

B. F. SCHWEIER, EDITOR AND PROPRIETOR.

A WESTERN man claims to have invented a one wheel machine on which a man can travel as many as 70 miles an hour if he has a good road.

A MONUMENT to the memory of Stonewall Jackson, was unveiled on July 21, the 39th anniversary of the 1st battle of Bull Run, at Lexington, Va. The monument of the Stonewall brigade was there at the head of the grand parade. Forty thousand people were in attendance.

THE STABS of Bardley's check books point out that certain men received some of the money that he plundered. Bardley was had enough to have falsified his check stubs. The checks or the account of them in the money institutions through which they passed would settle the question.

LIFE insurance agents are constantly tugging at the coat tails of men to insure their lives and then when there is the least peculiar thing about a man's death, which is liable to happen to any one in the manifestation of nature in the death of a man, up pops the company, with a law suit, to contest the payment of insurance because they do not fully understand the causes that lead to the death.

WHEN the Republican party was managing the country in its death grip with slavery it required money to pay army expenses, and among means employed to raise money was a tax on income. When the war closed the tax was repealed. The Democratic party fought that tax. Now the Democratic party in Ohio wants to levy an income tax, and says so in the platform on which they are running Campbell for governor.

GENERAL JERAL A. EARLY, delivered the oration at the unveiling of the Stonewall Jackson Statue in Virginia last week. The General closed his speech by saying: "Let me conclude by saying, and let every honest hearted Confederate who fought bravely in the war, say: 'If I should ever apologize any part for action taken by me in the way of the lightning of a righteous heaven blast me from the earth, and may I be considered as spawn of the earth by all honest men.'"

THE SHUT DOWN of the steel works at Harrisburg will effect 20,000 people counting that 5 people are dependent, directly and indirectly on the 4000 men thrown out of employment. It's a great blow to Harrisburg business and now the days are beginning to shorten and as the fore runner of winter it puts a gloomy face on affairs for many families. How are they to live, where are they to get the means to pay their rents, to pay for their bread and butter fuel and so forth. It is reported that a large percentage of the men belong to secret labor organizations and that they will keep them until they can find employment.

LAST fall the Farmers Alliance in Kansas elected a man named G. W. McKay of Harper county Judge of one of the judicial districts of the state. McKay was not a lawyer, but after his election he attended a law school six months, and then he knew more than the Supreme Court of Kansas or he thought he did. He had ordered the arrest of a man who had done something unlawful as he believed. The arrested citizen carried the case to the Supreme Court and that court reversed the order. McKay immediately issued an order of arrest which included the sheriff in the order for obeying the Supreme Court. Now the Supreme Court has ordered the arrest of Judge McKay for disobeying its orders. If the people had elected a lawyer for judge they would not have such a snarl on hand among the courts.

Criminal Labor.

UNDER the law in Tennessee individuals and corporations may contract with prison authority for the criminals of convicted and jailed criminals, and oftentimes the contractors put the criminals at work alongside of men of honest lives and honest reputation. Such was the case in Coal Creek coal mines. A lot of penitentiary criminals were taken to the mines under contract price with the prison authority and placed in the mines to work with reputable miners. The result was the honest miner protested and refused to allow the criminals to work with them. A company of 80 militia were sent into the region to take care of and protect the jail birds, but the appearance of the militia caused a general uprising and the criminals and militia were taken and placed on board of a train of cars and shipped out of the valley. The Governor of the state then called all of the militia but did not march them into the valley. A Committee of miners met the Governor at Knoxville, and there it was agreed that the Governor should at once convene the Legislature in extra session for the purpose of repealing the convict labor contract system. The Legislature is to be convened within 60 days and during that time have agreed not to molest the convicts at their work, and not to allow property to be destroyed. Criminals should never be placed at

work in competition with honest labor and the system of prison labor that manufactures goods that are sold in the market in competition with honest men's work should be abolished in all of the states. If men will make outlaws of themselves, so that they will have to be confined, they should not be allowed while in jail to make goods in competition with the people outside whose labor and savings build the jails in which the thieves and murderers are confined. Prison labor should have horrors enough to make its life undesirable to the thieves and then it would be of some account in intimidating bad people from committing crime. The way prisoners are now treated in jail, they live better than thousands of honest people upon whose energy and earnings, jails, courts and jail keepers and court officials are kept up. The people never intend when they submit to taxation to keep up jails, but the prison places shall become manufacturing establishments and places where railroad contractors and coal miners may go to employ thieves and murderers to work for them at contract price.

Sworn into Prison.

