked a closet, and thrusting John inside she closed it again and awaited developments. Mr. Hurlman entered the kitchen and found his servant girl pale and trembling. This did not surprise him. But when she declined to say a word he was indeed surprised. Mr. Hurlman noticed that she stood with her back to the closet and seemed unwilling to change her position. His suspicions were aroused. He waved the girl aside, opened the closet and of course then found the scared John Koch. Annie explained it all and the policeman who arrived was sent away.

NEW ENGLAND Religious Bigotry.

As a relic of the religious bigotry of the more intelligent people of New England in 1682, we publish the following from Cotton Mather who was president of a Yankee College. The college now is one of the swell institutions of learning in America.

In view of the Brooks case the New York Letter and Puncher prints the following, the original of which is said to be in a Book of Records, dating from early in 1680 to 1749, and kept in an old Quaker meeting-house in Green point, R. I.

"To ye aged and beloved—Mr. John Higginson: "There be now at sea a ship, called the Welcome, which is on board an hundred or more black beretians and malignants called Quakers with W. Penn, who is the chief scamp at the head of them."

"The General Court has accordingly given secret orders to Master Mialoch Huscott of the brig Purpose to waylay the said Welcome sloop, as near the Cape of Cod as may be, and make captives of the said Penn and his gangly crew, so that the Lord may be glorified, and not mocked on the soil of this new country with heathen worship of these people."

"Much spoil can be made by selling the whole lot in Barbadoes, where slaves fetch good prices in rum and sugar, and we shall not only do the Lord great service by punishing the said vessel, but we shall make great good for his minister and people."

"Master Huscott feels hopeful, and I will set down the news when the ship comes back."

"Yours in ye bowels of Christ. "COTTON MATHER."

A Cure for Constipation and Sick Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and leaves, and is known as Lane's Family medicine. It will cure sick headache in one night. For the blood, liver and kidneys, and for the clearing up of the complexion it does wonders. Druggists sell it at 50cts a package.

Wood Relief 1886.

While digging in the vegetable garden of Dr. G. H. Wood at Arlington a few days ago, Mrs. Washington Long struck a hard substance with her spade, which, on examination and loosening in the ground, proved to be a barrel of whiskey that lodged on the premises in the June food, and is the property of Martin Grabs. The whiskey is one of the fifty or more barrels taken away by the destruction of the distillery band house on the first of June, 1889. It is said that the whiskey is in first class condition: Huntington Globe.

THE greatest improvement in past twenty years is the use of Coralline in the place of horn or whalebone. It is used in all of Dr. Warner's Corsets and in no other.

The advantages of Coralline over horn or whalebone are that it does not become set like whalebone, and it is more flexible and more durable.

Dr. Warner's Coralline Corsets are made in twenty-four different styles, fitting every variety of figure—thin, medium, stout, long-waists and short waists.
