loving world this is.

the' Remember last winter's siege. Recall how trying to health were the frequent changes of the weather. What was it that helped you win the fight with disease, warded off pneumonia and possibly consumption? Did you give due credit to SCOTT'S EMULSION of pure Norwegian Cod Liver Oil and Hypophosphites of Lime and Soda? Did you proclaim the victory? Have you recommended this wonderful ally of health to your friends? And what will you do this winter? Use Scott's Emulsion as a preventive this time. It will fortify the system against Coughs, Colds, Consumption, Scrofula, General Debility, and all Anamic and Wasting Diseases

(specially in Children). Palatable as Milk. SPECIAL -- Scott's Emulsion is non-secret, and is prescribed by the Medical Pro-fession all over the world, because its ingredients are scientifically combined in such a manner as to greatly increase their remedial value. CAUTION -- Scott's Emulsion is put up in salmon-colored wrappers. Be sure and get the genuine. Propared only by Scott & Bowne, Manufacturing Chemists, New York.

What folly it would be to cut grass with a pair of scissors! Yet people do equally silly things every day. Modern progress has grown up from the hooked sickle to the swinging scythe and thence to the lawn owwer. So don't use scissors!

But do you use SAPOLIO? If you don't you are as much behind the ige as if you cut grass with a dinner knife. Once there were no soaps. Then one soap served all purposes. Now the sensible folks use one soap in the toilet, another in the tub, one soap in the stables, and SAPOLIO for all scouring and house-cleaning.