THE bad men and bad women who sell false oaths to people they do not like live in every community and every community has its people who do not hesitate to swear falsely against whomever they are displeased, but it has been left to the Chambersburg Repository of July 22 to relate the account of the robbery and murder of a former Franklin county man, and the false swearing by which the man who committed the murder succeeded in firing the crime on another Franklin County man, and having sent him to the penitentiary for a period of 33 years.

THE Repository says in the recent mysterious murder of Samuel Jones, a former resident of Franklin Co., in Colorado some six years ago. The murdered man was a native of Path Valley and a brother of Post Master Robert G. Jones of Chambersburg, who after the father went west to investigate the case but did not bring his brother's body back with him. Campbell the companion of Jones, who was accused of the murder, but is now claimed to be innocent, was also a native of Path Valley. The following dispatch from Denver, Col., gives fuller particulars of the recent developments in the case, which will be of interest to our readers, especially those in Path Valley.

"In the history of crime that swept over the Ute restoration in western Colorado from the removal of the Indians to the beginning of 1886, there was no single instance of lawlessness and murder that caused greater excitement or aroused such intense indignation among the people of that section as the murder of Samuel Jones, alleged to have been done by his partner, John L. Campbell on May 19, 1888, near Unaweep, Canon, Mesa county.

Campbell was active manager for ranch. Jones had mining interests at Silverton, and spent most of his time in the vicinity of that place. In the summer of 1885 he visited Campbell, and after a stay of several days the unfortunate Jones left the cabin in the afternoon of May 19, 1885 for Silverton, and was never thereafter seen alive. Two days after the murder Campbell returned home leading the horses ridden by Jones.

Two months elapsed before suspicion was aroused, and then only when it became known that Jones had never reached Silverton. The entire population Campbell among them turned out to scour the country for the missing man. His body was at last found in the base of a high perpendicular rock near the summer ranch of Campbell and Jones. There were bullet holes from a 44-caliber revolver in the body and clothing. Near the body at the base of the cliff was found a pendant to a watch chain that proved to fit exactly upon the chain worn by Campbell.

As a motive, the State produced at the trial of Campbell and Jones, one which made Jones and Campbell equal partners in everything. In the other the profits only were to be divided after the sum originally invested by Jones had been paid back. The first was declared a forgery by the prosecution, and the inference drawn that crime was committed to make Campbell sure of his share under the forged contract.

Campbell was arrested and the trial by necessity was one in which many bitter and venomous passages and arms were indulged in by opposing attorneys. Campbell had little evidence to offer further than his own innocence. The jury returned a verdict of murder in the 2nd degree. Judge Gerry sentenced him (Campbell) to 33 years in the penitentiary.

Among the important witnesses for the prosecution were Bob and Ira Smith cowboys from Unaweep. They testified over to fasten the crime on Campbell. The brothers were lodged in jail in Denver awaiting trial in the Federal court for robbing the United States Mail. While recruiting their wasted physical energies in jail they met the equally famous Newt Vere, well known as "the terror of Deer Trail."

The Smiths and Vere became friends and exchanged confidences. The Smiths were convicted and sent to Laramie City, Wyoming, to serve a long term. Vere now resides in Canon City and a few days ago confessed that the Smiths proclaimed Campbell's innocence and admitted that they had committed the crime. In excess they said that Jones was robbed of \$12,000. Campbell's release is now being looked after.

Democratic Primary Battle

FROM the middle of last Saturday afternoon to seven o'clock in the evening the Democratic party from the Susquehanna river to the Huntingdon county line was in a blaze of battle under the fierce fire of ballots between Regulars and Independents for the primary nomination and organization of the party in Juniata county.

About 1485 men were engaged. The Regulars won the offices. The Independents won the organization. The most important office in contest was that of President Judge. Early in the year it was thought Patterson would have no competitor, but McMeen, Independent sided his banner into the race, and then began one of the notable fights between Regular and Independent. Patterson won the battle by 789 votes to McMeen's 678.

The second important and most fiercely contested was that between Jenkins an old time Regular and Berry, Independent High Priest and leading kicker. Jenkins pierced Berry's armor and laid out the expounder by 171 majority. The votes stood, Jenkins 828, Berry 657.

Sublet and Finn, Regulars of the straight order won the battle over the other candidates for the Associate Judgeship by 631 and 609 votes respectively. For the same office Milliken had 353 votes; Hinebaugh had 261 votes; Wisnaupt had 266 votes; Barber had 54 votes.

Van Orner won the nomination for Sheriff. He has not been looked upon as a Regular of the first water, and in past days it is said flirted with the high kickers in more than one campaign, but because he lives in the Republican stronghold of Fayette it was deemed politic to nominate him. Johnson was laid on the shelf.

