### Destructive Grasshoppers-

A despatch from Texas last Friday says: Grasshoppers are devastating Northern and Western counties of New Mexico. The lands are grazing lands in New Mexico but the locusts are moving east and north in two principal swarms, driving grass-hoppers on the range and leaving the alkali bare. They move in bunches of four and five miles wide.

One bunch has devastated Colfax and Mora in the northern part of the Territory and is spreading into Colorado, Kansas, and the pan handle of Texas, while another bunch will reach the central Texas line by winter. They will lay billions of eggs Day Coaches will leave Pittsburg at in Texas and Kansas for next season's 8.50 A. M., for Philadelphia stophatching. They may not reach Eastern Texas next week soon enough to destroy the crops, but grave fears trains from branch lines. Passenare entertained for Kansas. It will go hard with her in 1892.

### The Indian No Good.

A PRIEND of Dr. Arthur Greaves tells in the following way, how it comes the Doctor abandoned missionary work among the Indians. One year ago Dr. Arthur Greaves, of Boston, went west to do missionary work among the Indians. For the last ten years be had been an active member of Eastern societies formed in aid of the Indian, but he wished to visit the saveges in person and to administer spiritual and worldly blessings to them. He visited a number of agencies and conversed with bundreds of Indians. Faithfully he labored for nearly a year. Then be quit. Dr. Greaves was at the Richeliu yesterday, journeying toward Boston. He is totally disgusted with the aborigines.

"I have worked like an apostle of olden times with the Indians," he said last evening " and have retired from missionary work for good.