Had Hackenberger as the Freshman man was knocked out of combat. Van Orner had 577 votes; Hackenberger 297, Johnson 498.

The Bell and Deala vote for Jury Commissioner surged along with the battle, and when all was over Deala is proven to be the candidate by 889 votes to Bell's 489. It will thus be seen by those who understand the political complexion of the county that the Regulars won the fight for the offices, but lost the county organization in the defeat of Noble for County Chairman.

The Regulars had in the field Sheriff Noble true and tried, and a strong man for County Chairman. The Independents rallied for D. B. McWilliam a veteran in politics and a strong man in other ways. McWilliam won the Chairmanship on a vote of 742. Noble lost the Chairmanship on a vote of 656.

There were a number of contests for return Judges. Notably, among them, Editor Bossall, who used to be bedfellow with the Independents and he changed beds and was smuggled in with the Regulars, but was defeated for return judge. It was reported on the street that Bossall had gone to bed with the Regulars for the purpose of getting the nomination as a delegate to the Constitutional Convention.

In Patterson Howard Kirk a veteran Regular was defeated for return Judge, and so on the battle raged and was lost and won among the underfired, and now the chief gladiators of the fight are taking a breathing spell to look at each other.

THE MEETING of RETURN JUDGES. The Return Judges met in the Court House at 2 o'clock P. M., on Monday.

John Leach the retiring county chairman called the meeting to order. Henry Swab was elected chairman. Wm. Jackson, I. C. Lantz were elected Secretaries. Mr. Jackson desired to substitute R. E. Parker, which was granted.

De Litter presented credentials from Tuscarora as a substitute for Judge Martin. President Swab wanted to know what to do in the case and suggested a motion. Judge Sheesley asked whether Ritter had been sworn—Captain Hinkle moved to admit the Doctor as a return judge the motion carried unanimously.

President Swab read the name of each candidate and the number of votes cast for each one in the respective townships, which were recorded by the secretaries. Secretary Parker announced the number of votes each candidate received as given above.

Delightful Excursions to the Choicest Resorts of the New Jersey Coast via Pennsylvania Railroad.

The 2nd of the series of the Pennsylvania railroad's coast tours to the resorts of the New Jersey coast was a grand success. Two large trains hardly sufficed to accommodate the party and they are now enjoying a delightful visit to the shore. The next date is August 6th, which will enable the members of that party to reach the shore at the very high tide of the season. The points available by these tours are Atlantic City, Cape May, Sea Isle City, or Ocean City, all of which are favorites with the regular train of the next day.

The excursion tickets good for ten days are to be sold at a rate of \$10.00 from Pittsburg, and at correspondingly low rates from other stations. A special train of Parlor Cars and Day Coaches will leave Pittsburg at 8:50 A. M., for Philadelphia, stopping at all important junction points, where connections will be made with trains from branch lines. Passengers will spend the night in Philadelphia and proceed to the seaboard by the regular train of the next day. Tickets will be sold from stations named below, and train schedule will be as follows:—

Table with 2 columns: Station, Rate. Train Leaves. Pittsburg... \$10.00 6.10 A.M. Lewistown Jc... 6.00 2.45 P.M. Millville... 5.65 3.05 P.M. Newport... 5.00 3.35 P.M. Dunncannon... 4.60 3.53 P.M. Philadelphia... 7.15 P.M. Underscore the date August 6th, so that you will not miss this great trip.

After a Farmer.

Sunbury American.—Three men drove out to John Gross' farm in Tumbling run valley the other day. They were bunco steers.—They wanted to buy the farm at a fancy price. Gross got into their carriage and shortly afterward the sharpers started a game of cards. Gross was induced to play and he won \$200. The men wanted him to show \$200 if he had lost. Gross said they should drive to the bank and he would get the money. On the way he began to think this was a peculiar scheme and he became frightened and jumped out of the carriage, and told the bunco men to move on. The matter was reported to the police later, but the men had departed for fresh fields and greener victims.

New England's Decline.

Philadelphia Record: The diminishing birth rate in New England, and the consequent decline of families, has often been a theme of comment for moralists and students of social science. But never, perhaps, has it been so strikingly exemplified as in the case of Birmingham, Conn., where in a single school district not a child has been born in nine years; so that the school will have to be abandoned. This is doubtless an uncommon case; but there is no ground for the belief that it is wholly exceptional—at least, no such ground is stated in the item setting forth the fact. It is to be hoped, on every account, that to the evil of abandoned farms in New England may not be added that of abandoned schools.
